CITY MANAGER

Dionne Mack

To the Honorable Mayor, Members of the City Council, and Citizens of the City of El Paso, Texas:

We are pleased to present the City of El Paso’s Annual Comprehensive Financial Report (ACFR) for the fiscal year ended August 31, 2025. State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended August 31, 2025.

In addition, Section 7.21 of the City Charter requires an annual audit of all City accounts by an independent certified public accountant. The ACFR is the summary of the City’s financial activities for the past fiscal year. We believe this ACFR is accurate in all material aspects; that it presents fairly the financial position and financial activities of the City measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the City’s financial affairs have been included.

City Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Forvis Mazars LLP, independent auditors, have issued an unmodified (“clean”) opinion on the City of El Paso, Texas’ financial statements for the fiscal year ended August 31, 2025. The independent auditor’s report is included in the financial section of this report.

Generally accepted accounting principles in the United States of America (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor’s report.

Office of the Comptroller

Profile of the City

El Paso was incorporated in 1873, and in 2025 celebrated 152 years since its founding. The City is located at the confluence of two countries (the United States and Mexico), and three states (Texas, Chihuahua, and New Mexico). The City of El Paso represents one-half of the largest binational metroplex in the Western Hemisphere with the regional population expected to exceed 3 million by 2030.

The City is located in far west Texas and is the sixth largest city in the state. The City's corporate limits encompass approximately 256 square miles. It is approximately equidistant from the cities of Houston, Texas; Denver, Colorado; and Los Angeles, California. El Paso-Juarez-Las Cruces, is the area comprising the region around the City with a population in excess of 2.7 million. The City's population as of 2025 was 681,723. El Paso County's population other than the City was 194,061 and Ciudad Juarez, Mexico's population was 1.6 million.

The City operates under a Home Rule Charter with a Council-Manager form of government consisting of a mayor and eight council members. The mayor is elected at large for a four-year term. Council members are elected from eight single member districts for a four-year term. Elections are held biennially. The City Manager, appointed by the City Council, is responsible for the management of City employees and the administration of all City affairs.

The City of El Paso provides a full range of services to the general public. These services include police and fire protection; emergency medical and health services; sanitation services; mass transit transportation; construction and maintenance of streets and infrastructure; recreational activities and cultural events; convention and cultural facilities, international airport and bridges, economic initiatives and general administrative services.

Financial Reporting Entity

The financial statements presented conform to the requirements of the Governmental Accounting Standards Board (GASB). GASB has established government-wide and combining fund financial statements as the required reporting level for governmental entities that present financial statements in accordance with GAAP. This report includes financial statements of the funds required for those activities, departments, and functions related to the City and that are controlled by or dependent upon the City's governing body, which is the City Council. The financial statements present the City of El Paso, which includes the primary government and its component units.

DELIVERING EXCEPTIONAL SERVICES

Office of the Comptroller

The basic criterion for determining whether another governmental organization should be included as part of the primary government's reporting entity is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or the existence of a financial benefit/burden relationship. An organization which is fiscally dependent on the primary government should be included as part of the reporting entity.

The following component units, although legally separate from the City, are reported as part of the reporting entity. Detailed information about these entities can be found in Note 1 of the financial report:

Discretely Presented Component Units

El Paso Water (EPWater)

EPWater is a component unit of the City whose mission is to provide the area residents with sustainable water supply and the highest quality water services to enhance the vitality of El Paso.

El Paso Housing Finance Corporation (EPHFC)

EPHFC is an independent entity, created pursuant to the Housing Finance Corporation Act by the City Council as a non-profit corporation to assist persons of low and moderate income with affordable housing.

Blended Component Units

Downtown Development Corporation (DDC)

The DDC was created and organized as a public non-profit local government corporation, to assist and act on behalf of the City in the performance of the City's governmental functions related to the downtown ballpark venue.

El Paso Children's Museum Development Corporation (CMDC)

The CMDC was created as a public non-profit local government corporation to assist and act on behalf of the City in the performance of functions related to the construction and operations of the Children's Museum.

Eastside Sports Complex Public Improvement District 2 (PID)

The Eastside Sports Complex PID was created by the City as a means to pay for the development and construction of a sports complex located in the eastside area of El Paso. Residents of this area enjoy free access to the park in exchange for paying the cost of the project.

Office of the Comptroller

El Paso Property Finance Authority, Inc. (Authority)

The Authority was created to establish a Permanent Public Improvements Program. City Council is accountable for its operations.

Fiduciary Component Units

City Employees' Retirement Trust (CERT)

The City contributes to the CERT which is a single-employer defined benefit retirement system established under legal authority of the City Charter and administered by a Board of Trustees (CERT Board). Although not under the direct control of the City, the CERT serves only City and Public Service Board employees (EPWater) and because of the scope of service, is included in the City's financial statements as a Pension Trust Fund.

Firemen and Policemen's Pension Fund (FPPF)

Uniformed firefighters and police officers participate in the FPPF. The plan is a single-employer defined benefit retirement plan established under legal authority of state statutes and the City Charter, and is administered by a Board of Trustees (FPPF Board). Although not under the direct control of the City, the FPPF serves only City employees and, because of the scope of service, is included in the City's financial statements as a Pension Trust Fund.

Camino Real Regional Mobility Authority (CRRMA)

The CRRMA provides local leadership on transportation projects and helps address congestion problems by developing and building infrastructure to keep the El Paso region moving. The City serves as a fiscal agent providing administrative and support services.

El Paso Metropolitan Planning Organization (MPO)

Under federal legislation, the MPO through the Transportation Policy Board (TPB) has an expanded role in project selection and transportation project planning and programming. The City serves as the fiscal agent for the MPO providing supportive services as outlined in a mutually approved operational policy agreement between the TPB and the City of El Paso.

Internal Control Framework

Integrated within the business systems of the City are the policies and procedures over accounting and financial reporting that make up the internal control framework. The internal control framework provides reasonable assurance that the accounting systems and underlying data are reliable. There are, however, certain limitations inherent in the internal control framework. Management may choose to accept certain risks because the cost to prevent all risk is not reasonable. Management is responsible for establishing and

Office of the Comptroller

maintaining effective internal controls. Although some level of risk within the internal control framework is unavoidable, the City's management maintains an attitude of supporting strong and effective internal controls.

Because the City receives federal and state funding, it is responsible for ensuring adequate internal controls are in place to comply with applicable laws, regulations, contracts and grants related to those programs. Each year a Single Audit Report is issued, which includes a schedule of expenditures of federal awards (SEFA), a schedule of expenditures of state awards (SESA), findings and questioned costs, if any, and the independent auditors' reports on compliance on internal control over financial reporting. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording and reporting of financial transactions.

Budgetary Control

The City of El Paso's budget process involves several key steps. It typically begins with the preparation of budget guidelines, followed by departmental budget submissions. The city's budget office reviews and consolidates these proposals, working closely with city departments to align priorities. Public input is sought through hearings and meetings, allowing residents to voice their concerns and preferences. The proposed budget is then presented to the City Council, where deliberations and adjustments take place. Following approval, the budget is implemented, and periodic reviews ensure adherence to financial plans. This process aims to align the city's financial resources with community needs while promoting transparency and accountability.

The City adopts an annual budget for the General Fund, Community Development Block Grants (CDBG), Debt Service Fund, Internal Service Funds and the operations of the enterprise funds. Unexpended appropriations for these funds lapse at the fiscal year end unless reviewed and approved not to lapse by the City Manager or his designee. Special revenue funds and capital project funds are generally budgeted on a project basis that allows spending beyond the fiscal year end until the project is complete. The level of budgetary compliance is at the object level for appropriations and every City department is responsible for staying within budget constraints.

Local Economy

El Paso, the largest metropolitan area along the Texas–Mexico border, continues to serve as a vital economic hub for trade, manufacturing, and innovation. The City has experienced steady growth since 2020, supported by a diverse and bilingual workforce and a strong cultural heritage where 81.3% of residents identify as Hispanic or Latino. The median household income stands at \$58,734, and per capita income at \$28,942,

Office of the Comptroller

while the poverty rate remains at 18.4%, slightly above state and national averages. Housing affordability continues to be a competitive advantage, with a median home value of \$171,700 and a median monthly rent of \$1,041, contributing to El Paso's overall cost of living being significantly below the national average. Labor force participation is strong at 60.2%, with female participation at 54.5%, and the unemployment rate averaged 4.2%–4.5% during mid-2025, closely tracking national trends.

As of the final quarter of fiscal year 2025, the City's economic development portfolio has expanded significantly. The Economic and International Development Department now monitors 311 total incentive agreements, with 90 active projects driving local growth. These investments have increased real property values for incentivized projects by an average of 148% since 2011, generating millions in new property tax revenue during the 2025 tax cycle. Over the past four fiscal years, City Council has facilitated dozens of performance-based agreements, supporting a job market that added 7,200 jobs between April 2024 and April 2025, a 2.1% increase, with most positions paying at or above the local median hourly wage.

Economic Development continues to focus on attracting new target industries, including advanced manufacturing, where salaries remain approximately 56% higher than the local average, fostering an innovation-driven culture and high-paying career pathways. On January 22, 2025, City Council approved an incentive agreement for the third expansion of Schneider Electric, an international leader in energy management and automation. The company will invest \$50.3 million, create 500 new full-time positions, and retain its existing workforce of nearly 2,000 employees, increasing manufacturing capacity for complex engineered-to-order products.

Complementing these industrial milestones, the El Paso International Airport has emerged as a primary engine for regional transformation through the Advanced Manufacturing District (AMD), a 250-acre innovation campus designed to anchor a specialized aerospace and defense cluster. Fiscal year 2025 saw the approval of agreements with Ferret Inc. and the National Center for Defense Machining and Manufacturing (NCDMM), adding 40 advanced manufacturing jobs at above-average wages. These efforts position El Paso as a critical player in national supply chains for NASA, the Department of Defense, and Tier 1 defense contractors.

Looking ahead, the City's economic strategy will continue to prioritize high-growth sectors with substantial capital expenditure requirements, ensuring a fortified tax base to support essential public services. Parallel to new attraction efforts, the City is committed to strengthening the competitiveness of local businesses through comprehensive support programs that enhance resilience in an evolving global economy. Finally, targeted redevelopment and adaptive reuse of historic assets will remain a cornerstone of

Office of the Comptroller

El Paso's growth strategy, transforming the urban core into a vibrant destination that attracts both talent and investment.

Long-term Financial Planning and Major Initiatives

The City's financial statements for fiscal year 2025 reflect not only a year of disciplined fiscal management but also the tangible results of our long-term planning philosophy. The positive change in net position, robust fund balances, and prudent use of reserves underscore our commitment to structural balance and financial sustainability. These outcomes are the result of deliberate policy choices such as targeted debt reduction, strategic capital investments, and a conservative approach to budgeting that prioritize both immediate community needs and the City's long-term resilience.

While the financial statements detail the City's strong performance, it is equally important to recognize the strategic context behind these results. Our ongoing focus on maintaining healthy reserves, managing liabilities, and investing in critical infrastructure ensures that El Paso remains well-positioned to navigate economic uncertainties and capitalize on future opportunities. The City's AA credit ratings and continued recognition for excellence in financial reporting further validate our approach.

Looking ahead, the City will continue to align its financial strategies with community priorities, leveraging its sound fiscal foundation to support public safety, economic development, and quality of life initiatives. By fostering transparency, engaging stakeholders, and proactively addressing emerging challenges, El Paso is committed to sustaining its financial health for the benefit of current and future generations.

El Paso's commitment to structural balance is evident in its approach to budget development and reserve management. The City continues to maintain healthy reserves, with the General Fund's total fund balance well above policy minimums, providing a critical buffer against economic volatility and unforeseen events. This prudent reserve policy not only supports the City's strong credit ratings but also ensures the flexibility to respond to emerging challenges and opportunities. The City's shift toward program-based budgeting commencing in fiscal year 2027, further enhances transparency and accountability, aligning resource allocation with community priorities and measurable outcomes. By minimizing reliance on one-time revenues and emphasizing long-term sustainability, El Paso is able to invest in essential services and infrastructure while safeguarding its fiscal health.

The City's Capital Improvement Program is a cornerstone of its long-term strategy, supporting infrastructure renewal, economic development, and quality of life enhancements. With over \$700 million in active projects, the CIP addresses critical needs

Office of the Comptroller

across public safety, mobility, parks, and technology. Notably, the El Paso International Airport's multi-year modernization plan and the development of the Advanced Manufacturing District are positioning the City as a regional hub for innovation and commerce. Major projects completed in fiscal year 2025 included animal shelter improvements, fire station renovations, new public safety facilities, and park upgrades demonstrate the City's commitment to delivering tangible benefits to residents. The City's ability to manage significant construction commitments while maintaining fiscal discipline is a testament to its integrated planning and execution.

In February 2025, the City Council authorized the issuance of a Request for Qualifications (RFQ) for the redevelopment of 17 City-owned properties in the Union Plaza District upon their sale, marking a pivotal step toward revitalizing one of El Paso's most historic neighborhoods. The RFQ emphasizes adaptive reuse (modernizing existing structures while preserving their architectural and cultural integrity) and requires developers to pursue National Historic designation for eligible buildings. The City's vision for Union Plaza includes creating vibrant, pedestrian-friendly spaces that blend housing, retail, entertainment, and cultural venues, while attracting diverse industries such as education, arts, and technology. Proceeds from property sales will be applied to pay down outstanding bonds, following the Council's December 2024 action to defease debt associated with the former Multipurpose Center project (MPC). This approach reflects El Paso's commitment to responsible financial stewardship and enduring urban transformation, balancing historic preservation with economic growth and community vitality.

In April 2025, the City celebrated the grand opening of the newly renovated Department of Public Health Administration Building in Northeast El Paso. This \$8.5 million project, managed by the Capital Improvement Department and funded through the American Rescue Plan Act (ARPA), consolidates all administrative divisions under one roof to improve operational efficiency and service delivery. The 31,200-square-foot facility features modern offices, state-of-the-art training rooms, enhanced security systems, and welcoming public spaces. In addition to housing administrative staff, the building includes a Community Clinic offering essential immunizations to Northeast residents, expanding access to preventive healthcare. The Department also introduced a mobile unit to further extend services citywide. This investment underscores the City's commitment to building a healthier, more sustainable future for El Paso through strategic infrastructure improvements and community-focused initiatives.

During the month of April of 2025, the City Council approved the first major step toward expanding and modernizing the El Paso Convention Center, a strategic move to strengthen the City's competitiveness in attracting large-scale conventions and tourism-driven events. This initial phase includes the acquisition of two key downtown properties,

Office of the Comptroller

creating the footprint needed for future upgrades such as expanded event space and modern amenities. The Convention Center hosted 188 days of activity and welcomed more than 165,000 visitors during the most recent fiscal year, underscoring its role as a vital economic engine. This expansion initiative builds on years of downtown revitalization and aligns with broader economic development goals to enhance tourism, stimulate local business growth, and position El Paso as a premier destination for 21st-century events.

El Paso's proactive debt management strategy is a key driver of its financial resilience. The City operates well within its policy limits for tax-supported debt and continues to leverage refunding and defeasance opportunities to reduce long-term obligations and generate substantial savings for taxpayers. A prime example is the early payoff (defeasance) of the Tax Increment Reinvestment Zone # 9 Eastside Sports Complex debt. The savings in this transaction will help minimize any future tax rate impact while freeing up \$1.8 million annually in new General Fund revenue. During the year, the City also executed cash defeasances and refundings that collectively produced over \$73.3 million in present value savings, further stabilizing the debt service tax rate and enhancing budget flexibility. These actions, combined with a disciplined approach to new debt issuance, ensure that the City's debt profile remains manageable and aligned with long-term capital needs.

This fiscal year, the City achieved a significant milestone in its commitment to fiscal responsibility by reducing the property tax rate while avoiding the issuance of any new debt. This strategic decision not only provided relief to taxpayers but also contributed to an overall reduction in the City's debt burden.

By fostering transparency, engaging stakeholders, and proactively addressing emerging challenges, El Paso remains committed to sustaining its financial health and delivering on its promise of a vibrant, resilient, and inclusive community.

Awards and Acknowledgements

The City of El Paso continues to receive awards and accolades that substantiate our commitment to the organizational vision. Some of the latest awards received by vision block are:

Vibrant Regional Economy

- El Paso Economic and International Development receives Excellence in Economic Development Gold Award

Recreational, Cultural and Educational Opportunities

- Museum of History Named Finalist for 2024 IMLS National Medal for Museum and Library Service

DELIVERING EXCEPTIONAL SERVICES

Office of the Comptroller

- El Paso Public Libraries was awarded the prestigious 2024 Achievement of Excellence in Libraries Award by the Texas Municipal Library Directors Association for the sixth consecutive year
- El Paso Downtown Arts District has been named one of the top arts districts in the country in USA Today's 2025 10Best Readers' Choice Awards for Best Arts District
- Capital Improvement Department, Urban Planning + Design Division, and the Parks and Recreation Department are being honored with a merit award by the Texas Chapter of the American Society of Landscape Architects for its work on the Beyond Boundaries: El Paso's All-Abilities Playground Planning Report

High Performance Government

- 2024 Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR)
- 2024 Certificate of Achievement for Excellence in Financial Reporting (ACFR)
- 2025 Distinguished Budget Presentation Award

GFOA Award

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of El Paso for its annual comprehensive financial report for the fiscal year ended August 31, 2024. This was the twenty-seventh consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government had to publish an easily readable and efficiently organized annual comprehensive financial report that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. However, we believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to the City of El Paso for its Popular Annual Financial Report for the fiscal year ended August 31, 2024. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports.

In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and

Office of the Comptroller

reader appeal. An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. The City of El Paso has received a Popular Award for the last four consecutive years (fiscal years ended 2021-2024). We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA to determine its eligibility for another Award.

The City of El Paso also received the GFOA's Distinguished Budget Presentation Award for its annual budget document dated September 1, 2024. To qualify for the Distinguished Budget Presentation Award, the City of El Paso's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device.

As a result of receiving all three of GFOA's reporting awards, the City of El Paso is a GFOA Triple Crown award winner.

Acknowledgments

The preparation of this report is made possible by the dedicated service of the employees of the Office of the Comptroller. Each member of the department has sincere appreciation for the contributions made in the preparation of this report.

The efforts of the City's component units (EPWater, EPHFC, DDC, CMDC, PID, Authority, CERT, FPPF, CRRMA, MPO) and their external auditors are also appreciated. We would also like to thank the Mayor, City Council and City Leadership for their support in planning and conducting the financial operations of the City in a responsible and progressive manner.

FINANCIAL SECTION

Independent Auditor's Report

Honorable Mayor and Members of the City Council
City of El Paso, Texas

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of El Paso, Texas (City), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of August 31, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Public Service Board – El Paso Water Utilities, a discretely presented component unit of the City, whose financial statements reflect 99.8%, 99.6%, and 99.9% of the assets, net position, and revenues, respectively, of the aggregate discretely presented component units. We also did not audit the financial statements of the City of El Paso Employees Retirement Trust and El Paso Firemen and Policemen's Pension Fund, which are pension trust funds of the City, and the Camino Real Regional Mobility Authority and the El Paso Metropolitan Planning Organization, which are custodial funds of the City, whose financial statements reflect 92.1%, 94.0%, and 65.0% of the assets, net position, and revenues, respectively, of the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions on the aggregate discretely presented component units and the aggregate remaining fund information, insofar as they relate to the amounts included for Public Service Board – El Paso Water Utilities, City of El Paso Employees Retirement Trust, El Paso Firemen and Policemen's Pension Fund, Camino Real Regional Mobility Authority, and El Paso Metropolitan Planning Organization, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, other postemployment benefit schedules, and pension schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

The Management Discussion and Analysis (MD&A) presents an overview and analysis of the financial activities of the City for the fiscal year ended August 31, 2025. This document is designed to:

- Provide a comparison of current year to prior year and identify specific economic factors contributing to changes;
- Help users of the financial statements understand the relationship between the results reported in the government-wide financial statements for governmental activities and the results reported in the governmental fund financial statements;
- Help the reader focus on the City’s financial condition as a whole, describing currently known facts, decisions or conditions expected to impact the City’s financial condition and the availability of fund resources for future years; and
- Identify significant variances between the adopted budget, final budget and actual expenditures, as well as discussing the impact of these variances on future liquidity.

The MD&A should be considered in conjunction with the Letter of Transmittal as well as the City’s financial statements. The information contained in the Introductory, Financial, and Statistical sections of the Annual Comprehensive Financial Report (ACFR) complement each other.

