

## Influenza-like Illness Case Definition

**Influenza-like Illness (ILI) =**

**Fever (>100°F)**

**-AND-**

**Cough and/or sore throat**

Please report only those patients that meet the ILI case definition provided above.

For example, a patient with fever, body aches, and nasal congestion but without cough or sore throat is not considered a case of ILI.

Please use the Influenza-like Illness Report Form to report all patients who meet the above case definition to the City of El Paso Department of Public Health.
