

El Paso Continuum of Care (CoC) FY 2018 Project Awards

As a partner to the City working to prevent and end homelessness in El Paso, the El Paso Coalition for the Homeless is thrilled to share with you the final outcome from the FY2018 CoC Program Competition submitted to HUD in September 2018.

For the first time in many years, the El Paso Continuum of Care was awarded bonus projects, indicative that we, as a community, are heading the right direction in addressing homelessness in our region. This was due, in part, to the City's support of the realignment of the Crisis Response System through the Emergency Solutions Grants Program and the tireless and selfless work of all the Coalition's partners dedicated to supporting and serving the homeless in El Paso. These HUD-funded programs will continue to support our homeless assistance infrastructure as we strive to make homelessness rare, brief and nonrecurring.