FINANCIAL HIGHLIGHTS

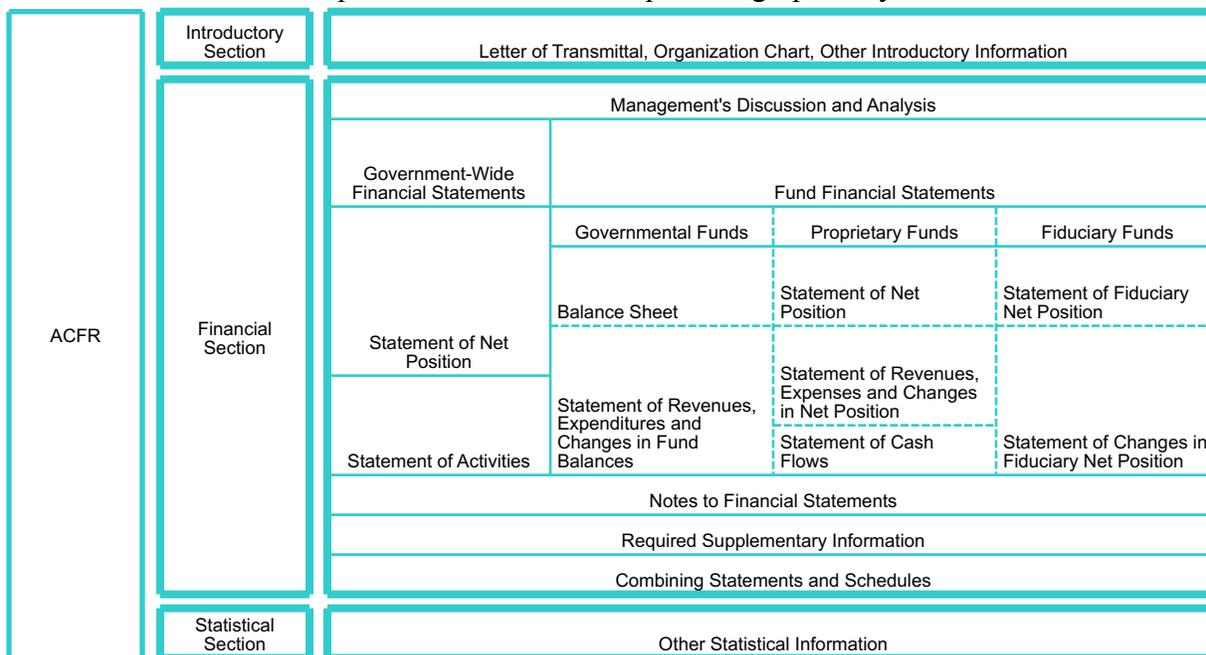

- On a government-wide basis, the Primary Government’s total assets and deferred outflows exceeded its total liabilities and deferred inflows by \$1.0 billion (net position). The unrestricted net position was a deficit of \$201.0 million. The City is committed to providing postemployment and pension benefits to its employees. As a result, the City recognized substantial liabilities in the financial statements for these benefits. As of August 31, 2025, the City had liabilities of \$841.6 million for postemployment and pension benefits, which has contributed to the overall deficit balance in the unrestricted net position.
- The Primary Government’s total net position increased by \$104.0 million. Governmental activities increased the net position by \$44.4 million while increases from business-type activities totaled \$59.7 million.
- Total investments, both restricted and unrestricted, of the Primary Government decreased by \$141.4 million from fiscal year 2024. This decrease was largely driven by capital asset acquisitions, expenditure of advanced grant funding, and cash defeasances, which decreased available investment balances.
- The cost of the Primary Government’s governmental activities was \$866.2 million, representing an increase of 9.0% over the prior year. This increase is primarily attributable to two cash debt defeasance payments of approximately \$45.9 million, along with higher public maintenance contract costs of \$8.5 million and increase in personnel services totaling \$22.1 million.
- The City’s governmental funds reported ending fund balances of \$594.3 million, a decrease of \$84.0 million from prior year. The decrease is attributable to the planned expenditure of bond proceeds for approved projects.
- Approximately \$16.8 million (2.8%) of the combined governmental fund balances is unassigned and available for other purposes.
- At the end of the fiscal year, unrestricted fund balance (the total of the committed, assigned and unassigned components of fund balance) for the general fund was \$125.4 million, or approximately 22.3% of total general fund expenditures.
- To reflect the City’s commitment to maintaining and retaining a competitive workforce, the City established a minimum wage increase during the year. Consequently the City experienced an increase in personnel services expenses across the organization.

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis provided here are intended to serve as an introduction to the City’s basic financial statements. The City’s basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

The components of the Annual Comprehensive Financial Report are graphically illustrated below:

The basic financial statements include both government-wide and fund financial statements. These statements differ in scope, measurement focus and basis of accounting, as well as in the information provided. The following chart illustrates these differences:

	Government-Wide Statement	Fund Financial Statements		
		Governmental	Proprietary	Fiduciary
Scope	Entire entity (except fiduciary funds)	The day-to-day operating activities of the City for basic governmental services	The day-to-day operating activities of the City for business-type enterprises	Instances in which the City administers resources on behalf of others, such as property tax and pension
Accounting basis and measurement focus	Accrual accounting and economic resources measurement focus	Modified accrual and current financial resources measurement focus	Accrual accounting and economic resources measurement focus	Accrual accounting and economic resources measurement focus
Type of asset, deferred outflows, liability and deferred inflows information	All assets, deferred outflows, liabilities and deferred inflows, both financial and capital, short-term and long-term	Current assets and liabilities that come due during the year or soon thereafter	All assets, deferred outflows, liabilities and deferred inflows both financial and capital, short-term and long-term	All assets held in a trustee or custodial capacity for others and all liabilities
Type of inflow and outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during the year or soon thereafter; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. All governmental and business-type activities are consolidated into columns which add to a total for the Primary Government.

The *Statement of Net Position* presents financial information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference being reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, public health, culture and recreation, and community and economic development. The business-type activities of the City include El Paso International Airport, Environmental Services, Mass Transit, International Bridges and the Tax Office.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate water utility and a legally separate housing finance corporation for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements can be found on pages 1-3 of this report.

Fund Financial Statements

A fund is a set of self-balancing accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for the functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for the

CITY OF EL PASO, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
August 31, 2025

governmental activities in the government-wide financial statements. Because governmental fund financial statements do not encompass the additional long-term focus of the government-wide financial statement, additional information is provided that explains the relationship between them. Both, the *Governmental Funds Balance Sheet* and the *Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances* provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The flow of current financial resources will reflect bond proceeds and interfund transfers as other financing sources as well as capital outlay, bond principal payments, leases, and subscription based technology arrangements (SBITA) as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations into the governmental activities column in the government-wide statements. The reconciliation will help readers better understand the long-term impact of the government's near-term financing decisions.

The City maintains fourteen individual governmental funds. Information is presented separately in the *Governmental Funds Balance Sheet* and in the *Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances* for the General Fund, Community Development Block Grants Fund, Debt Service Fund, Capital Projects Fund, and the COVID-19 Relief Grants Fund, which are considered to be major funds. Data from the other nine governmental funds are combined into a single aggregated presentation as Nonmajor Governmental Funds. Individual fund data for each of these Nonmajor Governmental Funds is provided in the combining financial statements and schedules that follow the basic financial statements in this report.

The basic governmental fund financial statements can be found on pages 4-7.

Proprietary Funds

Proprietary funds account for services for which the City charges customers, either outside customers or internal departments of the City. Proprietary funds provide a more detailed report of the same type of information as shown in the government-wide financial statements. The City maintains two types of proprietary funds:

- o Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its airport, mass transit, environmental services, international bridges, and tax office operations. The Tax Office fiduciary fund is combined with the Tax Office enterprise fund since the property taxes collected on behalf of the other 44 taxing entities is not held beyond 90 days.
- o Internal Service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses its internal service funds to account for its employee health benefits and welfare programs, risk management, fleet services, printing and mail services. As these internal services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary funds financial statements provide separate information for the enterprise funds (i.e., El Paso International Airport, Environmental Services, Mass Transit, International Bridges, and the Tax Office) since they are considered major funds of the City. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds are provided in the Combining Statements and Schedules section of this report.

CITY OF EL PASO, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
August 31, 2025

The proprietary fund financial statements can be found on pages 8-11 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City maintains two different types of fiduciary funds. The pension trust funds are used to report resources held in trust for retirees and beneficiaries covered by the police, fire and civilian pension trust funds. The custodial funds report resources, not in a trust, that are held by the City for other parties outside of City's reporting entity. The two custodial funds are the Camino Real Regional Mobility Authority (CRRMA) and the Metropolitan Planning Organization (MPO).

The fiduciary fund financial statements can be found on pages 12-13 of this report.

Notes to the Financial Statements

The notes are an integral part of the financial statements and provide additional information that is essential to a full understanding and fair presentation of the data provided in both the government-wide and fund financial statements. The notes to the financial statements can be found on pages 14-107 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information of the City's governmental funds budgetary comparison schedules and the progress in funding its obligations to provide pension and OPEB benefits to its employees. Required supplementary information can be found immediately after the notes to the financial statements on pages 108-122.

The combining statements referred to earlier in connection with the debt service fund and all nonmajor governmental funds, internal service funds, pension trust funds, and custodial funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 123-138 of this report.

Statistics

The statistical section provides data on financial trends, revenue, debt capacity, demographic and economic data, and operating information. The statistical section can be found on pages 139-164 of this report.

Analysis of the City’s Assets and Liabilities

Total assets had a minor decrease of \$31.1 million from the prior year. Investment balances declined as available resources were used; however, this decrease was largely offset by an increase in capital assets. This reflects a shift in the government’s asset composition rather than a deterioration in financial condition.

Total liabilities decreased by \$206.3 million from the previous year, reflecting the planned recognition of previously received grant funding and continued progress in reducing outstanding debt. Unearned revenues declined as advanced grant funding was expended in accordance with program requirements. Bond obligations were further reduced through regular debt service payments, no new debt issuance during the year, and the execution of a cash defeasance, which lowered future debt service requirements. Decreases in pension obligations and OPEB liability also contributed to the overall decrease.

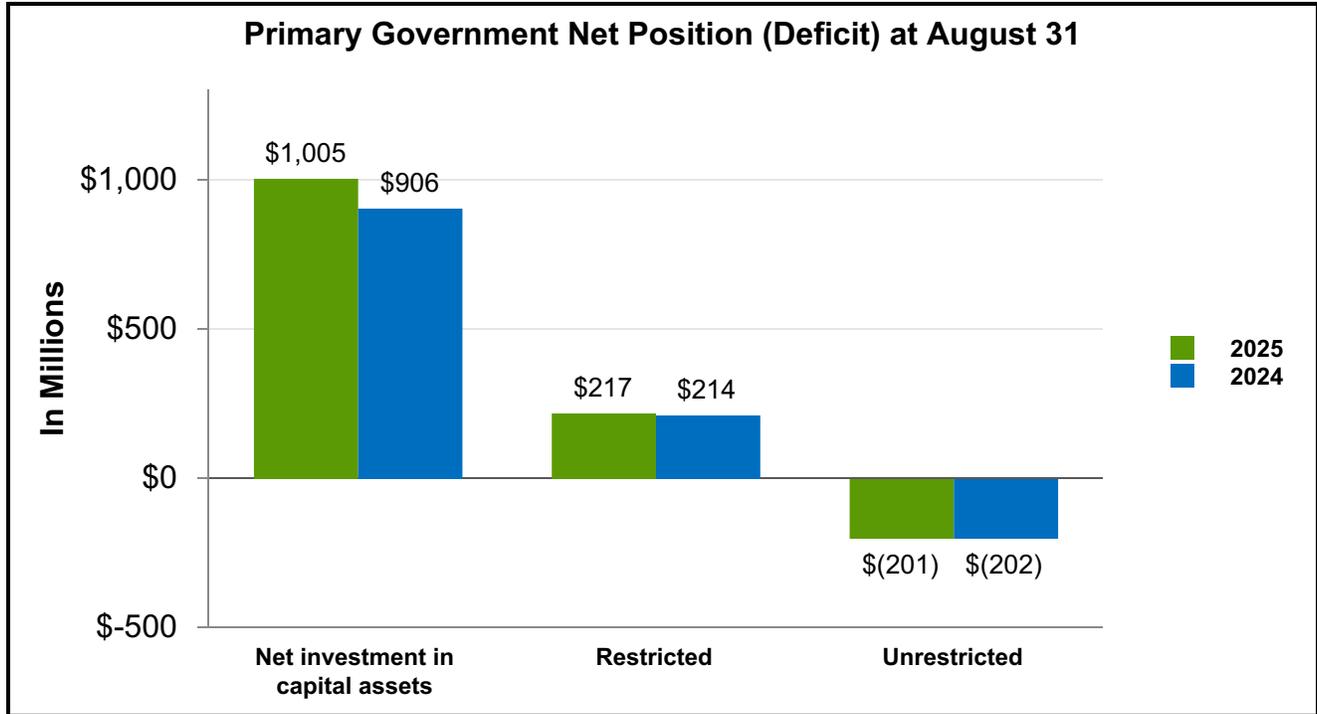

Analysis of the City’s Net Position

The net position may serve over time as a useful indicator of a government’s financial position. For fiscal year 2025, the City’s assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1.0 billion. The largest portion of the City’s net position, \$1.0 billion, reflects its investment in capital assets (e.g. land, buildings, vehicles, equipment, improvements, right-to-use assets, construction in progress and infrastructure), less any outstanding debt net of unspent bond proceeds along with any related liabilities used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources because the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the City’s net position, \$217.3 million, represents resources that are subject to external restrictions on how they may be used. This restricted net position is held for debt service, amounts restricted by other funding agencies, as well as cash reserves required by the City Charter and bond covenants.

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

As of the end of the current fiscal year, the City's unrestricted net position had a \$201.0 million deficit balance. This deficit is caused primarily by long-term commitments that exceed its related assets, associated largely with Pension and OPEB obligations.

The overall net position increased \$104.0 million from the prior fiscal year. The reasons for this increase are discussed in the following sections for governmental activities and business-type activities.

Analysis of the City’s Operations

The following table provides a summary of the City’s activities for the years ended August 31, 2025 and 2024. For the current fiscal year, the City's net position increased by \$44.4 million in governmental activities and \$59.7 million in business-type activities.

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

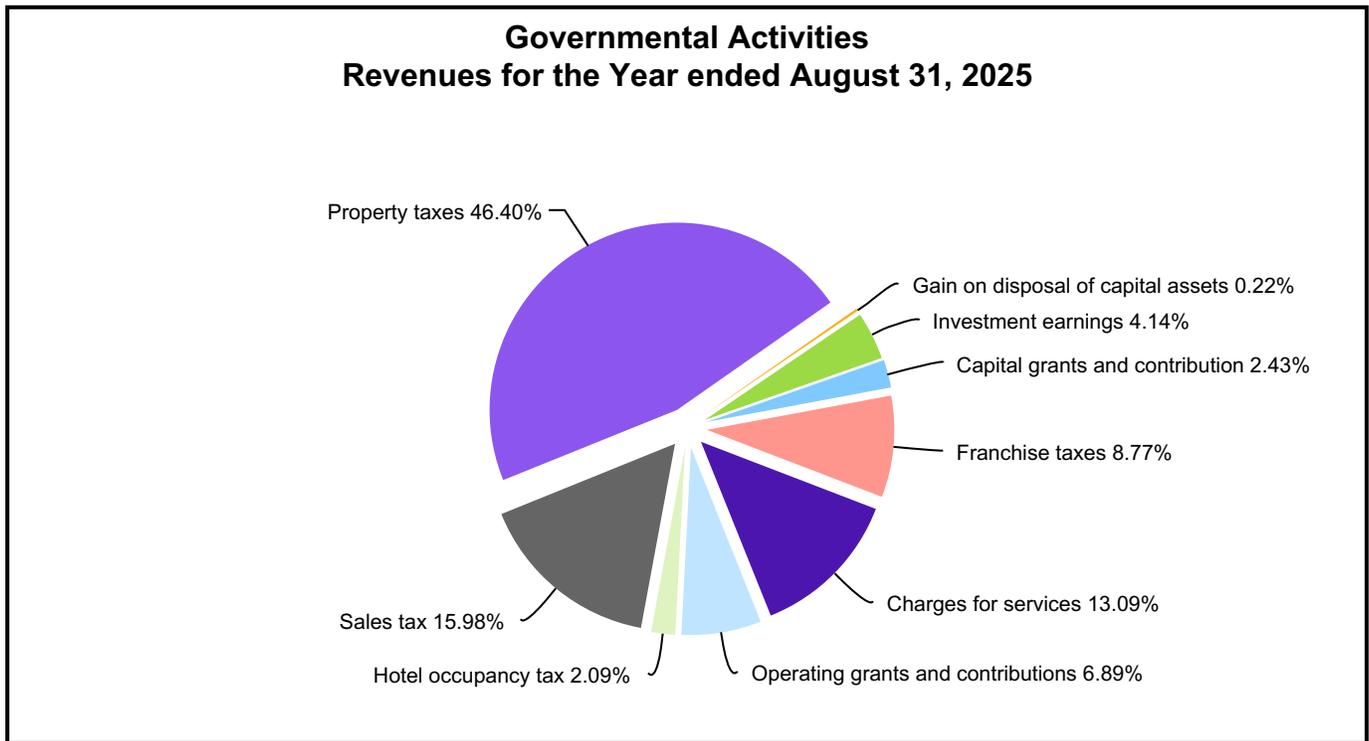

Program Revenues and Expenses – Governmental Activities

Governmental activities cover a range of typical City services and are directly supported by charges for these services, grants and contributions. In general, revenues generated by charges for services are inadequate to support the cost of the services with public safety creating the greatest burden on the taxpayer. Consequently, general revenues cover any net expense after program-specific revenues are applied. These general revenues include taxes, investment earnings and gains on sales of capital assets.

The following chart shows the change in governmental activities’ revenues from the previous year.

Revenues for governmental activities totaled \$884.4 million, a decrease of \$36.1 million or 3.9% from 2024.

The total ad valorem taxable valuation increased 11.3% while the overall tax rate decreased by 7.0% from 2024, resulting in an ad valorem property tax revenue increase of \$12.9 million or 3.2% from prior year. This is due to increased property values combined with additional properties added to the tax roll.

Sales tax saw an increase of \$3.2 million. After a period of unprecedented growth, sales tax has flattened with a projected increase of 3.6% for fiscal year 2026. Sales tax revenue trends appear to be stabilizing at pre-pandemic growth levels, indicating a local economy experiencing steady, sustainable growth.

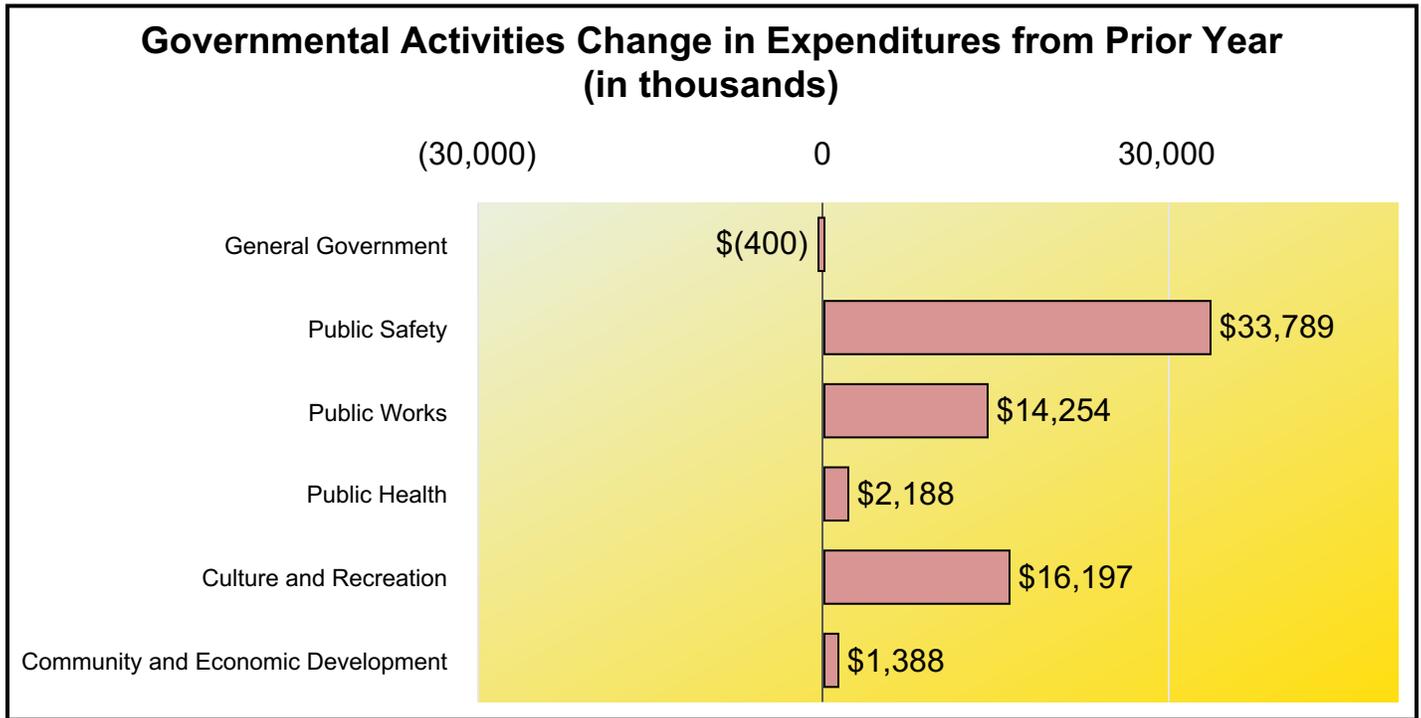

Franchise fees had a minor decrease of \$423.3 thousand or 0.5%. No significant change was anticipated during the year, as franchise fee rates remained unchanged.

Operating/capital grants and contributions decreased \$26.3 million or 24.2% from the prior year, primarily due to the conclusion of COVID-19 related grant funding. Many of these grants were one-time relief programs funded by the federal government in response to the pandemic and have since expired or significantly tapered. As a result, operating grant revenue declined as the organization transitions away from one-time COVID-19 relief programs.

Investment earnings decreased by \$12.9 million from the prior year, primarily due to declining interest rates and a lower average balance of funds available for investment. As interest rates trended downward, yields on invested balances decreased. Additionally, reduced cash balances throughout the year limited the amount of funds available to generate investment income, further contributing to the overall decline in investment revenue.

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

The following chart shows changes in governmental activities’ expenses from fiscal year 2024 to fiscal year 2025.

The cost of governmental programs and services was \$866.2 million, an increase of \$71.8 million (9.0%) from 2024.

Public Safety expenses increased mainly due to an increase in Pension Expense. The increase was driven by higher interest on growing liabilities and amortization of prior investment losses and assumption changes. These factors outweighed offsets from contributions and growth on assets value.

Public Works expenses increased in the current fiscal year, primarily attributable to increased spending in the Top 50 Arterial related projects for the Community Progress Bond. Operating expenditures increased for the Streets and Maintenance department due to wage increases as well as increased costs for janitorial, security, and maintenance service contracts.

Culture and Recreation expenses increased during the fiscal year primarily due to wage increases and higher monthly stipends for La Nube Children’s Museum. Additionally, Parks expenditures rose as the department undertook projects to improve park courts and replace playground equipment throughout the City.

CITY OF EL PASO, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
August 31, 2025

Revenues and Expenses – Business-Type Activities

- Charges for Services for the business-type activities for fiscal year ended August 31, 2025 were \$22.9 million higher in comparison to fiscal year 2024. This increase is mainly due to additional Airport ground rentals and landing fees caused by more departures and seats, slightly higher aircraft operations in comparison to the prior year and higher landed weight. The increase was also caused by Environmental Services Department increasing their rates for residential garbage collection and landfill fees.
- Expenses, excluding depreciation/amortization, increased by \$14.4 million or 8.0%, compared to the prior fiscal year. Personnel services expenses increased by \$3.1 million due to minimum wage adjustments. These changes reflect the City's commitment to maintaining competitive compensation structures. There were also increases in several contractual services of \$1.9 million, including security, ground keeping, and management service contracts. Contributing to this increase there was an \$8.7 million in new claims against the City for damages settlement expenses.
- Capital grants and contribution increased by \$7.6 million compared to the previous year, largely due to additional federal funding for multiple projects for the El Paso International Airport.

FINANCIAL ANALYSIS OF THE FUND LEVEL STATEMENTS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City Council.

On August 31, 2025, the City's governmental funds reported combined fund balances of \$594.3 million, a decrease of \$84.0 million in comparison with fiscal year 2024. Of this amount, \$16.8 million or 2.8%, constitutes unassigned fund balance. The remainder of the fund balance is either non-spendable, restricted, or committed to indicate that it is (1) not in spendable form, \$8.3 million; (2) restricted for particular purposes, \$300.9 million; (3) committed or assigned for particular purposes, \$268.3 million.

General Fund

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$25.3 million, while the total fund balance decreased to \$161.6 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total General Fund expenditures. Unassigned fund balance represents 4.5% of total general fund expenditures, while total fund balance represents 28.7% of that same amount.

The City continues to see higher property valuations that resulted in an increase to property tax revenue of \$14.1 million from the prior year. All other General Fund revenues presented a minor net decrease of \$0.5 million

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

Expenditures in the General Fund increased by \$36.7 million mainly due to wage increases, outside contracts, materials and supplies. As part of the City's key budget priorities is investing in recruitment and retention of qualified personnel to ensure the delivery of high-quality services to the community, this drives a change in wages and compensation as they have been adjusted at a higher level during this fiscal year. General Fund expenditures for outside contracts increased due to specialized professional services required for compliance, strategic initiatives, and operational support. These engagements included audit and financial advisory services, legal agreements, and project-based consulting, which were necessary to fulfill regulatory obligations and advance City priorities. Materials and supplies costs increased primarily due to the use of existing inventory by the Streets and Maintenance and Fire Departments, as well as additional materials required for street repair projects.

Community Development Block Grants Fund

The Community Development Block Grants fund is a Special Revenue fund designated by management as a major fund for reporting purposes. These activities are funded by the U.S. Department of Housing and Urban Development (HUD). Program revenues of the revolving loan funds (RLF) were initially funded by HUD. Recognition of these revenues is dependent upon the City expending these funds in accordance with the entitlement grants and is earned as expended. Expenditures decreased by \$4.8 million from fiscal year 2024 primarily due to a reduction in funding for subrecipient agreements related to community service construction projects.

The Community Development Block Grants fund had an increase in fund balance of \$0.5 million to bring the year end fund balance to \$14.1 million. This increase was primarily attributable to the timing of grant expenditures, as grant revenue reimbursements were received for expenditures recognized in prior fiscal years.

Debt Service Fund

The Debt Service fund had a decrease in fund balance of \$5.7 million to bring the year end fund balance to \$6.4 million. This decrease was primarily attributable to a cash defeasance executed during the fiscal year that used surplus investment earnings built within the fund. Additional information regarding the cash defeasance is presented in *Note 8* to the financial statements.

The City’s debt management policy establishes a minimum and a maximum fund balance for a fiscal year. The minimum fund balance should remain in excess of the debt service portion of the largest taxpayer’s tax levy for the ensuing fiscal year. The maximum fund balance should be three months of the annual debt service budget. At the end of the fiscal year, the largest taxpayer's levy was \$1.3 million and three months of the fiscal year 2025 budget was \$30.1 million. The ending fund balance was \$6.4 million which is between the minimum and maximum limits.

Capital Projects Fund

The City adopts its capital projects on a project-length budget basis. The Capital Projects fund had a \$81.2 million decrease in fund balance during the current fiscal year which put the overall fund balance at \$253.5 million. The decrease in fund balance was mainly caused by no new debt issuances during the year, the transfer of unspent bond proceeds to the Debt Service fund for cash defeasances, and continued capital expenditures for all approved capital projects with the main focus on the Public Safety Bond and Community Progress Bond initiatives which totaled \$114.1 million for the current fiscal year.

COVID-19 Relief Grants Fund

The COVID-19 Relief Grants fund is a Special Revenue fund designated by management as a major fund for reporting purposes. In fiscal year 2022, the City Council approved a plan for distributing \$154.3 million of the Coronavirus State & Local Recovery Funds (CSLFRF) as follows: Public Health and Safety Response & Recovery \$128.3 million, Community Response and Recovery Programs \$12.0 million, and Economic Response and Recovery Programs \$14.0 million. As of August 31, 2025, the City has utilized \$134.0 million of the CSLFRF.

The COVID-19 Relief Grants fund had a decrease in fund balance of \$1.8 million to bring the year end fund balance to \$0.2 million. This decrease was primarily due to the utilization of grant funds in compliance with grant requirements. Looking ahead, the City anticipates a reduction in available funding as pandemic-related needs expire or significantly taper off.

Nonmajor Governmental Funds

The Nonmajor Governmental funds had a \$11.1 million increase in fund balance during the current fiscal year which brings the overall fund balance to \$158.6 million. The reasons for this increase are explained below:

Federal Grants

Funding for these activities is program specific and is provided by the U.S. Congress. Expenditures totaled approximately \$9.9 million primarily from programs relating to public safety. Fund balance decreased by \$1.9 million, largely due to the timing of reimbursements from federal agencies that were outstanding at year-end.

State Grants

Expenditures for these activities are program specific and are provided by state agencies or departments. Expenditures totaled \$9.8 million primarily from programs related to public safety.

Public Health Grants

Expenditures for preventative healthcare and nutrition programs were \$13.5 million. Grant funding from the state provided \$491.0 thousand while federal grant proceeds were \$12.6 million.

Public Health Waiver Program

The Medicaid Waiver Program funding ended in fiscal year 2022. However, the City still has available funding accumulated from prior years to continue community programs. Medicaid waiver expenditures totaled \$4.1 million in fiscal year 2025.

Destination El Paso

Destination El Paso is managed by ASM Global under a facility management and tourism agreement with the City. Revenues in this fund are available to conduct culture and recreation activities as outlined in the agreement. In fiscal year 2025, revenues and transfers totaled \$24.0 million which were used to support program expenditures in the amount of \$22.8 million.

CITY OF EL PASO, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
August 31, 2025

Economic Development

Economic Development works with our local and state partner organizations to recruit, retain, and expand businesses. They ensure local businesses have the tools and resources they need to succeed and grow. Economic Development had revenues and transfers in totaling \$25.0 million and program expenditures of \$18.2 million for fiscal year 2025.

During the year, the City disbursed an \$4.0 million note receivable at 0% interest, funded by the Texas Economic Development Fund, pursuant to a Chapter 380 agreement. The note may be forgiven if the developer meets specific performance milestones.

Tax Increment Fund

Tax increment financing (TIF) is a financing method local governments can use to pay for improvements that will draw private investment to an area. Tax increment financing isn't a new tax; instead, it redirects some of the ad valorem tax from property in a geographic area designated as a Tax Increment Reinvestment Zone (TIRZ) or Transportation Reinvestment Zone (TRZ) to pay for improvements in the zone. In fiscal year 2025, revenues totaled \$5.5 million and program expenditures and other financing uses of \$1.6 million.

Nongrants

Funding for these activities come from a variety of sources including property taxes, hotel occupancy taxes, fines and forfeitures and charges for services. Generally, funding for these activities occurs over several fiscal years and expenditures are made as accumulated funding allows. Revenues and other financing sources totaled \$77.3 million and expenditures and other financing uses were \$72.8 million, resulting in a \$4.5 million increase in fund balance from fiscal year 2024. The ending fund balance as of August 31, 2025 was \$73.3 million as stated below:

Proprietary Funds

The City’s proprietary fund statements provide the same type of information for enterprise funds found in the business-type activities portion of the government-wide financial statements, but in more detail.

These funds had a change in net position as follows:

Enterprise Funds	2025	2024
El Paso International Airport	\$ 35,431,716	\$ 24,335,287
Environmental Services	10,038,488	4,042,265
Mass Transit	10,816,161	15,058,390
International Bridges	3,127,628	5,197,431
Tax Office	254,385	(393,464)
Net Position Increase	<u><u>\$ 59,668,378</u></u>	<u><u>\$ 48,239,909</u></u>

An analysis of each fund activity for the current year is presented below:

El Paso International Airport

This fund accounts for the operations of the El Paso International Airport, industrial parks, and two golf courses located on Airport property.

Operating revenues had an increase of \$11.2 million from the prior year to \$63.8 million, caused higher landing fees revenue, terminal space rental and ground rentals.

CITY OF EL PASO, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
August 31, 2025

Operating expenses had an increase of \$6.6 million from fiscal year 2024. There were small increases across multiple expense line items such as Personnel Services, Professional Services, and Outside Contracts in line with the increases we observed city-wide as explained in the financial highlights.

Environmental Services

This fund accounts for the solid waste collection and disposal activities of the City.

Operating revenues had an increase of \$6.6 million from fiscal year 2024, primarily attributable to higher receipts from garbage collection and landfill fees. The increase in receipts was driven by increased landfill fee rates, container replacement fees, and residential collection rates.

Operations for this fund remained fairly steady in the current year. Operating expenses included an increase in wages and compensation of \$1.7 million. The fund also experienced an increase in outside contracts of \$500.5 thousand and an increase to Materials and Supplies of \$1.6 million.

Mass Transit

This fund accounts for operations of transit services of the City.

Operating revenues had a minor decrease of \$586.0 thousand from fiscal year 2024.

Operating expenses had an increase of \$9.6 million from fiscal year 2024 mainly due to an increase in damages settlements of \$8.7 million.

Mass Transit's overall nonoperating revenues increased by \$7.1 million. This net increase is due to higher sales tax revenue of \$1.3 million and operating subsidy grants of \$2.3 million.

Capital contributions decreased by \$1.2 million in comparison to prior year. This decrease is largely due to a reduction in operating assistance revenue related to the rapid transit systems.

International Bridges

This fund accounts for operational activity related to the City's International Bridges.

Operating revenues had an increase \$1.5 million from fiscal year 2024 mainly caused by higher collections in bridge crossings revenue of \$0.6 million as a result of increased crossing activity. Parking meter revenue increased by \$877.4 thousand as funds previously allocated to Plaza Theatre debt service became available following the defeasance of the associated debt.

Operating expenses had an increase of \$767.7 thousand of which \$589.0 thousand is related to personnel services and \$160.9 thousand to maintenance and repairs from fiscal year 2024.

Transfers out increased by \$2.8 million due to available resources committed to transfer to the General Fund in accordance with the fiscal year 2025 Budget Resolution item No. 36.

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

Tax Office

This fund accounts for operational activity related to the Tax Office. The Tax Office collects property tax on behalf of 44 taxing entities, including the City of El Paso.

Operating revenues and expenses remained stable from the previous year with a slight increase of \$168.1 thousand in general revenues and a slight increase of \$221.0 thousand in operating expenses.

Internal Service Funds

These funds are allocated for operational activities that support services provided to various City departments. These activities encompass facilities maintenance, fleet services, risk management, employee health insurance, workers' compensation, and unemployment compensation.

The increase in operating revenues of \$3.5 million from the prior fiscal year can be attributed to an increase in employer health and workers compensation contributions to the City's self insurance fund along with an increase in charges to departments for equipment usage and fuel.

Concurrently, operating expenses saw a \$6.1 million increase related to prescription benefit payments.

GENERAL FUND BUDGETARY HIGHLIGHTS

Under the City Charter, the overall tax rate is \$1.85 per \$100 in taxable value. For fiscal year 2025, the General Fund property tax rate related to maintenance and operations decreased by \$0.031559, causing the tax rate to decrease to \$0.530850 per \$100 in taxable value. The taxable assessed valuation of real and personal property increased approximately 11.3% from 2024.

Original budget compared to final budget. As per the budget resolution for fiscal year 2025, the City's budget for the General Fund was approved by City Council at \$599.6 million. However, during the year the City Manager executed an administrative budget transfer in the amount of \$99.7 thousand to fund the cost of sod at the Westside Sports Complex. This resulted in the final budget to end in \$599.7 million.

Final budget compared to actual results. The City adopted a conservative budgeting approach for the current fiscal year, carefully balancing the impact of the no-new-revenue tax rate with inflationary cost pressures to align revenues with expenses while prioritizing community needs. Variances in revenues are presented in the following table:

Revenue Source	Estimated Revenues	Actual Revenues	Difference
Sales Taxes	\$ 140,926,534	\$ 140,655,986	\$ (270,548)
Franchise Fees	65,925,257	58,655,924	(7,269,333)
Licenses and Permits	12,352,877	12,344,929	(7,948)
Charges for Services	30,679,851	33,041,749	2,361,898
Investment Earnings	2,500,000	9,719,561	7,219,561

The City is experiencing a stable growth in sales tax collections, with actual receipts closely aligning with the City's estimates.

The negative variance in franchise fees, when comparing actual figures to the budget, is due to economic factors such as account rate increases, inflationary pressures, rising fuel costs, supply chain disruptions, and infrastructure

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

investments. These factors impacted the franchisee's revenues, ultimately affecting the amount remitted to the City in franchise fees.

Charges for services exceeded budget mainly due ambulance transportation services being higher than projected.

Lastly, the City has always adopted a conservative approach to budgeting for investment earnings, however, part of this fiscal's year excess is due to management electing to reallocate excess investment earnings above budget from all funds to the General Fund. This reallocation was implemented to cover personnel service costs that exceeded budgeted amounts, ensuring continued delivery of essential services without impacting other operational priorities.

A review of actual expenditures compared to the appropriations in the final budget shows an overall variance of 101.1% with expenditures being over appropriations in the amount \$6.5 million.

Additional information on excess of expenditures over appropriations can be found in *Note 15* of this report.

CAPITAL ASSETS

The City’s investment in capital assets for its governmental and business-type activities as of August 31, 2025 amounts to \$2.3 billion (net of accumulated depreciation/amortization). This investment in capital assets includes land, improvements to land, easements, buildings, vehicles, machinery and equipment, infrastructure, right-to-use assets and all other tangible assets that are used in operations and that have initial useful lives greater than one year and exceed the City’s capitalization threshold of \$10,000 or more. The total increase in capital assets for the current fiscal year was 3.7% in comparison to the prior fiscal year.

The schedule below presents governmental and business-type assets net of depreciation/amortization, as reported in the government-wide financial statements.

	Governmental Activities		Business-Type Activities		Total	
	2025	2024	2025	2024	2025	2024

August 31, 2025

DEBT ADMINISTRATION

At the end of the fiscal year, the City had total debt payable of \$2.6 billion. Of this amount, \$1.3 billion is debt backed by the full faith and credit of the government. Revenue bonds of \$22.2 million and enterprise share of General Obligation and Certificates of Obligation bonds in the amount of \$72.8 million are secured solely by fees for services. Special Revenue bonds of \$57.5 million are secured by fees, hotel occupancy tax, and a portion of sales tax revenue at the Downtown Ballpark Venue.

The City's total long-term liabilities decreased by \$166.2 million (6.0%) during the current fiscal year. The overall net decrease was a combination of the following:

- A strong performance in the civilian pension fund and higher pension plan contributions exceeded the liability growth resulting in a decrease of \$18.3 million to the City's Net Pension Liability. Actuarial assumptions related to OPEB caused a \$15.3 million decrease to the City's Other Post Employment Benefits Liability.
- Debt service payments made for all debt instruments held by the City along with cash defeasance payments made during the year caused a reduction in the overall outstanding debt of \$124.6 million

The City's General Obligation, Revenue Bonds, and Certificate of Obligations ratings are listed below:

Additional information on the City of El Paso’s long-term debt can be found in *Note 8* of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The focus of the budget for fiscal year 2026 will be property tax relief for seniors and disabled, public safety, investing in infrastructure, and sustaining competitive wages and benefits. The following economic factors currently affect the City of El Paso and were considered in developing the 2025-2026 fiscal year budget:

- The property tax rate will decrease 0.2% in next year's budget from \$0.761405 to \$0.759649 per \$100 of taxable value. The budget includes increased exemption for Over 65 and Disabled homesteads to \$45,000. In total, the Budget reflects almost \$44.8 million, an increase of 13.9% from FY 2025, in property tax relief to the residents of El Paso in 2025.
- The budget will raise more total property taxes than this year's budget by \$18.2 million or 4.52%. Included in the increase is \$4.5 million in tax revenue from new property added to the tax roll next year.
- Public safety continues to be a top priority. The Police Department budget includes 1,196 uniform positions, including 120 graduating officers in FY 2026 and 258 civilian positions. Budget impacts are related to

CITY OF EL PASO, TEXAS
MANAGEMENT’S DISCUSSION AND ANALYSIS
August 31, 2025

incentive pay increase and new Sick Leave Police Buy Back program and Masters Peace Officer pay incentives as per Collective Bargaining Agreement effective 09/01/2025. The Fire Department Budget increase is \$9.5 million which is driven primarily by salaries and benefits due to staffing needs and collectively bargained adjustments. Staffing adjustments include a net gain of 50.5 FTEs: 10 for the new Fire Station #38 and 48.5 for grant-funded roles transitioning to the General Fund, offset by 8 FTE transfers to other city departments. To sustain operational readiness, the department anticipates one firefighter trainee academy and six Public Safety Communications Trainee academies in FY 2026. Additional budget increases in operating costs include covering expanded contractual services such as 311 Call Center operations, EAP programs, and lease costs for Fire HQ and the Diana Wellness Center

- Next fiscal year's budget will incorporate a full-year operating and staff costs related to the opening of the new Westside Animal Services facility (formerly Morehead School). Additionally, the budget includes increases in operating costs reflects higher demand for clinical supplies, renewed service contracts (including substitute vets), and rising costs across multiple outside services (e.g., microchips, disinfectants, 311 Call center).
- Sales tax revenues, after a period of unprecedented growth, have flattened with a projected 3.6% increase for the next fiscal year. It is important to remember that sales tax revenues may be volatile, and cities have to remain diligent in monitoring this revenue.
- Infrastructure investment includes an increase of \$2.8 million, including an increase of \$250,000 for additional lane striping. Additionally, the budget includes \$10 million for street resurfacing, \$1.5 million for the Vision Zero intersection safety program, and \$8.0 million for vehicles, heavy equipment, and facility improvements. Finally, the budget also reflects an increase for water expenses, and increases in janitorial and security contracts and asphalt and cement material contracts.
- Next year's budget includes the second phase of the compensation strategy. It implements pay plan adjustments for the Professional & Managerial level to account for the impacts of increasing the minimum wage in the current year. Additionally, phase two will include a compression adjustment for each job class, with the adjustment based on tenure in position. The compression percentage increase amounts are dependent upon the net difference between the employee’s current salary and grade minimum then multiplied by the tenure factor and will not apply to every employee. Every non-uniform employee will receive at least a 1% across-the-board increase in phase two. The FY 2026 Budget includes no increase to civilians for healthcare premiums for the seventh consecutive year. Other notable benefits, including the Shape-it-Up Wellness Plan incentive, Health Savings Account for Consumer Driven Healthcare Plan participants, and Tuition Assistance Program continued to be offered.

REQUEST FOR INFORMATION

CITY OF EL PASO, TEXAS

Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds August 31, 2025

Fund Balance - Total Governmental Funds Balance Sheet \$ 594,315,536

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Governmental Capital Assets (excluding internal service funds)	2,528,497,449	
Accumulated Depreciation/Amortization	(847,354,715)	
	1,681,142,734	1,681,142,734

Other long-term assets are not available to pay for current period expenditures and therefore are omitted or deferred in the funds.

Unavailable Revenues Property Taxes	23,067,039	
Unavailable Revenues Low Income Housing Loans	30,833,638	
Unavailable Revenues Grants and Other	12,297,416	
Unavailable Revenues 380 Agreement	853,445	
	67,051,538	67,051,538

Internal service funds are used to charge the costs of certain activities, such as health insurance, workers' compensation, unemployment, and equipment maintenance to individual funds. The internal service fund's net position is included in the governmental activities in the Statement of Net Position.

26,128,533

Long-term liabilities (excluding internal service funds) including bonds payable and net pension liability, and total OPEB liability (and the related deferred inflows and outflows of resources), are not due and payable in the current period and therefore are not reported as liabilities, deferred inflows or deferred outflows of resources in the governmental funds. Long-term liabilities consist of:

Accrued Interest Payable	(2,378,731)	
Claims and Judgments	(4,043,201)	
Compensated Absences	(77,689,215)	
Amount due to Component Unit	(23,695,208)	
Net Pension Liability	(643,107,342)	
Deferred Outflow - Pension Contributions Subsequent to Measurement Date	45,828,979	
Deferred Outflow - Difference in Projected and Actual Pension Earnings	96,276,497	
Deferred Outflow - Change in Assumptions for Pensions	13,088,006	
Deferred Outflow - Difference in Expected and Actual Pension Experience	36,954,933	
Deferred Outflow - Chapter 380 Agreement Obligations	29,975,345	
Deferred Outflow - Difference in Expected and Actual OPEB Experience	4,395,396	
Deferred Outflow - Change in Assumptions for OPEB	13,483,609	
Deferred Inflow - Difference in Expected and Actual OPEB Experience	(4,419,370)	
Deferred Inflow - Difference in Expected and Actual Pension Experience	(157,443)	
Deferred Inflow - Change in Assumptions for OPEB	(38,774,965)	
Total OPEB Liability	(91,291,304)	
Unamortized Bond Issuance Premium	(110,221,683)	
Deferred Charge on Refunding	3,447,932	
Deferred Gain on Refunding	(5,286,655)	
Chapter 380 Agreement Obligations	(29,975,345)	
Lease Liability	(14,540,596)	
SBITA Liability	(1,428,128)	
Arbitrage Rebate Payable	(5,850,872)	
Bonds and Notes Payable	(1,311,915,000)	
	(2,121,324,361)	(2,121,324,361)

Net Position of Governmental Activities \$ 247,313,980

CITY OF EL PASO, TEXAS
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended August 31, 2025

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balance - Total Governmental Funds		\$ (83,993,506)
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization in the current period (excluding internal service funds).</p>		
Capital Acquisitions	117,451,481	
Depreciation/Amortization	<u>(64,826,396)</u>	52,625,085
<p>The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, donations, remeasurements)</p>		
Cost of Disposed Assets (Net)	(19,468,554)	
Capital Asset Contributions to Enterprise Funds	<u>(452,197)</u>	(19,920,751)
<p>Certain revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds. This amount is the net change in deferred inflows of resources.</p>		
Unavailable Revenues Low Income Housing Loans	(1,890,466)	
Unavailable Revenues Property Taxes	3,268,498	
Unavailable Revenues 380 Agreement	(249,646)	
Unavailable Revenues Grants and Other	<u>(2,291,221)</u>	(1,162,835)
<p>The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Premium on Issuance of Bonded Debt	(6,668,553)	
Principal Payments	111,357,992	
Repayment of Long Term Debt	83,696,103	
Issuance of Refunding Bonds	(77,950,000)	
Repayment of Chapter 380 Agreement Obligation	9,287,846	
Amortization of Deferred Charge on Refunding	(1,379,580)	
Amortization of Deferred Gain on Refunding	258,491	
Change in Lease Liability	910,792	
Amortization of Premiums on Bonds Issued	12,120,426	
Leases Issued	<u>(3,833,578)</u>	127,799,939
<p>Some expenses (excluding internal service funds) reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.</p>		
Increase in Compensated Absences	(1,321,205)	
Decrease in Accrued Interest Payable	213,973	
Increase in Claims and Judgments	504,002	
Decrease in Amount Due to Component Unit	949,967	
Increase in Arbitrage Rebate Payable	(2,915,109)	
Decrease in Deferred Outflow of Resources related to Chapter 380 Obligations	(9,287,846)	
Changes to total OPEB liability and related deferred outflows and inflows of resources do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	507,843	
Changes to net pension liability and pension related deferred outflows and inflows of resources do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(24,005,790)</u>	(35,354,165)
<p>Internal service funds are used by management to charge the costs of health insurance, worker's compensation, unemployment benefits, and equipment maintenance to individual funds. The net revenue of the internal service funds is reported by function within governmental activities.</p>		
		4,369,851
Change in Net Position of Governmental Activities		<u><u>\$ 44,363,618</u></u>

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of El Paso (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City's significant accounting policies are described below.

A. Reporting Entity

The accompanying financial statements include the City and its component units discussed below, collectively referred to as the financial reporting entity. In accordance with GASB Statement No. 14, as amended by GASB Statement No. 39, GASB Statement No. 61, GASB Statement No. 80, and GASB Statement No. 84, the component units discussed below have been included in the City's reporting entity because of the significance of their operational or financial relationship with the City.

Discretely Presented Component Units**El Paso Water (EPWater)**

The Public Service Board (PSB), the governing board of EPWater, consists of the Mayor and six residents of El Paso County, Texas. With the exception of the Mayor, all other members are appointed by the City Council and serve staggered four-year terms. The City authorizes the issuance of the debt for EPWater and approves rate or fee changes. The financial information included in these statements is as of EPWater's latest fiscal year end, February 28, 2025.

El Paso Housing Finance Corporation (EPHFC)

EPHFC was incorporated September 10, 1979, under Chapter 394 of the Texas Local Government Code, for the purpose of providing a means of financing the costs of residential ownership and development that will provide decent, safe, affordable and sanitary housing for persons of low and moderate income. The EPHFC board consists of seven directors, appointed by the City Council, who serve a six-year term of office. Any director may be removed from office at any time, with or without cause, by written resolution of the governing body of the City. The financial information included in these statements is as of EPHFC's latest fiscal year end, December 31, 2024.

Blended Component Units**Downtown Development Corporation (DDC)**

The DDC was created and organized as a public, non-profit local government corporation incorporated pursuant to Sub-chapter D of Chapter 431, Texas Transportation Code, as amended, to assist and act on behalf of the City for the purpose of issuing debt to finance the construction of a Triple-A baseball stadium. The City Council operates as the Board of the DDC and certain City administrative staff (e.g. CFO, etc.) manage the activities for the DDC. The City levies and collects

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

a designated tax for the purpose of paying debt service on debt issued by the DDC. The DDC is reported in the nongrants special revenue fund.

El Paso Children's Museum Development Corporation (CMDC)

The CMDC was created and organized as a public, non-profit local government corporation incorporated pursuant to Sub-chapter D of Chapter 431, Texas Transportation Code, as amended, to assist and act on behalf of the City for the purpose of issuing debt to finance the construction of a children's museum. The City Council operates as the Board of the CMDC and certain City administrative staff (e.g. CFO, etc.) manage the activities for the CMDC. The City levies and collects ad valorem tax for the purpose of paying debt service on debt issued for the Children's Museum. The CMDC is reported in the nongrants special revenue fund.

Thunder Canyon Public Improvement District 1 (PID)

The Thunder Canyon PID was created after a handful of property owners petitioned for its creation to keep the canyon undeveloped and in its natural state protecting the 26-acre arroyo. The City Council operates as the Board of the PID and certain City administrative staff (e.g. CFO, etc.) manage the activities for the PID. The PID is reported in the nongrants special revenue fund. As of the date of this report, all outstanding debt obligations related to the Public Improvement District No. 1 (PID 1) has been fully extinguished and the City is actively working on the legal dissolution of the PID. For additional information related to this matter, see *Note 17 – Subsequent Events*.

Eastside Sports Complex Public Improvement District 2 (PID)

The Eastside Sports Complex PID was created after a majority of the property owners liable for the assessment petitioned for its creation to provide for the construction and infrastructure costs associated with the Eastside Sports Complex as well as other public amenities including open space, landscaping, hike and bike trails, community facilities, irrigation and lighting, trash receptacles and similar items. The PID, in combination with a tax increment reinvestment zone, funds the annual debt service. The City Council operates as the Board of the PID and certain City administrative staff (e.g. CFO, etc.) manage the activities for the PID. The PID is reported in the nongrants special revenue fund. During the fiscal year ended August 31, 2025, the City defeased the total amount of obligations outstanding for this PID. See *Note 8* for more information on this defeasance. The PID will remain open until all assessments are collected.

El Paso Property Finance Authority, Inc. (Authority)

The Authority was incorporated on March 12, 1987, pursuant to the Texas Non-Profit Corporation Act, for the purpose of establishing a Permanent Public Improvements Program. Its board consists of six directors who serve two-year terms or until a successor is appointed. The City reserves the right to alter the structure, organization, programs or activities of the Authority or to terminate and dissolve the Authority. The Authority is reported as a blended component unit of the City in the nongrants special revenue fund. The Authority had no assets or liabilities and had no financial transactions during fiscal year 2025.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fiduciary Component Units

City Employees Retirement Trust (CERT)

Substantially all full-time employees of the City are eligible to participate in the CERT, except for uniformed fire fighters and police officers who are covered under a separate plan. The plan is a single-employer defined benefit retirement plan established under legal authority of the City Charter and administered by a Board of Trustees (CERT Board). The Board of Directors is comprised of two citizens, who are not officers or employees of the City, nominated by the Mayor and approved by City Council, four elected City employees, a retiree and two district representatives as designated by City Council. The CERT is included in the accompanying financial statements as a Pension Trust Fund and the financial information included in these statements is as of the fund's latest fiscal year end, August 31, 2025.

Firemen and Policemen's Pension Fund (FPPF)

Uniformed fire fighters and police officers participate in the FPPF, which is divided into two divisions: the firemen division and policemen division. The plan is a single-employer defined benefit retirement plan established under legal authority of State Statutes and the City Charter and is administered by a Board of Trustees (FPPF Board). The FPPF Board is comprised of the Mayor, two citizens designated by the Mayor, the Chief of Police (or his designee), the Fire Chief (or his designee) and three policemen and three firemen elected by the membership of their respective divisions. The FPPF is included in the accompanying financial statements as a Pension Trust Fund. The financial information included in these statements is as of the fund's latest fiscal year end, December 31, 2024.

Camino Real Regional Mobility Authority (CRRMA)

The City created the CRRMA in 2007 to directly benefit the State of Texas, the City of El Paso, and the traveling public through the improvement of the state's transportation systems in and around the City of El Paso. CRRMA was established in accordance with Chapter 370 of the Texas Transportation Code, Chapter 26 of Title 43 of the Texas Administrative Code, and the Texas Transportation Commission Minute Order No. 110573. The Governor of the State of Texas appoints the Chair, while the remaining six board members are nominated by the Mayor and appointed by the City Council. All appointments to the board shall be residents of the City of El Paso and adequately represent all areas encompassed within the city limits. The City provides legal and administrative services to CRRMA. CRRMA is reported as a fiduciary component unit of the City in the custodial funds.

El Paso Metropolitan Planning Organization (MPO)

The MPO is responsible for cooperative decision-making by principal elected officials of general-purpose local governments in the El Paso Metropolitan Planning Area regarding the metropolitan transportation planning process. The MPO was established pursuant to 23 USC §134, 59 USC

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

§5303 (Metropolitan Transportation Planning) and 23 CFR 450.300 et seq. (Metropolitan Transportation Planning and Programming).

The City serves as the fiscal agent for the Transportation Policy Board of the MPO. The City also receives financial benefit as a sub-recipient of the MPO’s state grant awards. The MPO is reported as a fiduciary component unit of the City in the custodial funds.

For all other information regarding EPWater, EPHFC, CERT, FPPF, CRRMA or MPO please contact the respective entity’s administrative offices.

Not-For-Profit Corporations

The directors of each corporation below are appointed by the City Council and all activity must be approved from time to time by ordinance or resolution duly adopted by the City Council. Approval is solely for the purpose of satisfying the conditions and requirements of Section 147(f) of the Internal Revenue Code of 1986, as amended. Certain corporations have authorized and issued bonds for projects. The bonds specifically provide they are not a debt of the City and the City is not responsible for payment of these bonds. These corporations issue conduit debt, therefore, there is no financial benefit/obligation to the City resulting from these projects and no amounts related to these bonds have been reported in these financial statements.

El Paso Health Facilities Development Corporation (HFDC)

HFDC was incorporated September 2, 1981, under Chapter 221 of the Texas Health and Safety Code, for the purpose of acquiring, constructing, providing, improving, financing and refinancing health facilities in order to assist with the maintenance of public health and public welfare. Its

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

board consists of nine directors who serve six-year terms of office. Although there may be bonds outstanding, there is no liability to the City as all liability transfers to the trustee of the bond issue.

City of El Paso Industrial Development Authority (Authority)

The Authority was incorporated October 10, 1979, under Article 5190.6 of the Texas Revised Civil Statutes, for the purpose of promoting and developing commercial, industrial, manufacturing and medical research enterprises to promote and encourage employment, public health and public welfare. Its board consists of nine directors who serve a six-year term of office. Although there may be bonds outstanding, there is no liability to the City as all liability transfers to the trustee of the bond issue.

B. Basic Financial Statements

The government-wide financial statements (i.e., Statement of Net Position and Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported exclusively in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other non-exchange transactions, are reported separately from business-type activities, which rely significantly on fees and charges to external customers for support. All activities, both governmental and business-type, are reported in the government-wide financial statements using the economic resources measurement focus and the accrual basis of accounting. This method includes long-term assets and receivables as well as long-term debt and obligations. The government-wide financial statements focus on the sustainability of the City as an entity and the change in aggregate financial net position resulting from the activities of the fiscal period.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions are made when the elimination would distort the measurement of the cost of individual functional activities. Net interfund activity and balances between governmental activities and business-type activities are shown in the government-wide financial statements, if applicable.

Services performed by one function for another are credited as operating revenue to the performing department and an operating charge to the receiving department to reflect the accurate costs of programs. The rates used are intended to reflect full costs of providing the services. Certain indirect costs have been included as part of program expenses reported for the various functional activities.

The government-wide Statement of Net Position reports all financial and capital resources of the government excluding fiduciary funds. It presents information on assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference being reported as net position. Net position is required to be displayed in three components: 1) net investment in capital assets, 2) restricted and 3) unrestricted. Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balance of any bonds, notes and other debt that are attributable to the acquisition, construction or improvements of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position. Restricted net position has external constraints placed on their use by either: 1) creditors (such as debt covenants), grantors, contributors or laws or regulations of other

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

governments or 2) by law through constitutional provisions or enabling legislation. All net position not otherwise classified as net investment in capital assets or restricted are shown as unrestricted. Generally, the City would first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Restrictions of net position imposed by the reporting government by administrative policy are not shown as restricted net position on the government-wide financial statements.

The government-wide statement of activities demonstrates the degree to which the direct expenses of the various functions and departments of the City are offset by program revenues. Direct expenses are those that are easily identifiable with a specific function or department. Interest on long-term debt is not allocated to the various functions. Program revenues include: 1) charges to customers or users who purchase, use or directly benefit from goods, services or privileges provided by a particular function or department such as licenses, permits, park user fees, etc. and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or department.

Taxes, investment income (loss), and other revenues not identifiable with particular functions or departments are included as general revenues. The general revenues support the net costs of the functions and departments not covered by program revenues.

Also, part of the basic financial statements are fund financial statements for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of the fund financial statements is on major funds, as defined by GASB Statement No. 34. Criteria for determination of major funds are percentage of assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenditures/expenses of the fund category and of the governmental and enterprise funds combined. Nonmajor governmental funds are combined in a single column on the fund financial statements.

The governmental fund financial statements are prepared on a current financial resources measurement focus and modified accrual basis of accounting. This is the traditional basis of accounting for governmental funds. This presentation is deemed most appropriate to: 1) demonstrate legal and covenant compliance; 2) demonstrate the sources and uses of liquid resources; and 3) demonstrate how the City's actual revenues and expenditures conform to the annual budget. Since the governmental fund financial statements are presented on a different basis than the governmental activities column of the government-wide financial statements, a reconciliation is provided immediately following each fund statement. These reconciliations explain the adjustments necessary to transform the fund financial statements into the governmental activities column of the government-wide financial statements.

The proprietary (enterprise and internal service) funds and fiduciary fund financial statements are prepared on the same basis (economic resources measurement focus and accrual basis of accounting) as the government-wide financial statements. Therefore, most lines for the total enterprise funds on the proprietary fund financial statements will directly reconcile to the business-type activities column on the government-wide financial statements. Because the enterprise funds are combined into a single business-type activities column on the government-wide financial statements, certain interfund

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

activities between these funds may be eliminated in the consolidation for the government-wide financial statements but are included in the fund columns in the proprietary fund financial statements.

C. Fund Accounting

The City uses funds to report its financial position and activities. A fund is a separate accounting entity with a self-balancing set of accounts, which includes assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures. Fund accounting segregates funds according to their intended purpose and is designed to demonstrate legal compliance. Fund accounting also aids financial management by segregating transactions related to certain governmental functions or activities.

The City uses the following fund categories:

Governmental Funds

Governmental funds are those through which most of the governmental functions of the City are financed. They are used to account for activities primarily supported by taxes, grants and similar revenue sources.

The City reports the following major governmental funds:

General Fund

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government that are not accounted for in another fund.

Community Development Block Grants Fund (CDBG)

CDBG is a special revenue fund that accounts for the proceeds of grants such as those from the Department of Housing and Urban Development (HUD) for community development projects that may extend over multiple fiscal years. This fund has been designated as a major fund.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources that are restricted for the payment of principal, interest and related costs on long-term obligations of governmental funds.

Capital Projects Fund

The capital projects fund accounts for the proceeds of debt issuances, private donations and internal funding for the completion of capital construction projects and equipment purchases outside the scope of general operations.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**COVID-19 Relief Grants Fund**

This special revenue fund accounts for the proceeds of federal funds in response to the public health emergency and economic fallout as a result of the COVID-19 pandemic. The first wave of relief aid was the Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act, approved by the 116th U.S. Congress in March 2020. The second wave of federal funding to continue the relief aid is the Consolidated Appropriations Act of 2021, signed and approved on December 27, 2020. This Act was primarily to aid millions of Americans in the form of Emergency Rental Assistance and to extend some previously set timeframes. The third wave of federal funding in response to the pandemic is the American Rescue Plan Act (ARPA) authorized on March 11, 2021 to be effective on March 3, 2021. The ARPA provided the Coronavirus State and Local Fiscal Recovery Funds to continue the support of the public health response and lay the foundation for a strong and equitable economic recovery. This fund has been designated as a major fund.

Proprietary Funds

Proprietary funds are used to account for the City's ongoing organizations and activities, which are similar to those found in the private sector and where recovery of cost and the determination of net income is useful or necessary for sound fiscal management. The measurement focus is based upon determination of net income, changes in net position, financial position and cash flows.

Enterprise Funds

Enterprise funds are used to account for operations that provide services to the general public for a fee. Under GASB Statement No. 34, enterprise funds are also required for any activity whose principal revenue sources meet any of the following criteria:

- 1) any activity that has issued debt backed solely by the fees and charges of the activity,
- 2) if the cost of providing services for an activity, including capital costs such as depreciation/amortization or debt service, must legally be recovered through fees and charges or
- 3) it is the policy of the City to establish activity fees or charges to recover the cost of providing services, including capital costs.

The City reports the following major enterprise funds:

El Paso International Airport (Airport)

This fund accounts for the activities of the Airport including aviation operations and leasing activities on Airport properties.

Environmental Services

This fund accounts for the activities of the City-operated refuse collection, transfer and storage operations.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Mass Transit (Sun Metro)

This fund accounts for the City's transit services, including public transportation buses, para-transit, streetcar and facilities.

International Bridges

This fund accounts for the operations and maintenance activities of the three international bridges it controls. This fund has been designated as a major fund.

Tax Office

This fund represents activity related to the operations of the Tax Office. It also includes the custodial fund used to account for tax collections of 44 taxing entities, including the City of El Paso. According to GASB Statement No. 84, custodial funds that hold assets upon receipt for three months or less are allowed to be reported in the enterprise fund's statement of net position rather than in a custodial fund. The assets pertaining to this custodial fund are reported with a corresponding liability and all cash inflows and outflows are reported in the operating activities category of the proprietary statement of cash flow.

Internal Service Funds

These funds account for facilities maintenance, fleet services, and document services provided to other departments of the City and to other governments and organizations on a cost reimbursement basis. These funds also account for risk management and insurance activities, which include the self-insured health, workers' compensation and unemployment compensation programs.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations or other governmental units. The reporting focus is upon net position and changes in net position and employs accounting principles similar to proprietary funds. Fiduciary funds are not included in the government-wide financial statements since they do not represent assets of the City to support City programs.

Pension Trust Funds

Pension trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, OPEB plans or other employee benefit plans. The City has two pension trust funds to account for the activities of the CERT and FPPF.

Custodial Funds

Custodial funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations, and other governmental units. Custodial funds include the CRRMA and the MPO.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. Further, certain activity occurs during the year involving transfers of resources between funds reported at gross amounts as transfers in/out. While these balances are reported in fund financial statements, certain eliminations are made in the government-wide financial statements.

Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

D. Measurement Focus and Basis of Accounting

In the government-wide statements, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Other taxes and fees are recognized as revenue in the year they are earned. Revenue from most grants and similar items are recognized in the fiscal year the qualifying expenditure is made, if applicable, and all other eligibility requirements are satisfied.

Governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. This means that only current assets, current liabilities and deferred inflows/outflows of resources are generally included on the Balance Sheet. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days after year end, except for franchise fee and grant revenues which are collected within 75 days after year end. Expenditures are recorded when the related fund liability is incurred. However, compensated absences, debt service expenditures, claims and judgments and arbitrage liabilities are recorded only when the payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and any acquisitions under leases and SBITAs are reported as other financing sources.

Revenues susceptible to accrual include property taxes, sales taxes, hotel occupancy tax (HOT), franchise taxes, fines and forfeits, and interest earned on investments. Charges for services, licenses and permits, and miscellaneous revenues are recorded when received in cash since they are generally not measurable until actually received, which is the same as the date the services are rendered or the license or permits are issued.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Entitlements are recorded as

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Municipal Court revenues are recognized when they are received. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source.

The reported fund balance for each fund is considered a measure of current financial resources. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they present a summary of sources and uses of current financial resources during the period.

Special reporting treatments are applied to governmental fund inventories and prepaid expenditures to indicate that they do not represent current financial resources, since they do not represent net expendable current assets. Such amounts are reported as nonspendable fund balance.

Proprietary and fiduciary funds are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when incurred. These funds are accounted for on a flow of economic resources measurement focus whereby all assets, deferred outflows of resources, all liabilities and deferred inflows of resources associated with the operation of these funds are included on the Statement of Net Position. Operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation/amortization on capital assets and right-to-use assets. All revenues and expenses not meeting this definition are reported as nonoperating items.

E. Budgetary Basis of Accounting

The City operates within the confines of a balanced budget. Annual budgets are adopted on a basis consistent with generally accepted accounting principles. Unexpended annual budget appropriations lapse at the end of the fiscal year. The City Manager is responsible for presenting an annual budget to the City Council. The City Council sets public hearings for the annual budget review and adopts the budget. The adopted budget provides a detailed plan of the cost of public services that will be provided during the next fiscal year.

Of the major funds presented in the financial statements, the General Fund, Debt Service Fund, Community Development Block Grants Fund (Special Revenue Fund), Internal Service Fund and proprietary operating funds have legally adopted annual budgets. The capital projects fund is appropriated on a project-length basis. Other special revenue funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards) and sometimes span a period of more than one fiscal year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Budgetary schedules are included in required supplementary information for the General Fund and the Community Development Block Grants Fund. The budgetary schedule for the Debt Service Fund is included in the combining and individual fund statements and schedules.

F. Cash and Investments

Cash balances of City funds are pooled and invested, except for all component units, pension trust funds, a portion of the Airport relating to passenger facility charges, and certain custodial funds. Earnings from pooled investments are allocated to funds based upon their positive average daily balance in the Pool. Each fund's equity in the pooled cash and investments is proportionately presented as Cash and Investments at fair value. Negative cash balances are reclassified to advances to/from other funds. The City reports cash in demand deposit accounts as Cash. Cash with fiscal agents pertains to Destination El Paso.

It is the policy of the City to: (i) invest public funds in a manner which will provide maximum safety of principal; (ii) meet the daily cash flow demands of the City (liquidity); and (iii) provide the highest possible investment return all while complying with the Texas Public Funds Investment Act of 1995, as may be amended and local ordinances and resolutions governing the investment of the City's public funds. Pursuant to Section 2256.005 of the Texas Government Code, the City is required to review its Investment Policy on an annual basis.

Interest earnings from general obligation bonds and certificates of obligation shall be used solely to fund direct or related capital expenditures or to service current and future debt payments as determined by City Council in accordance to the bond ordinance. Interest earnings will be allocated in accordance to the City's Investment Policy, adopted annually by City Council, and/or the bond ordinance which authorized the specified debt obligation. When projects are completed, any remaining cash is transferred to the Debt Service Fund as prescribed by the debt covenants.

Restricted Cash and Restricted Investments refer to assets that are held for a specific purpose and therefore not available for immediate or general business use. The restrictions are generally by contractual agreements or regulatory requirements.

Although the City does not report cash equivalents, EPWater includes them in their Statement of Net Position. Therefore the City's government-wide Statement of Net Position reflects cash and cash equivalents.

G. Inventories and Prepaid Items

Inventories of materials and supplies consist primarily of expendable items held for consumption. They are stated at cost using the first-in, first-out method for all governmental and proprietary funds on the Statement of Net Position for governmental activities and business-type activities. The consumption method is used to account for inventories. Under this method, inventory acquisitions are recorded in inventory accounts and charged as expenditures or expenses when used. On the government-wide statement of activities, consumption of inventory is recorded as an expense.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Prepaid items, recorded in both government-wide and fund financial statements, are goods or services that are paid in advance and are applicable to future accounting periods. Using the purchases method, prepaid items are recorded as expenditures or expenses as the goods or services are acquired in the governmental funds except for Destination El Paso reporting this balance using the consumption method in nonmajor governmental funds. Proprietary funds and government-wide financial statements report prepaid items using the consumption method. For the current fiscal year, there were no prepaid balances needing to be recognized in the government-wide financial statements as prepaid balances were fully amortized as of the year-end.

H. Capital Assets

GASB standards require that all capital assets, whether owned by governmental activities or business-type activities, be recorded and depreciated in the government-wide financial statements. In the governmental fund statements, capital assets are not reported as they do not fit in the current financial resources measurement focus.

Capital assets, including public infrastructure (e.g., roads, bridges, sidewalks and other assets that are immovable) are defined as assets with an initial cost of \$10,000 or more and an estimated useful life greater than one year. Capital assets are recorded at cost, if purchased or constructed, or estimated historical cost. Donated capital assets are recorded at acquisition value which is the fair value at the date of the donation. The donor will provide the fair market value of the donated asset by appraisal or by consideration of other factors such as cost or selling price, sales of comparable properties or replacement cost. Intangible assets follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Major outlays for capital assets and improvements are capitalized as the projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major improvements are capitalized and depreciated over the estimated remaining useful life of the related capital assets.

Land and construction in progress are not depreciated. Capital assets of the primary government are depreciated or amortized using the straight-line method and half-year convention. The useful lives of assets vary according to their category and are accounted for as follows:

Land Improvements	20 years
Infrastructure	10 to 30 years
Buildings and Building Improvements	30 years
Vehicles	5 to 12 years
Furniture, Fixtures and Equipment	5 years
IT Equipment	3 to 5 years
Heavy Equipment	10 years

When capital assets are retired from service or otherwise disposed of, any gain or loss on disposal of assets is recognized. Capital assets transferred between funds are transferred at their net book value as of the date of the transfer.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**I. GASB 87 Leases**

The City is a lessee for noncancellable leases of building office space, equipment, parking spaces and land. The City recognizes a lease liability and an intangible right-to-use lease asset in the government-wide financial statements and the proprietary fund statement of net position. The City recognizes lease assets with an initial, individual value of \$10,000 or more. At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. The lease asset is amortized on a straight-line basis over the shorter of its useful life or the lease term.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The interest rate charged by the lessor will be used as the discount rate. When the interest rate charged by the lessor is not provided, the City will use the latest incremental borrowing rate as the discount rate for the leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments.

The City monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of the lease liability.

J. GASB 96 Subscription-Based Information Technology Arrangements

The City has several software subscriptions under GASB 96. The City recognizes a subscription liability and an intangible right-to-use subscription asset for these subscriptions. The City recognizes subscription assets with an initial, individual value of \$10,000 or more. At the commencement of a subscription, the City initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at, and certain payments made before the subscription commencement date, plus certain initial direct costs. The subscription asset is amortized on a straight-line basis over the shorter of its useful life or the subscription term.

Key estimates and judgments related to subscriptions include how the City determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The interest rate charged by the vendor will be used as the discount rate. When the interest rate charged by the vendor is not provided, the City will use the latest incremental borrowing rate as the discount rate for the subscriptions.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- The subscription term includes the noncancellable period of the subscription. Subscription payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its subscriptions and will remeasure the subscription assets and liabilities if certain changes occur that are expected to significantly affect the amount of the subscription liability.

K. Insurance

Activity for certain self-insurance programs is recorded in the City's Self-Insurance Internal Service Fund. Assets and obligations related to employee health benefits, workers' compensation and unemployment compensation are included in the Self-Insurance fund. Employee health and workers' compensation benefit liabilities are accrued in the fund based upon actuarial determined estimates of the aggregate liability for unpaid benefits. The City records all health and workers' compensation claim liabilities, including an estimate for claims incurred but not reported. In addition, the City has a stop loss policy for health claims.

The City is self-insured for multiple liability matters. Additionally, the City maintains insurance policies from independent insurance carriers for property insurance, errors and omissions insurance, and auto liability insurance coverage for some of the City's fleet of vehicles. For additional information refer to *Note 10* of this report.

The City is subject to the State of Texas Employment Commission Act. Under this Act, the City's method for providing unemployment compensation is to reimburse the State of Texas for claims paid by the state.

L. Unearned Revenue

In the governmental and proprietary funds, unearned revenue represents amounts reported in accordance with the City's revenue recognition criteria which is consistent with GAAP. The City records unearned revenues when resources are received without an exchange transaction taking place, such as receiving grant funds in advance without incurring allowable expenditures or receiving advanced payments on leases.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position presents deferred outflows of resources. This financial statement element represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

The City has the following items that qualify for reporting in this category:

- Deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- Deferred Chapter 380 agreement charges are related to Economic Development's program for the purpose of stimulating business and commercial activity within the City.
- Pension contributions subsequent to measurement date are deferred and recognized in the following fiscal year.
- Difference in expected and actual pension experience is deferred and amortized over a closed five year period.
- Difference in projected and actual earnings on pension investments is deferred and amortized over a closed five year period.
- Change in assumptions for pensions are deferred and amortized over a closed five year period.
- Change in assumptions for OPEB are deferred and recognized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB benefits through the OPEB plan (active and inactive employees) determined as of the beginning of the measurement period.
- Difference in expected and actual experience for OPEB is deferred and is recognized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB benefits through the OPEB plan (active and inactive employees) determined as of the beginning of the measurement period.

In addition to liabilities, the Statement of Net Position and/or Balance Sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The City of El Paso has the following types of items that qualify for reporting in this category:

- Deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Difference in expected and actual pension experience is deferred and amortized over a closed five year period.
- Difference in expected and actual OPEB experience is deferred and recognized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB benefits through the OPEB plan (active and inactive employees) determined as of the beginning of the measurement period.
- Change in assumptions for OPEB benefits is deferred and recognized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB benefits through the OPEB plan (active and inactive employees) determined as of the beginning of the measurement period.
- Deferred inflows - Leases represents the future inflow of resources related to GASB 87 lease revenue.
- Deferred inflows - Grants and Other in the Balance Sheet represents the future inflow of resources related to pending grant reimbursement that are not available as of the date of this financial statement, future inflow of resources related to an opioid settlement agreement, and future inflow of resources for reimbursements for construction projects.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- In the governmental funds, unavailable resources are revenues that are earned and measurable but not yet available, and are reported as deferred inflows of resources. The governmental funds report unavailable resources of property taxes, low income housing loans, 380 agreements, leases, grants and other.

N. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. Resulting receivables and payables are classified as Due from Other Funds or Due to Other Funds.

O. Internal Balances

Internal balances are the net residual amounts due between governmental and business-type activities in the government-wide Statement of Net Position. The amounts shown as internal balances are the Due to Other Funds and Due from Other Funds balances between governmental activities and business-type activities of the primary government. Any interfund receivables and payables that are within governmental activities or within business-type activities are eliminated on the Statement of Net Position. There were no internal balances for the fiscal year ended August 31, 2025.

P. Federal and State Grants

Grants and entitlements received for purposes normally financed through the general government are accounted for within the special revenue funds. Revenues are recognized when the expenditures of federal and state grant funds occur and all eligibility requirements have been met. Amounts owed to the City at fiscal year end for grants and entitlements are reflected as Due from Other Government Agencies. The City expects to collect these balances during the subsequent fiscal year. Grants received by Proprietary Funds are reported in the applicable Proprietary Fund.

Q. Compensated Absences

City employees, excluding uniformed Police Department and Fire Department employees, earn vacation leave, which may either be taken or accumulated (up to a maximum of 400 hours) until paid upon termination or retirement. For uniformed Police Department and Fire Department employees only, special provisions apply based on the most current Articles of Agreement between the City and the local associations of Fire and Police unions. Leave benefits are accrued as a liability as the benefits are earned by employees, but only to the extent that it is probable that the City will compensate the employees through paid time off or cash payments, conditioned on the employee's termination or retirement. For governmental funds, a liability for these amounts is reported only if they have matured as a result of termination or retirement. For the government-wide and proprietary fund financial statements, all of the outstanding compensated absences are recorded as a liability. The change in compensated absences is presented as a net amount, in accordance with GASB 101.

R. Pensions

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the CERT and

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

FPPF and additions to/deductions from CERT and FPPF Fiduciary Net Position have been determined on the same basis as they are reported by CERT and FPPF. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Additional information on the pension plans is available in *Note 13* of this report.

S. Other Postemployment Benefits (OPEB)

Contributions from the City for OPEB healthcare premiums are set by statute and are recognized in the period when the contribution is made on behalf of the retiree. Payment for insurance premiums are recognized when due and payable in accordance with the benefit terms. For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense have been determined on the same basis as they were reported by the plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Additional information on the OPEB plan is available in *Note 12* of this report.

T. Long-term Obligations, Bond Premiums, Discounts, and Issue Costs

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund Statement of Net Position. In these statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issue costs are expensed in accordance with GASB Statement No. 65.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issue costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issue costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

U. Claims and Judgments

Claims and judgments are accrued as expenditures in governmental funds for the amount expected to be liquidated with expendable available financial resources to the extent they mature each period. The entire liability for claims and judgments is reported in the government-wide financial statements and in the proprietary fund financial statements when it is probable that a liability has been incurred.

V. Solid Waste Landfill Closure and Post-Closure Cost

Solid waste landfill closure and post-closure costs are accounted for in accordance with guidelines recommended by GASB Statement No. 18, *Accounting for Municipal Solid Waste Landfill Closure and Post-closure Costs*. The liability, based upon landfill capacity used to date, is recorded in the Environmental Services proprietary fund. An explanation of the liability and its calculation is presented in *Note 8* of this report.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

W. Classification of Net Position/Fund Balance

In the government-wide financial statements, net position is classified into three components:

Net investment in capital assets – Capital assets including restricted capital assets, leases and SBITA assets, net of accumulated depreciation/amortization and reduced by the outstanding proceeds of any bonds, notes, leases and SBITA liabilities, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – Net position with constraints placed on its use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; (2) law through constitutional provisions or enabling legislation.

Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

The City reports governmental fund balances by the five following classifications:

Nonspendable – Amounts that cannot be spent, such as inventory or prepaid amounts, because they are either not in spendable form or legally required to be maintained intact.

Restricted – Amounts with restrictions that are externally imposed by creditors, grantors, contributors, laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes and imposed by formal action of the government’s highest level of decision-making authority. In the case of the City, this would require a formal action by City Council in the form of a resolution to establish, modify or rescind a commitment.

Assigned – Amounts constrained by City management's intent to be used for specific purposes but are not formally restricted by external resources or committed by the City Council. The Council may also assign fund balance, as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget. This assignment occurs with the adoption of the budget adoption.

Unassigned – Amount of the remaining fund balance not in any of the other classifications. The General Fund is the only fund that reports a positive unassigned fund balance amount. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

The City designates restricted amounts to be spent first if both restricted and unrestricted fund balance are available unless there are legal constraints that prohibit this, such as in grant agreements requiring the City to match grant amounts spent with local funds. Additionally, the City would first use

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

committed, followed by assigned, and last of all unassigned balances when expenditures are incurred for purposes for which balances in any of these fund balance classifications could be used.

X. Minimum Fund Balance

It is the desire of the City to attain an adequate General Fund balance to maintain liquidity in anticipation of economic downturns or natural disasters. The City strives to maintain an unrestricted budgetary General Fund balance sufficient for 60 days of General Fund expenditures.

Y. Cash Reserve

The City maintains a cash reserve fund of five percent of the prior years adopted General Fund operating expenditure budget in order to provide coverage for unexpected expenses in accordance to the City Charter.

Z. Stabilization Funds

On March 3, 2020, a stabilization fund was established in the adopted budget policy approved via City Council resolution. The language was amended on May 10, 2022 by City Council resolution from stabilization fund to the operating and debt stabilization fund. This fund serves as a reserve of surplus revenues to be used with the purpose of 1) minimizing future tax rate impact for maintenance and operations as well as debt service, 2) protecting against raising charges for services and fees and 3) providing available funding for specific circumstances as needed to maintain the same levels of service. In such case, the use of the fund resources will be determined and approved by City Council action. The operating and debt stabilization fund serves as a source of financial support for the City's budget in times of slow or declining revenue growth, as a safeguard to continue funding priorities included in the strategic plan, and as the primary source of protection against having to make drastic cuts in City services in periods of economic downturns. The amount of funds to be committed will be recommended by the Chief Financial Officer or designee to the City Council during the year. The City Council will have final approval of the amount maintained in the fund, as well as the planned uses of the fund. As of August 31, 2025, the general fund reported a committed fund balance of \$56.8 million related to this stabilization arrangement.

On May 10, 2022, a pension stabilization fund was established in the adopted budget policy approved via City Council resolution. This fund serves as a reserve of surplus revenues from all City funds (governmental and enterprise funds), to the extent permitted by law, to be used with the sole purpose of making payments to the civilian, firemen and policemen's retirement pension plans on an annual basis commencing in fiscal year 2023. The pension stabilization fund was created to fund additional contributions to the City Employees Retirement Trust and to the Firemen and Policemen's Pension Fund. The goal is to reduce the current unfunded pension liability and sustain the City's bond rating. The amount of funds to be committed and transferred will be recommended by the Chief Financial Officer or designee to the City Council for approval during the year. The balance in the fund should be invested in accordance with the City's investment policy and all investment earnings should be used for the purpose of the fund. As of August 31, 2025, the general fund reported a committed fund balance of \$23.9 million related to this stabilization arrangement.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

On May 9, 2023, the City Council signed a resolution to create a pay for futures fund by amending the adopted budget policy. The fund serves as a source of funds for the City's budget with a sole purpose to support police, fire and civilian compensation increases. The amount of funds to be committed and utilized each year will be recommended by the Chief Financial Officer and approved by City Council. The approved amount will be committed from September 1, 2023 to August 31, 2028 with any unused funds returning to the unassigned fund balance on September 1, 2028. As of August 31, 2025, the general fund reported a committed fund balance of \$16.2 million related to the pay for futures fund.

AA. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the City considers cash to be currency on hand, cash held by trustee and demand deposits with banks. The City considers all highly liquid investments with an original maturity of approximately ninety days or less to be investments rather than cash equivalents.

AB. Fiscal Year Inconsistencies

The City's component unit, EPWater, operates on a fiscal year ending on the last day of February. Therefore, the following amounts reported by the primary government are inconsistent with amounts reported by EPWater.

Primary Government - Due from Component Unit	
Governmental Funds	\$ 4,946,854
Proprietary Funds:	
Environmental Services	6,974,437
Due From Component Unit at August 31, 2025	<u>\$ 11,921,291</u>
Component Unit - EPWater - Due to Primary	
Government - at February 28, 2025	<u>\$ 10,770,464</u>
Primary Government - Due to Component Unit	
Governmental Funds	
Due to Component Unit at August 31, 2025	<u>\$ (23,695,208)</u>
Component Unit - EPWater - Due from Primary	
Government - at February 28, 2025	<u>\$ 24,721,586</u>

The FPPF within the Pension Trust Funds operates on a fiscal year ending on December 31. Therefore, the amounts reported by the primary government are inconsistent with amounts reported by FPPF. As a fiduciary fund, the amounts reported by the FPPF are excluded from the government-wide financial statements. The following amounts are reported in these statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

	Firemen Division	Policemen Division
Primary Government		
Employer Contributions to FPPF:		
General Fund	\$ 14,590,900	\$ 19,594,686
Nonmajor Governmental Funds	625,879	990,202
COVID-19 Relief Grants	119,792	160,388
El Paso International Airport	651,806	542,852
Total Employer Contributions to FPPF - year ended August 31, 2025	\$ 15,988,377	\$ 21,288,128
Fiduciary Fund - FPPF		
Employer Contributions to FPPF - year ended December 31, 2024	\$ 15,524,006	\$ 21,411,138

AC. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the City’s management to make estimates and assumptions that effect reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources at the date of the financial statements and the reported changes in net position during the reporting period. Actual results may differ from those estimates.

AD. Implementation of New Accounting Standards

In fiscal year 2025, the City adopted two new statements issued by the Governmental Accounting Standards Board:

Statement No. 101: *Compensated Absences*

This Statement was issued June 2022 to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. The implementation of this standard did not have an impact on the City's beginning net position as of September 1, 2024.

Statement No. 102: *Certain Risk Disclosures*

This Statement was issued December 2023 to provide users of government financial statements with information about risks related to a government's vulnerabilities due to certain concentrations or constraints that is essential to their analyses for making decisions or assessing accountability. This Statement establishes financial reporting requirements for risks related to vulnerabilities due to certain concentrations or constraints. The City determined that there were no concentrations or constraints present during the reporting period that met the criteria for disclosure under GASB Statement No. 102. As such, implementation of this standard had no impact on the City’s financial statements, and no additional disclosures were required.

NOTE 2. CASH AND INVESTMENTS

A summary of cash and investments is presented below.

	Primary Government (Statement of Net Position)	Custodial Funds (Statement of Fiduciary Net Position)	Total City Treasury
Cash	\$ 22,769,868	\$ 67,826,298	\$ 90,596,166
Restricted Cash	6,852,781	—	6,852,781
Total Cash	29,622,649	67,826,298	97,448,947
Investments	464,794,223	13,981,926	478,776,149
Restricted Investments	469,033,846	—	469,033,846
Total Investments	933,828,069	13,981,926	947,809,995
Total Cash and Investments	\$ 963,450,718	\$ 81,808,224	\$ 1,045,258,942

Pooled Cash and Investments

The City maintains a cash and investment pool (Pool) that is available for use by the Primary Government. Each fund’s portion of the Pool is reported in these statements as “Cash” and “Investments.” Participation in the Pool is restricted and does not include cash on hand (change funds) nor funds that are restricted because of statutory or contractual considerations. A fund may overdraw its account in the Pool, with the overdraft reported as a liability (Advances from Other Funds) on the Statement of Net Position. The City invests on a pooled basis and earnings from the Pool are allocated to the funds based upon each fund’s positive average daily balance in the Pool in accordance with the City’s Investment Policy.

	Cash	Restricted Cash	Investments	Restricted Investments	City Treasury	Non-Pooled	Pooled
Balance Sheet - Governmental Funds							
General Fund	\$ 8,623,830	\$ —	\$ 87,568,942	\$ 28,891,757	\$ 125,084,529	\$ 39,550	\$ 125,044,979

NOTE 2. CASH AND INVESTMENTS (continued)

Cash and Investments of the City Treasury, including restricted amounts at August 31, 2025 were:

	Pooled Cash and Investments	Non-Pooled Cash and Investments	Total
Cash in Bank	\$ 29,403,361	\$ 67,826,298	\$ 97,229,659
Cash on Hand	—	219,288	219,288
Total Cash	<u>29,403,361</u>	<u>68,045,586</u>	<u>97,448,947</u>
US Agencies	99,971,392	—	99,971,392
US Treasuries	735,744,786	13,981,926	749,726,712
Local Government Investment Pools	51,583,599	—	51,583,599
Money Market	46,528,292	—	46,528,292
Total Investments	<u>933,828,069</u>	<u>13,981,926</u>	<u>947,809,995</u>
Total Cash and Investments	<u>\$ 963,231,430</u>	<u>\$ 82,027,512</u>	<u>\$ 1,045,258,942</u>

The City follows GASB Statement No. 72 (Fair Value Measurement and Application), and GASB Statement No. 79 (Certain External Investment Pools and Pool Participants). These statements require that governmental entities report investments at fair value and that all investment income, including changes in the fair value of investments, be reported as revenue in the Statement of Activities. The City reports the change in fair value as part of investment earnings. In addition, GASB Statement No. 79 requires the disclosure of the presence of any limitations or restrictions on withdrawals.

The City has adopted an investment policy to minimize the inherent risks associated with deposits and investments. The primary objective of the City’s Investment Policy is preservation of capital. After consideration of the investments' safety and liquidity requirements, the policy seeks the highest possible investment return. The policy defines:

- * The requirements for authorized financial institutions, depositories and broker/dealers.
- * Investments authorized and prohibited.
- * The maximum maturity for any single investment as three years.
- * The maximum dollar-weighted average maturity for investment as two years.

The City’s Investment Policy requires that financial institutions, broker/dealers, intermediaries and advisers meet certain conditions and provide certain information prior to entering into investment activities with the City.

The City participates in TexSTAR and TexasDAILY, which are local government investment pools, as well as a Morgan Stanley Government Fund. TexasDAILY and TexSTAR are public funds investment pools organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code, and are privately managed. TexasDAILY, TexSTAR and the money market funds are carried at net asset value.

Custodial Credit Risk (Deposits) - Collateralization is required for deposits in demand deposit accounts. The collateralization level is 102% of principal. Collateral is held in the City’s name by an independent third party with whom the City is a party to a current custodial agreement and collateral instruments are limited to those instruments authorized by the City’s Investment Policy.

NOTE 2. CASH AND INVESTMENTS (continued)

Custodial Credit Risk (Investments) - Securities are held by the City’s agent in the City’s name.

Credit Risk - The Investment Policy authorizes the following securities:

- obligations of the United States or its agencies and instrumentalities
- direct obligations of the State of Texas or its agencies and instrumentalities
- collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by the agency or instrumentality of the United States
- other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of this state or the United States or their respective agencies and instrumentalities
- obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent
- interest-bearing banking deposits that are guaranteed or insured by (a) the Federal Deposit Insurance Corporation or its successors or (b) the National Credit Union Share Insurance Funds or its successor
- certificates of deposit and share certificates
- repurchase agreements
- commercial paper
- mutual funds that invest in securities described above
- investment pools that invest in securities described above

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized rating organization. Below is the minimum rating required by (where applicable) the Public Funds Investment Act, the City’s Investment Policy, and the actual rating as of year end for each investment type.

Investment Type	Carrying Value	Minimum Required Rating	Rating As of Year End
US Agencies	\$ 99,971,392	N/A	Aaa/AA+
US Treasuries	749,726,712	N/A	N/A
Money Market	46,528,292	Aaa-mf/AAAm	Aaa-mf/AAAm
TexSTAR LGIP	25,819,210	AAA/AAAm	AAAm
TexasDAILY LGIP	25,764,389	AAA/AAAm	AAAmmf
Total Investments	<u>\$ 947,809,995</u>		

Concentration of Credit Risk - The Investment Policy limits the percentage of authorized investment in the portfolio. The following is the fair value of investments that represent 5% or more of investments:

Federal Home Loan Bank	<u>\$ 99,971,392</u>
------------------------	----------------------

NOTE 2. CASH AND INVESTMENTS (continued)

Interest Rate Risk – The City will minimize interest rate risk, which is the risk that the fair value of securities will fall due to increases in market interest rates, by structuring the investment portfolio so that securities mature in a manner consistent with projected cash requirements, thereby avoiding the need to sell securities on the open market prior to maturity.

At August 31, 2025, investments of the City are as follows:

Investment type	Carrying Value	Maturity in Years	
		Less than 1	1 - 3
US Agencies	\$ 99,971,392	\$ 99,971,392	\$ —
US Treasuries	749,726,712	529,084,512	220,642,200
Local Government Investment Pools	51,583,599	51,583,599	—
Money Market	46,528,292	46,528,292	—
Total Investments	<u>\$ 947,809,995</u>	<u>\$ 727,167,795</u>	<u>\$ 220,642,200</u>

Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Unadjusted inputs using quoted prices in active markets for identical investments.
- Level 2** Other significant observable inputs other than Level 1 prices, including but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.
- Level 3** Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available.

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying Statement of Net Position and Statement of Fiduciary Net Position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at August 31, 2025:

NOTE 2. CASH AND INVESTMENTS (continued)

Investments by Fair Value Level	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
US Agencies	\$ 99,971,392	\$ 99,971,392	\$ —	\$ —
US Treasuries	749,726,712	749,726,712	—	—
Total Investments by Fair Value Level	<u>849,698,104</u>	<u>\$ 849,698,104</u>	<u>\$ —</u>	<u>\$ —</u>
Investments Measured at the Net Asset Value ^(a)				
TexasDAILY	25,764,389			
TexSTAR	25,819,210			
Money Market	<u>46,528,292</u>			
Total Investments Measured at the NAV	<u>98,111,891</u>			
Total Investments	<u>\$ 947,809,995</u>			

^(a) Certain investments that are measured using the net asset value per share or its equivalent have not been classified in the fair value hierarchy. The fair value amounts included above approximated net asset value for all related external investment pool balances.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying Statement of Net Position and Statement of Fiduciary Net Position, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques for the year ended August 31, 2025.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented on the following table:

	Fair Value at 8/31/2025	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
TexasDAILY	\$ 25,764,389	Daily	Same Day
TexSTAR	25,819,210	Daily	Same Day
Money Market	<u>46,528,292</u>	Daily	Same Day
Total Investments Measured at the NAV	<u>\$ 98,111,891</u>		

Investment in State Investment Pools

During the year, the City invested in multiple local government investment pools, including TexSTAR TexasDAILY. Each pool's governing body is comprised of individuals who are employees, officers,

NOTE 2. CASH AND INVESTMENTS (continued)

or elected officials of participants in the funds or who do not have a business relationship with the fund and are qualified to advise. Investment objective and strategies of the pools are to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. Pools offer same day access to investment funds.

Unrealized Gains (Losses)

GASB Statement No. 72 requires that entities value their investment portfolios at fair value and report a corresponding unrealized gain or loss. The intent is to provide the users of the financial report with information related to the potential effect of investment gains and losses. These effects result from changes in market interest rates. Adverse effects may result during periods of rising interest rates if an entity is required to sell fixed term debt securities prior to maturity. Leases, and the corresponding interest revenue shown below, are not subject to GASB Statement No. 72. As of August 31, 2025, the City recorded \$4.3 million in unrealized gains as follows:

	Governmental Activities	Business-Type Activities	Total Primary Government
Interest Revenue - Leases	\$ 604,476	\$ 4,643,649	\$ 5,248,125
Interest Revenue - Investment	32,942,188	13,402,921	46,345,109
	33,546,664	18,046,570	51,593,234
Unrealized Gain/Loss ^(a)	3,056,927	1,272,612	4,329,539
Total Investment Earnings	<u>\$ 36,603,591</u>	<u>\$ 19,319,182</u>	<u>\$ 55,922,773</u>

(a) This is a gain/loss that would occur if the City had sold all fixed term debt securities on August 31, 2025.

Cash Equivalents and Investments - Component Unit - CERT

The CERT’s cash equivalents and investments are managed by various investment managers who have discretionary authority over the assets managed by them, within the investment guidelines established by the Board, under contracts with the CERT. The cash equivalents and investments are held by the CERT’s custodian in the CERT’s name. The cash equivalents and investments are uninsured and generally consist of short-term securities, U.S. and foreign government securities, bank collective investment funds, commingled funds, real estate trusts and private equity partnerships. Certain bank collective investment funds invest primarily in U.S. corporate stocks, international equities, and government bonds and may also invest in foreign exchange contracts, and stock index futures. Collective investment funds may enter into collateralized securities lending transactions.

The following was the Board’s adopted asset allocation policy as of August 31, 2025:

NOTE 2. CASH AND INVESTMENTS (continued)

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic Equity	31%
International Equity	21%
Fixed Income	24%
Real Estate	10%
Private Equity	13%
Cash	1%
Total	<u>100%</u>

Investments - The CERT’s investments have been categorized to address deposit and investment risks related to custodial credit risk, interest rate risk, credit risk, concentration of credit risk, and foreign currency risk.

Custodial credit risk is the risk that in the event of a failure of the counterparty, the CERT will not be able to recover the value of the investment in possession of the counterparty. The CERT’s policy regarding custodial credit risk requires counterparty exposures of each investment manager and strategy, as well as the overall counterparty exposure of the CERT, will be actively managed and monitored by investment managers and staff.

Interest rate risk is the risk that the fair value of securities will fall due to changes in market interest rates. The Fund’s policy is to minimize interest rate risk by structuring the investment portfolio so that the duration securities are held and the coupon rates of such are appropriately diversified.

As of August 31, 2025, the CERT had the following investments subject to interest rate risk:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (in Years)</u>
Cash Equivalents (Money Market Funds)	\$ 15,142,991	0.08
Bank Collective Investment Funds	71,054,478	—
Commingled Funds	<u>147,013,877</u>	—
Total	<u>\$ 233,211,346</u>	
Portfolio Weighted-Average Maturity		<u>0.001</u>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. Nationally recognized statistical rating organizations assign ratings to measure credit risks. These rating agencies assess a firm’s or government’s willingness and ability to repay its debt obligations based on many factors.

The CERT invests in a bank collective investment fund focused on fixed income strategies and commingled fixed income funds. One core bond index fund which invests in investment grade fixed income securities in the United States and is designed to track the risk and return profile of its referenced benchmark (i.e., Bloomberg U.S. Aggregate). Additionally, the CERT employs two actively managed core plus bond managers. The investment guidelines governing the core plus bond

NOTE 2. CASH AND INVESTMENTS (continued)

managers permit them to purchase below investment grade securities as well as bonds domiciled outside the United States, up to prescribed limits. The CERT assesses all three of the aforementioned investment managers through commingled fund vehicles, each of which has its own investment management agreement governing permissible security types and maximum exposures.

For the year ended August 31, 2025, the CERT's investment policy indicates that the fixed income core plus manager may invest up to 35% of net assets in non-investment grade bonds, at time of purchase. The fixed income core plus portfolio obligations will generally have a dollar weighted average credit quality of generally AA or less, with a minimum dollar weighted average credit quality of BBB-.

Concentration of credit risk is the risk of loss attributed to the magnitude of the CERT's investment in a single issuer. The CERT's investment policy does not allow for the investment portfolio to hold more than 10% in any one company. At August 31, 2025, the CERT did not have any single investment in any one organization which represents 5% or more of the fiduciary net position since the portfolio is invested in diversified bank collective investment funds, commingled funds, real estate trusts and private equity partnerships.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The CERT's investment policy allows 18%-24% of equity securities to be invested in foreign markets. The CERT does not have direct exposure to foreign currency risk due to their investments being denominated in US dollar. Some of the CERT's bank collective investment funds do have exposure to foreign currency risk.

Management attempts to limit or mitigate certain risks by investing in the following instruments:

Bank Collective Investment Funds

- **U.S. Large Cap Index** – For the year ended August 31, 2025, investment is made using commingled fund(s). As such, the investment guidelines are governed by the fund's prospectus and/or other governing documents. Investment is passively managed and permissible investments are S&P 500 Index or Russell 1000 Index commingled funds or exchange-traded funds ("ETFs"). Redemptions are allowed daily with one-day notices. The Plan does not have any outstanding commitments to this category.

- **U.S. Large Cap Dynamic Manager(s)** – For the year ended August 31, 2025, investment is made using commingled fund(s). As such, the investment guidelines are governed by the fund's prospectus and/or other governing documents. The portfolio will actively allocate assets across the equity, fixed income and cash markets of the U.S. The assets of the portfolio may be invested in securities, derivatives, and a combination of other collective funds. Long and short positions in financial futures, options on financial futures, index options, exchange-traded options and over-the-counter options, may be used. Redemptions are allowed daily with one-day notices. The Plan does not have any outstanding commitments to this category.

NOTE 2. CASH AND INVESTMENTS (continued)

• **U.S. Small/Mid Cap Manager(s)** – For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. The portfolio(s) will invest primarily in equity and equity-related securities of issuers that are located in the United States with approximate market capitalizations greater than \$100 million and under \$50 billion; the market capitalization of certain securities may be less than or greater than this range at times. The portfolio may invest in publicly traded stocks of U.S. corporations, as well as real estate investment trusts (“REITs”), preferred stocks, convertible securities, American depositary receipts (“ADRs”) of non-U.S. issuers, publicly traded stocks of foreign corporations listed on U.S. stock exchanges, Exchange Traded Funds (“ETFs”), futures and short-term investments, money market instruments or equivalent. Leverage, short sales and buying and selling on margin are not permitted. Redemptions are allowed daily with one-day notices. The CERT does not have any unfunded commitments to the managers.

• **International Equity-All Country ex-U.S. Manager(s)** – For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. The portfolio(s) will invest primarily in equity-related securities of issuers that are located in, or that do significant business in countries other than the United States, including emerging market countries. The portfolio will invest in securities denominated in the currencies of a variety of countries, including emerging market countries. The maximum position size will be 6% in any one company. The maximum position size will be 35% in any one country. The maximum emerging markets weight is the MSCI ACWI ex-US IMI Index weight plus 15%. Redemptions are allowed daily with one-day notices. The CERT does not have any unfunded commitments to the managers.

• **U.S. Fixed Income Index** - For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. Permissible investments are in the underlying securities of the Bloomberg Aggregate Index or other similar broad U.S. bond indexes. The fund(s) seeks to realize a total return equivalent to the Bloomberg U.S. Aggregate Bond Index before fees and allows daily redemptions with a three-day notice. The Plan does not have any outstanding commitments to this category.

Commingled Funds

• **International Equity-All Country ex-U.S. Index** – For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. Permissible investments are in the underlying securities of the MSCI ACWI ex-U.S. IMI Index or other similar all country ex-U.S. commingled funds or exchange-traded funds (“ETFs”). Redemptions are allowed daily with one day notices. The CERT does not have any unfunded commitments to the managers.

• **U.S. Fixed Income Manager(s)** - For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. The portfolio(s) will invest primarily in investment grade fixed income securities with the ability to invest a portion of the portfolio in below investment grade securities and approved derivative products. The fund(s) seeks to realize a total return above the Bloomberg U.S.

NOTE 2. CASH AND INVESTMENTS (continued)

Aggregate Bond Index after fees and allows daily redemptions with a three-day notice. The Plan does not have any outstanding commitments to this category.

Private Real Estate Manager(s) – For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. Real estate investments are made through core open-end fund vehicles that invest in a diversified portfolio of investments. Managers should diversify the portfolio by property type and the various geographic regions of the U.S. Leverage is limited to no more than that specified by the NCREIF ODCE Index inclusion rules. Redemption frequencies are quarterly with a range of notice periods of 45 to 90 days. The Plan does not have any outstanding commitments to this category.

Private Equity Manager(s) – For the year ended August 31, 2025, investment is made using commingled funds. As such, the investment guidelines are governed by the fund’s prospectus and/or other governing documents. Private equity consist of investments in commingled, closed-end, finite-life limited partnerships. Managers should diversify the portfolio by strategy, geography, and industry. Redemptions only occur when the general partner of the fund authorizes a distribution. The CERT has an outstanding commitment of \$127.0 million as of August 31, 2025.

Rate of Return – For the year ended August 31, 2025, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.85% and 12.08%, respectively. The money-weighted rate of return expresses investment performance, net investment expense, adjusted for the changing amounts actually invested.

Disclosures About Fair Value of Assets

Fair value measurements – GASB 72, Fair Value Measurements and Application, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under GASB 72 are described as follows:

Level 1 – Inputs to the valuation methodology is unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are inputs that are unobservable and significant to the fair value measurement.

NOTE 2. CASH AND INVESTMENTS (continued)

Recurring measurements – The following table presents the fair value measurements of assets recognized in the accompanying statements of fiduciary net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at August 31, 2025:

Investments Measured at Fair Market Value	Fair Value Measurements Using			
	August 31, 2025	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Bank Collective Investment Funds				
Large Cap Index	\$ 212,227,489	\$ —	\$ 212,227,489	\$ —

Commingled Funds - Fixed Income				
Fixed Income Core Index	147,013,877	—	147,013,877	—
Real Estate				
Private Real Estate	95,995,549	—	—	95,995,549
Private Equity Investment	169,426,972	—	—	169,426,972
Total Investments Measured at Fair Value	\$ 1,042,552,983	\$ —	\$ 777,130,462	\$ 265,422,521

There have been no significant changes in the valuation techniques during the year ended August 31, 2025.

Cash and Cash Equivalents, Investments, and Securities Lending - Component Unit - FPPF

Cash and Cash Equivalents

Cash and cash equivalents consists of cash and short-term investments held by the Custodian. Custodial risk for cash and cash equivalents is the risk that in the event of bank failure, the FPPF's deposits may not be returned. The FPPF does not have a deposit policy for custodial credit risk; however, management believes that the FPPF's credit risk exposure for amounts not covered by federal depository insurance is mitigated by the financial strength of the banking institution in which the deposits are held.

Investments

The FPPF Board of Trustees has adopted an investment policy and has the authority to establish or amend the policy, with the objective to invest the FPPF's assets in a manner consistent with generally accepted standards of fiduciary responsibility. Safety of principal is emphasized and the FPPF's objective is to be diversified. The FPPF's investment policy was last updated March 21, 2024, and there were no material changes to the investment policy.

The FPPF's investments are managed by various investment managers who have discretionary authority over the assets managed by them under contract with the FPPF and within the investment guidelines established by the Board of Trustees. The investments of the FPPF are held by the FPPF's custodian and are accessible by the investment managers. The investments generally consist of short-term securities, U.S. and foreign government securities, and domestic and foreign corporate debt and equity securities.

NOTE 2. CASH AND INVESTMENTS (continued)

The FPPF Board of Trustees has adopted the following asset allocations as part of the FPPF's investment policy:

Asset Classification	Allowable Range	Target Percentage
Large Cap Domestic Equity	11-21%	16.00%
Mid Cap Domestic Equity	0-10%	5.00%
Small Cap Domestic Equity	1.5-11.5%	6.50%
International Equity	20-30%	22.50%
Emerging Markets Equity	4-9%	5.00%
Private Equity	5-20%	15.00%
Real Estate - Assets	5-15%	10.00%
Fixed Income	15-30%	20.00%
Cash Equivalents	0-5%	0.00%

Management attempts to limit or mitigate certain risks through adherence to the FPPF's investment policy. The investment policy includes the following requirements:

Domestic Large Cap Equity Portfolio - The annual standard deviation of returns for the FPPF's domestic large cap equity portfolio, if actively managed, is not expected to exceed 1.25 times the annual standard deviation of the S&P 500 Index. If passively managed, it is not expected to exceed 1.10 times the annual standard deviation of the S&P 500 Index.

Domestic Small Cap Equity Portfolio - The annual standard deviation of returns for the FPPF's domestic small cap equity portfolio, if actively managed, is not expected to exceed 1.5 times the annual standard deviation of the Russell 2000 Index.

International Equity Portfolio - The annual standard deviation of returns for the FPPF's international equity portfolio, if actively managed, is not expected to exceed 1.5 times the annual standard deviation of the returns for the International Equity Benchmark Index.

Emerging Markets Equity Portfolio - The annual standard deviation of returns for the FPPF's emerging markets equity portfolio, if actively managed, is not expected to exceed 1.5 times the annual standard deviation of the returns for the Emerging Markets Equity Benchmark Index.

Domestic Fixed Income Portfolio - The annual standard deviation of returns for the FPPF's domestic fixed income portfolio, if actively managed, is not expected to exceed 1.30 times the annual standard deviation of the returns for the Bloomberg Aggregate Bond Index. If passively managed, the portfolio is not expected to exceed 1.20 times the annual standard deviation of the returns for the Bloomberg Aggregate Bond Index.

Real Estate Portfolio - The annual standard deviation of returns for the FPPF's real estate portfolio, if actively managed, is not expected to exceed 1.50 times the annual standard deviation of the returns for the NCREIF Index.

Private Equity Portfolio - The annual standard deviation for the FPPF's private equity portfolio is not to exceed 1.50 times the annual standard deviation of the S&P 500 returns.

Domestic Cash Equivalents Investments - The risk objective shall be to stay within an acceptable risk level, as measured by standard deviations, which is equal to that of the 91-day Treasury Bill rate.

NOTE 2. CASH AND INVESTMENTS (continued)

Concentration of Credit Risk - The asset allocations in the FPPF's investment policy contain guideline percentages of the FPPF's investment portfolio to be invested by asset classification, at fair value. Actual asset allocations will be dictated by current and anticipated market conditions, the actions of the Board of Trustees and required cash flows to and from the FPPF. As of December 31, 2024, the FPPF has four investment holdings in excess of 5% of the FPPF's fiduciary net position. These are funds holding hundreds of domestic or international equity securities.

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of the failure of a custodial counterparty, the FPPF will not be able to recover the value of its investment or collateral securities that are in the possession of the custodian. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the FPPF, and are held by either the counterparty or the counterparty's trust department or agent but not in the FPPF's name. As of December 31, 2024, the FPPF's security investments that are not subject to custodial credit risk consisted of investments not registered on an exchange. The FPPF's investments are held in their name.

Credit Risk - Credit risk is the risk that the issuer of securities or another counterparty to an investment may be unable to fulfill its payments on a security under the original term. The FPPF's investment policy prohibits investments in private placement debt securities and prohibits concentrations of fixed income investments of more than 10% with any one issuer other than the U.S. Government.

As of December 31, 2024, the FPPF fixed income portfolio had the following credit ratings:

AAA	\$	131,954,440
AA		47,737,569
A		18,473,726
BAA		15,025,702
BBB		1,326,588
BB		1,400,245
B		1,077,111
Below B		333,904
Committed Cash		803,932
Not Rated		146,235,749
	\$	<u>364,368,966</u> ^(a)

(a) This amount includes the FPPF's Staff Plan's portion of the investment portfolio which is not included in the Statement of Fiduciary Net Position.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates over time will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. In accordance with the investment policy, the Board of Trustees provides each of the FPPF's investment managers with a set of investment guidelines. These guidelines specify the following:

- The return objective for the Domestic Core Fixed Income Portfolio, if actively managed, is to exceed by 0.75% per year the return of the Bloomberg Aggregate Bond Index.
- The return objective for the Domestic Core Fixed Income Portfolio, if passively

NOTE 2. CASH AND INVESTMENTS (continued)

managed, is to approximate the return of the Bloomberg Aggregate Bond Index.

- The risk objective of the Domestic Fixed Income Portfolio shall be defined in terms of standard deviation of returns. The annual standard deviation of returns for the FPPF's domestic fixed income portfolio, if actively managed, is not expected to exceed 1.3 times the annual standard deviation of the returns for the Bloomberg Aggregate Bond Index.
- The risk objective of the Domestic Fixed Income Portfolio shall be defined in terms of standard deviation of returns. The annual standard deviation of returns for the FPPF's domestic fixed income portfolio, if passively managed, is not expected to exceed 1.2 times the annual standard deviation of the returns for the Bloomberg Aggregate Bond Index.

As of December 31, 2024, the FPPF fixed income portfolio had the following investment maturities:

3 - 5 years	\$ 32,132,131
5 - 7 years	69,579,088
7 - 10 years	27,232,850
10 - 20 years	33,433,987
20 - 30 years	55,734,648
No Contractual Maturity	146,256,262
	<u>\$ 364,368,966</u> ^(a)

(a) This amount includes the FPPF's Staff Plan's portion of the investment portfolio which is not included in the Statement of Fiduciary Net Position.

The FPPF's exposure to foreign currency risk as of December 31, 2024, is summarized as follows:

<u>Investment</u>	<u>Currency</u>	<u>Total</u>
Limited Partnerships	European Union Euro	\$ 22,052,100
Common Stock	British Pounds	403,489
Common Stock	Canadian Dollar	4,271,797
		<u>\$ 26,727,386</u>

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the FPPF has the ability to access.
- Level 2** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other

NOTE 2. CASH AND INVESTMENTS (continued)

means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table discloses the FPPF's assets fair value measurements by level as of December 31, 2024:

Investments by Fair Value Level	Fair Value	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
	December 31, 2024	(Level 1)	(Level 2)	(Level 3)
Equity:				
Domestic Equities	\$ 303,639,795	\$ 303,639,795	\$ —	\$ —

Private Equity Funds	335,370,360	Not Redeemable	Not Redeemable
Real Estate Limited Partnerships	153,342,996	Various: Quarterly, Not Redeemable	Various: 45 days, Not Redeemable
Total Investments Measured at NAV	\$ 1,213,159,518		

(a) This amount includes the FPPF's Staff Plan's portion of the investment portfolio which is not included in the Statement of Fiduciary Net Position.

NOTE 2. CASH AND INVESTMENTS (continued)

Domestic Equity Funds - Domestic equity funds consist of two investments with fund managers which are commonly used to represent large cap segment of the U.S. equity market with a focus on the "growth" style of investing. To achieve its objective, the funds employ techniques which generally seeks to hold each index constituent in its proportional index weight.

International Equity Funds - International equity funds include two investments with fund managers who focus on international equities. These funds focus on activity in separate areas of the international market, including emerging markets equity, international developed value equity, and international developed growth equity, respectively; they follow the specified index as described in their respective agreements. The two funds report fair value at NAV as a practical equivalent. One investment allows for daily redemptions with a one-day written notice, and one investment allows for monthly redemptions with notice required by the 15th day of the prior month.

Commingled Fixed Income Fund - Commingled fixed income fund consists of a single investment that focuses on fixed income securities. The fund manager has the ability to invest in a variety of industry spaces, such as government and corporate bonds, and across a multitude of countries, both developed and emerging market, as outlined in the investment guidelines. The investment agreement allows daily redemptions with a one-day written notice. There is no restriction period related to redemption payments.

Private Equity Funds - Private equity funds consist of investments in limited partnerships. The partnerships qualify as investment companies and are valued at NAV. The investment managers within each investment class determine the NAV of the underlying investments of the limited partnership then allocate the NAV to the FPPF based on the percentage of the FPPF's ownership percentage. Investments in these private equity funds are not eligible for redemption. Upon termination of partnership agreement, the FPPF will receive its original investments plus or minus any unrealized gains or losses at the time of liquidation.

Real Estate Limited Partnerships - The private real estate funds consists of thirteen real estate funds that generally invests in residential, office, retail, and industrial real estate. NAV is used in the measurement of the fair value of this investment. The funds have various redemption frequency. Some funds allow quarterly redemptions that require a 45-day written notice, while other funds do not allow redemptions.

Money-Weighted Rate of Return - The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested during the year. For the year ended December 31, 2024, the annual money-weighted rate of return on the FPPF's investments was 7.21%.

Unfunded Commitments - As of December 31, 2024, the FPPF has unfunded capital commitments to private equities and real estate limited partnerships totaling \$139 million.

NOTE 2. CASH AND INVESTMENTS (continued)

Securities Lending

The FPPF is authorized to enter into securities lending transactions under Texas State Statutes Section 2256.0015. The FPPF has a securities lending agreement with the Custodian under which FPPF-owned investments are lent to one or more approved borrowers for a fee. The Custodian, as lending agent, is responsible for collecting required collateral in the form of cash, securities issued or guaranteed by the U.S. Government or its agencies, or irrevocable letters of credit issued by banks independent of the borrowers. The lending agent is authorized to enter into securities lending transactions of U.S. and non-U.S. securities in accordance with the terms of a securities lending authorization agreement.

The lending agent has indemnified the FPPF harmless from any losses, damages, costs or expenses the FPPF may incur if the lending agent is unable to recover borrowed securities or distributions made during the term of the loans with respect to those securities as a result of the lending agent's failure to make a reasonable determination of the creditworthiness of a borrower, demand adequate and appropriate collateral on a timely basis or to perform its duties under the agreement with the FPPF. The agreement states that collateral must have a market value equal to no less than 100% of the market value of the borrowed securities. Non-cash collateral must have a market value equal to no less than 102% of the market value of the borrowed securities, or 105% of the borrowed securities if the collateral are denominated in different currencies.

Each business day, the lending agent and the FPPF determine the market value of the collateral and the borrowed securities. The FPPF's security lending policy requires investment grade securities. Cash collateral received from the borrower is subsequently reinvested in a securities lending collateral investment pool. As of December 31, 2024, the FPPF's securities lending obligation exceeded the fair value of the underlying securities.

The following table summarizes the fair value measurements of lent securities, cash collateral received, and the fair value of the reinvested cash collateral as of December 31, 2024:

Securities Lent	Fair Value of Underlying Securities	Collateral Received	Collateral Investment Value
Domestic Equities	\$ 35,912,800	\$ 36,813,359	\$ 36,938,512 ^(a)

(a) This amount includes the FPPF's Staff Plan's portion of the investment portfolio which is not included in the Statement of Fiduciary Net Position.

As of December 31, 2024, the FPPF also holds securities collateral that cannot be pledged or sold absent a borrower's default totaling \$14,045,582. The securities collateral consists of U.S. Treasury Bills, U.S. Treasury Notes, and U.S. Treasury Bonds. There were no losses from securities lending transactions during the year ended December 31, 2024 resulting from a default of a borrower or the lending agent.

NOTE 3. PROPERTY TAXES

The City's property tax is levied every October 1st on the assessed value listed as of the previous January 1st for all real and personal property located in the City. A receivable for property taxes is recognized and recorded at the levy date. The assessed value at the time of levy (October 2024) was \$54,561,793,863.

Taxes are due by January 31st following the October 1st levy date. As of the end of the fiscal year, 97.99% of the adjusted tax levy was collected. The statutory lien date is January 1st.

The methods of property assessment and tax collection are determined by Texas statute. The statute provides for a property tax code, county-wide appraisal districts and certain exemptions from taxation, such as intangible personal property, household goods and family-owned automobiles.

The appraisal of property within the City is the responsibility of the El Paso Central Appraisal District. The El Paso Central Appraisal District is required under the property tax code to assess all property within the appraisal district on the basis of 100% of its appraised value and is prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every three years; however, the City may require more frequent reviews of appraised values at its own expense. The City may challenge appraised values established by the appraisal district through various appeals and, if necessary, through legal action.

In the summer of 2019, the Texas Property Tax Reform and Transparency Act was passed by the Texas Legislature, also known as Senate Bill 2 (SB2). This bill reforms the system of property taxation in three primary ways: (1) lowering the tax rate a taxing unit can adopt without voter approval and requiring a mandatory election to go above the lowered rate; (2) making numerous changes to the procedure by which a city adopts a tax rate; and (3) making several changes to the property tax appraisal process.

Through a contractual arrangement, the City also bills and collects property taxes for several other governmental entities. The City is permitted by Article 11, Section 5 of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services, including the payment of principal and interest on general obligation long-term debt. Under the City Charter, a limit on taxes levied for general governmental services, exclusive of payments of principal and interest on general obligation long-term debt, has been established at \$1.85 per \$100 assessed valuation. The tax rate to finance general governmental purposes, other than the payment of principal and interest on general obligation long-term debt, for the year ended August 31, 2025, was \$0.530850 per \$100 assessed valuation. The City has a maintenance & operation tax margin of \$1.319150 per \$100 assessed valuation and could levy \$948,608,620 in additional taxes from the assessed valuation of \$54,561,793,863 before the state legislative limit is reached.

The current total tax rate is \$0.761405 per \$100 assessed valuation, of which \$0.530850 is used for general governmental purposes and \$0.230555 is used for payment of long-term obligations.

Property taxes that are measurable and available are recognized as revenue in the year of levy. Property taxes that are measurable, but not available, are recorded net of estimated uncollectible

NOTE 3. PROPERTY TAXES (continued)

amounts, as deferred inflows of resources. Such deferred inflows of resources are recognized as revenue in the fiscal year in which they become available.

The balance of delinquent property taxes receivable and property tax assessments included in deferred inflows at August 31, 2025, is as follows:

	<u>General Fund</u>	<u>Debt Service Fund</u>
Property Taxes Receivable	\$ 18,417,857	\$ 8,582,492
Less Allowance for Uncollectibles	<u>(2,321,683)</u>	<u>(1,081,875)</u>
Net Property Taxes Receivable	<u>16,096,174</u>	<u>7,500,617</u>
Deferred Property Taxes	<u>15,736,581</u>	<u>7,330,458</u>
Net Property Tax Recognized-60 Days	<u>\$ 359,593</u>	<u>\$ 170,159</u>

CITY OF EL PASO, TEXAS

NOTES TO FINANCIAL STATEMENTS

Year Ended August 31, 2025

NOTE 4. RECEIVABLES

Receivables as of year end for the City’s individual major funds and the nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

NOTE 7. LEASES, SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS AND AVAILABILITY PAYMENT ARRANGEMENTS

A. LEASES

1. Lease Payable

A lease is defined as a contractual agreement that conveys control of the right to use another entity's nonfinancial asset, for a minimum contractual period of greater than one year, in an exchange or exchange-like transaction. The City leases nonfinancial assets such as land, land improvements, buildings and equipment and capitalizes the right-to-use asset with an initial individual value of \$10,000 or more. The related obligations are presented in the amounts equal to the present value of lease payments, payable during the remaining noncancellable lease term. The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City will use its latest incremental borrowing rate as the discount rate for leases. As of the end of the fiscal year the discount rate used to calculate the net present value for the primary government's new leases was 4.02%.

As the lessee, a lease liability and the associated right-to-use lease asset are recognized in the government-wide and proprietary fund financial statements. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently the lease asset is amortized on a straight-line basis over the shorter of its useful life or the lease term.

The City has obtained office space, parking facilities, equipment and land through long-term leases and office space through one sublease. The terms and conditions for these leases vary. Some leases have fixed, periodic payments over the lease term, which range between 1-37 years. The City has a variety of variable payment clauses, within its lease arrangements, which include payment increases based on the Consumer Price Index (CPI), variable payments based on usage of the underlying asset, and common area maintenance fees. Components of variable payments that are fixed in substance, are included in the measurement of the lease liability presented in the table below. The outflow of resources recognized as of August 31, 2025 for variable payments not previously included in the measurement of the lease liability are \$95.9 thousand.

The City did not incur expenses for its leasing activities related to lease termination penalties or losses due to impairment. As a lessee, there are currently no agreements that include residual value guarantees, sale-leaseback and lease-leaseback transactions. The City monitors changes in circumstances that require a remeasurement of its leases and will remeasure the lease liability if certain changes occur that are expected to significantly affect the amount of the lease liability. During the current year, the City remeasured several leases as well as terminating two leases within the governmental activities and adjusted the lease payable and its related right-of-use asset by \$910.8 thousand and \$844.1 thousand respectively.

Lease assets are reported with capital assets net of accumulated amortization and lease liabilities are reported with long term debt on the statement of net position.

NOTE 7. LEASES, SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS AND AVAILABILITY PAYMENT ARRANGEMENTS (continued)

As of August 31, 2025, the principal and interest requirements to maturity for the lease liability are as follows:

Year Ending August 31,	Governmental Activities		Business-Type Activities		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2026	\$ 1,549,392	\$ 439,197	\$ 206,956	\$ 83,988	\$ 1,756,348	\$ 523,185

2056-2060	704,663	89,742	—	—	704,663	89,742
2061-2062	331,510	8,942	—	—	331,510	8,942
Total	<u>\$ 14,540,596</u>	<u>\$ 4,647,779</u>	<u>\$ 3,494,448</u>	<u>\$ 936,671</u>	<u>\$ 18,035,044</u>	<u>\$ 5,584,449</u>

2. Lease Receivable

The City is a lessor of City-owned assets such as buildings, land, land improvements, and infrastructure under various leases, a majority of which are noncancellable and terminate no later than 2074. The City recognizes a lease receivable and a deferred inflow of resources in the government-wide, governmental fund and proprietary fund financial statements. Several leases were prepaid and are recognized as unearned revenue in the financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

The City uses its latest incremental borrowing rate as the discount rate for leases. As of the end of the fiscal year the discount rate used to calculate the net present value for the primary government new leases was 4.02% excluding El Paso International Airport that used 2.89% as per True Interest Cost on debt instrument directly issued to the Airport. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The City’s variable payments clause within some lease arrangements, is similar to the arrangements made as lessee, however payment increases can be based on CPI or market value. In addition, certain agreements receive revenue from the operation of concessions which provide for the payment of a fee based on the greater of an aggregated percentage of gross receipts or a minimum guarantee. As of August 31, 2025 the amount of inflows of resources recognized for variable payments not previously included in the measurement of the lease receivable is \$8.0 million.

NOTE 7. LEASES, SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS AND AVAILABILITY PAYMENT ARRANGEMENTS (continued)

The City entered into a lease-leaseback transaction with the The City of El Paso Downtown Development Corporation, a component unit of the City relating to the Ballpark. Due to the nature of the transaction that qualifies it as a non-exchange transaction, the lease does not meet the criteria to be included as GASB Statement No. 87.

The City did not incur revenue related to residual value guarantees, lease termination penalties or sale-leaseback agreement. The City monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable. During the current year we remeasured the lease receivable within the governmental activities and adjusted the lease receivable and its related deferred inflow of resources by \$6.4 million and \$6.0 million respectively. We also remeasured the lease receivable within the business-type activities and adjusted the lease receivable and its related deferred inflow of resources by \$297.8 thousand and \$287.4 thousand respectively.

As of August 31, 2025, the principal and interest requirements to maturity for the lease receivable are as follows:

Year Ending August 31,	Governmental Activities		Business-Type Activities		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2026	\$ 441,153	\$ 594,789	\$ 7,889,566	\$ 4,594,828	\$ 8,330,719	\$ 5,189,617

Total	\$ 156,436,457	\$ 1,645,299	\$ 158,081,756	\$ 22,398,909	\$ 180,480,665	

3. Regulated Leases

The El Paso International Airport (EPIA) manages a variety of leases and agreements with airlines, concessionaires, service providers and tenants, all of which are regulated by the Federal Aviation Administration (FAA). There are two categories of agreements with airlines; Signatory and Non-Signatory, pertaining to usage of EPIA for conducting air transportation business. American Airlines, Delta Airlines, Federal Express Corporation, Southwest Airlines, United Airlines, and United Parcel Service all operate under Signatory Airline Agreements with EPIA, which have a benefit of preferential use of certain terminal space, facilities, and apron area(s) at EPIA. Alaska Airlines, Allegiant Airlines, DHL Express, and Frontier Airlines all operate under Non-Signatory Airline Agreements with EPIA, which do not include preferential use of certain terminal space, facilities, and apron area(s) at EPIA. The terms of both Signatory and Non-Signatory Airline Agreements stipulate monthly payments to EPIA based on total estimates of costs, expenses, estimated total number of passengers, estimated total landed weight, among several other factors. Final settlements are made each year after the issuance of the City’s audited financial statements.

The Signatory Airline Agreements were renewed in FY 2024 and are valid from September 1, 2024 through August 31, 2029, with limited options for termination, and may be extended for one (1) additional two (2) - year renewal periods. Non-Signatory Airline Agreements are valid until (1) termination by either party with or without cause pursuant to terms in the agreement, (2) the date upon which the Airline becomes a Signatory Airline, or (3) the date upon which the Signatory Airline Agreement expires or is earlier terminated for all Signatory Airlines.

Other regulated leases and agreements have differing terms, termination, and renewal clauses consistent with industry standards.

NOTE 7. LEASES, SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS AND AVAILABILITY PAYMENT ARRANGEMENTS (continued)

The total amount of resources recognized in the reporting period for regulated leases is \$4.4 million. The amount of inflows of resources recognized in fiscal year 2025 for variable payments not included in the expected future minimum payments is \$7.9 million.

As of August 31, 2025, the expected future minimum payments under these agreements are as follows:

Year Ending August 31,	Total
2026	\$ 2,488,026
2027	1,898,432
2028	1,483,540
2029	1,383,553
2030	1,254,941
2031-2035	3,488,655
2036-2040	1,503,489
2041-2045	1,110,015
2046-2050	715,855
2051-2055	112,903
2056-2060	65,999
2061-2062	26,329
Total	<u>\$ 15,531,737</u>

B. Subscription Based Information Technology Arrangements (SBITAs)

A SBITA is a contract that conveys control of the right to use another party's information technology asset such as software. The contract is for a noncancellable period of time and the arrangement is an exchange or exchange-like transaction. This type of transaction creates a subscription liability and a right-to-use asset that must be recognized at the commencement of the term.

It is the policy of the City to only capitalize the SBITA right-to-use assets that are above \$10,000 threshold and amortize using the straight-line method over the term of the contract. Any subsequent changes to subscription terms and/or payments after the liability was originally recorded will cause a remeasurement of the liability and the right-to-use asset as of that date.

For purposes of determining the net present value (NPV) of the SBITA, the City has used the latest debt instrument true interest cost (TIC) as the discount rate. As of the end of the fiscal year, the discount rate used to calculate the net present value for the primary government new SBITAs was 4.02%.

The City uses multiple SBITAs across all functions and City departments. The total amount of outflows of resources recognized in the reporting period for other payments not previously included in the measurement of the subscription liability were \$14.73 thousand. There were no variable payments during the current fiscal year.

NOTE 7. LEASES, SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS AND AVAILABILITY PAYMENT ARRANGEMENTS (continued)

As of the end of the fiscal year 2025 principal and interest requirements to maturity are as follows:

Year Ending August 31,	Governmental Activities		Business-Type Activities		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2026	\$ 705,075	\$ 36,417	\$ 210,991	\$ 20,306	\$ 916,066	\$ 56,723
2027	723,053	18,438	181,925	10,952	904,978	29,390
2028	—	—	173,302	3,503	173,302	3,503
Total	<u>\$ 1,428,128</u>	<u>\$ 54,855</u>	<u>\$ 566,218</u>	<u>\$ 34,761</u>	<u>\$ 1,994,346</u>	<u>\$ 89,616</u>

C. Availability Payment Arrangements (APA)

The City has entered into APAs to procure governmental services for its constituents. As of the end of this fiscal year, all APAs in which the City was engaged were related to providing services for the operations and/or maintenance of a nonfinancial asset. As per GASB Statement No. 94, all payments made to operators under this type of arrangements were reported as outflows of current resources for the reporting period. As of August 31, 2025, the City reported two APAs with total outflows in the amount of \$9.9 million.

NOTE 8. LONG-TERM OBLIGATIONS

A. Long-term Liabilities

The City of El Paso issues general obligation bonds, certificates of obligations, and revenue bonds to provide funds for the acquisition and construction of major capital assets. These obligations have been issued for both governmental and business-type activities. The general obligation and certificate of obligation bonds are direct obligations and pledge the full faith and credit of the City of El Paso. The governmental activities special revenue bonds are not ad valorem tax supported debt. These obligations are paid with hotel occupancy tax, lease payments, a portion of sales tax, ticket and parking revenues. All obligations generally are issued as serial bonds maturing each year with maturities that range from 1 to 26 years.

The City intends to retire ad valorem tax supported long-term liabilities, plus interest, from future ad valorem tax levies. The City is required by ordinance to create, from such tax revenues, a sinking fund sufficient to pay the current interest due thereon and each installment of principal as it becomes due. The tax rate to finance the payment of principal and interest on ad valorem tax supported long-term liabilities for the year ended August 31, 2025 was \$0.230555 per \$100 assessed valuation.

The City Charter states that all indebtedness of the City that is supported by ad valorem tax shall not exceed ten percent of the total assessed valuation of the City’s tax rolls. Ten percent of the fiscal year 2025 total assessed valuation base is \$5,456,179,386. The City’s legal debt margin is \$4,208,132,517. Long-term liabilities issued to acquire proprietary fund assets are reported as an obligation of those proprietary funds. Although they are not obligated by the applicable bond indentures to repay any portion of principal and interest on outstanding long-term liabilities, the City intends for the proprietary funds to meet the debt service requirements.

General Obligation Bonds, Certificates of Obligations and Revenue Bonds as of August 31, 2025, are as follows:

	Original Issuance	Interest Rates	Maturity Date	August 31, 2025
Governmental Activities				
Certificates of Obligation Bonds

B. Current Refunding

On August 07, 2025, the City issued \$79,360,000 in General Obligation Refunding Bonds, Series 2025 with an interest rate of 5.00%. The proceeds were used to refund \$36,540,000 of General Obligation Refunding and Improvement Bonds, Series 2015; \$24,355,000 of General Obligation Bonds, Series 2016 and \$23,820,000 of Combination Tax and Revenue Certificates of Obligation, Series 2015. The net proceeds of \$87,247,164 (including premium of \$6,799,236, additional cash provided by the City in the amount of \$2,021,061, and after payment of \$933,132 in issuance costs) were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on the refunded bonds. The City also paid a redemption premium of \$511,103 reported in the Statement of Revenues, Expenditures and Changes in Fund Balances under other financing uses. As a result, a portion of the before mentioned bonds are considered defeased and the liability has been removed from the statement of net position. This refunding reduced its total present value debt service payments

NOTE 8. LONG-TERM OBLIGATIONS (continued)

by \$5,118,397 to obtain an economic gain (difference between the present value of the debt service payments on the old debt and new debt) of \$4,467,371.

C. Cash Defeasance

On November 5, 2024, the City held a special election to determine whether to revoke the City's authority to issue the remaining \$128,455,636 of general obligation bonds originally approved by voters on November 6, 2012 for the Multipurpose Performing Arts and Entertainment Facility in Downtown El Paso. Voters approved the revocation, and by Resolution, the City Council formally revoked the authority to issue any additional bonds under this authorization. As a result of this decision, the planned project will not be completed. On April 10, 2025 the City issued a partial cash defeasance of \$34,240,000 of General Obligation Bonds, Series 2016 and General Obligation Refunding and Improvement Bonds, Series 2019A from unspent bond proceeds held for this project. The cash provided by the City in the amount of \$35,589,095 (after payment of \$31,488 in issuance costs) was deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on the refunded bonds. As a result, a portion of the bonds is considered defeased and the liability has been removed from the statement of net position. The cash defeasance reduced the present value debt service payments by \$52,963,500 to obtain an economic gain (difference between the present value of the debt service payments on the old debt and cash provided) of \$17,342,917.

On July 16, 2025 the City issued a partial cash defeasance of \$11,705,000 of Certificates of Obligation Series 2019, 2020, 2021A, and 2021C. The cash provided by the City in the amount of \$13,415,285 (after payment of \$35,000 in issuance costs) was deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on the refunded bonds. As a result, a portion of the before mentioned bonds is considered defeased and the liability has been removed from the statement of net position. The cash defeasance reduced the present value debt service payments by \$15,214,625 to obtain an economic gain (difference between the present value of the debt service payments on the old debt and cash provided) of \$1,764,340. The forementioned certificate of obligations were issued to fund the construction and mainenance of the Eastside Sports Complex phase two. The debt service for these bonds was funded through revenues from Tax Increment Reinvestment Zone (TIRZ) No. 9 and Public Improvement District (PID) No. 2. City Council authorized an early defeasance of the bonds using restricted debt service reserves with the intention of reducing the overall debt burden on the community while ensuring that escrowed funds continue to make timely payments to bondholders. Following the defeasance, City Council subsequently approved the dissolution of TIRZ No. 9.

D. Bonds Authorized and Unissued

As of August 31, 2025, there were \$245,825,650 and \$226,380,000 in voter approved and unissued bonds as part of the 2019 Public Safety Bond, and the 2022 Community Progress Bond respectively. Additionally, there were \$32,813,163 in unissued bonds for infrastructure and other capital projects approved by City Council.

NOTE 8. LONG-TERM OBLIGATIONS (continued)

E. Unspent Bond Proceeds

The following summarizes the unspent bond proceeds as of August 31, 2025 relating to the acquisition and construction of capital assets. The El Paso International Airport unspent bond proceeds includes \$2.2 million in a debt service reserve fund as established by the bond covenant.

	<u>Unspent Bond Proceeds</u>
Capital Projects Fund	\$ 173,231,693
El Paso International Airport	2,232,295
Total	<u>\$ 175,463,988</u>

F. Arbitrage

The City's tax-exempt debt remains in compliance with all Internal Revenue Service arbitrage regulations along with the bond covenants as of the fiscal year ended August 31, 2025. Under U.S Treasury Department regulations, all governmental tax-exempt debt issued after August 31, 1986, is subject to arbitrage rebate requirements. The requirements stipulate, in general, that the earnings from the investment of tax-exempt bond proceeds, which exceed related interest expenditures on the bonds, must be remitted to the Federal Government every fifth anniversary of each debt issue. The City contracts an independent consultant to evaluate the City's outstanding tax-exempt debt for arbitrage liability. As of the end of the current fiscal year, the City recognized \$5.9 million in arbitrage liability related to its GO 2020A, CO 2020, GO 2021, CO 2021A, GO 2021B and CO 2021C in governmental activities. In addition, Mass Transit reported an arbitrage liability of \$8.0 thousand related to its portion of GO 2020A in enterprise activities. The amount due reflects an interim calculation as of August 31, 2025. The amount of \$77.3 thousand will be due in fiscal year 2026 and \$5.8 million beyond fiscal year 2026.

NOTE 8. LONG-TERM OBLIGATIONS (continued)

G. Changes in Long-term Liabilities

Changes in the City's long-term liabilities for the year ended August 31, 2025, are as follows:

K. Chapter 380 Agreement Obligations

In previous years, the City entered into Chapter 380 Agreements with developers for the redevelopment of the Paso Del Norte Hotel and Plaza Hotel in downtown El Paso. This program is for the purpose of promoting local economic development and stimulating business and commercial activity within the City. Each agreement contains events of default such as failure to obtain certificate of occupancy, failure to operate hotel, failure to file Hotel Occupancy Tax Return, quality of hotel, insolvency and failure to pay property taxes. In the event of default, the agreement may be terminated by the City after giving the developer notice and sufficient opportunity to cure any such alleged default pursuant to the agreement. Each liability obligation is dependent on the developers meeting specific objectives according to their Chapter 380 Agreement.

L. Solid Waste Landfill Closure and Post-Closure Care Cost

The City owns and operates two landfills located in the East (Clint) and Northeast (McCombs) areas of the City. Closure and post-closure care of the landfills are subject to the requirements of Subtitle D of the Resource Conservation and Recovery Act (P.L. 94/580) and Sections 330.250-256 of Title 30 of the *Texas Administrative Code* administered by the Texas Commission on Environmental Quality (TCEQ), formerly the Texas Natural Resource Conservation Commission (TNRCC). These regulations require the City to place a final cover on each landfill when it ceases to accept waste and to perform certain maintenance and monitoring functions for 30 years after the closure of each landfill.

NOTE 8. LONG-TERM OBLIGATIONS (continued)

The estimated total closure and post-closure costs is approximately \$19.0 million as of August 31, 2025, recognized as a liability and computed based on the percentage of landfill capacity used which is approximately 26.8% as of August 31, 2025. The estimated total current cost of closure and post-closure care remaining to be recognized is \$58.4 million.

Clint Landfill (TCEQ Permit 1482) – The City closed this facility in fiscal year 2010. The total closure and post-closure costs are estimated at \$12.8 million. Approximately \$8.6 million has been expended for the closure cost. The resulting ending liability of \$4.2 million relates to the estimated post-closure cost.

Clint Landfill (TCEQ Permit 2284) – This landfill is currently accepting solid waste and capacity used is 56.9% at August 31, 2025. Closure and post-closure costs are estimated at \$18.7 million. The estimated closure and post-closure cost liability of \$10.7 million is included in the recorded liability. The estimated remaining useful life for this landfill is 12 years.

McCombs Landfill (TCEQ Permit 729B) – This landfill is currently accepting solid waste and capacity used is 7.4% at August 31, 2025. Closure and post-closure costs are estimated at \$54.3 million. The estimated closure and post-closure cost liability of \$4.0 million is included in the recorded liability. The estimated remaining useful life for this landfill is 42 years.

Delta Transfer Station (TCEQ Permit 728) – The City owns and operates a transfer process facility for solid waste near Delta Street in El Paso. Beginning in March 2000, Section 330.282 of Title 30, the *Texas Administrative Code*, administered by the TCEQ, required “a detailed written cost estimate, in current dollars, showing the cost of hiring a third party to close the process facility by cleaning up the litter and debris from the site and the equipment, hauling the litter and debris to an approved landfill and to render the facility closed by dismantling vital operational parts and locking up the facility.” At August 31, 2025, the estimated total cost of closure of the Delta Transfer Station is \$159.2 thousand and is recognized as a liability in these financial statements.

Actual costs may be higher due to inflation, changes in technology or changes in regulations. The Department of Environmental Services, an enterprise fund and part of the City, will meet closure and post-closure care financial requirements.

Sections 330.280-286 of Title 30 of the Texas Administrative Code requires landfill owners to demonstrate financial assurance that they will have sufficient financial resources to satisfy closure and post-closure care expenses at such time as these become payable. The regulations provide various means by which a municipality may demonstrate financial assurance. For the year ended August 31, 2025, the City met all of the financial tests required by the TCEQ and will demonstrate financial assurance to the TCEQ by way of the City’s most recent bond rating and/or financial ratios computed using the 2025 audited financial statements.

CITY OF EL PASO, TEXAS

NOTES TO FINANCIAL STATEMENTS

Year Ended August 31, 2025

Federal, State, Public Health, Other Grants, and Nongrants had a fund balance deficit of \$8.4 million within the nonmajor governmental funds. The deficit is due to expenditures for grants being incurred and revenue not being available during the availability period of 75 days as established by the City's accounting policies. Included in this deficit is a negative fund balance for Animal Services that resulted from unresolved reimbursements from other governments.

NOTE 9. FUND BALANCE (continued)

Business-Type Activities

The balances of the restricted net position accounts in the Proprietary funds are as follows:

<u>Restricted Net Position</u>	
El Paso International Airport:	
Restricted for Passenger Facilities (by FAA)	\$ 24,873,119
Restricted for Debt Service	2,216,500
Restricted per Bond Covenants (Cash Reserve)	<u>12,447,618</u>
Total Restricted Net Position	<u>\$ 39,537,237</u>

El Paso International Airport

The Airport has restricted assets that are for specific use in accordance with an agreement with the United States Government. This agreement was established in 1950 whereby 1,907 acres of land were donated to the Airport. Any revenues derived from the sale, lease or other use of this land must be utilized for the development, improvement, operation and maintenance of the Airport subject to the approval of the Federal Aviation Administration (FAA). Earnings from invested funds may be used for the purposes previously described. Under this agreement, advances to other Airport funds for development and improvement of Airport facilities are permitted, subject to approval from the Federal Aviation Administration.

NOTE 10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft of, damage to or destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends (including frequency and amounts of payouts) and other economic and social factors (including the effects of specific, incremental claim adjustment expense, salvage and subrogation).

A. Internal Service Funds

Provisions under various types of risk are presented below:

Internal Service Funds account for certain self-insured activities. These include Workers' Compensation, Group Health and Unemployment Compensation. The premiums are recognized as revenues in the Internal Service Fund and as expenditures or expenses in the governmental and proprietary funds. Accruals for unpaid claims and claims incurred but not reported are reflected in the accompanying proprietary funds Statement of Net Position as Claims and Judgments.

This provision is based upon City experience, including recoveries, since the inception of the insurance programs and represents the loss and an allocated loss expense. The total estimated claims payable at August 31, 2025, is \$23.1 million. The total claims liability reported in the Internal Service Fund at August 31, 2025, is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements

NOTE 10. RISK MANAGEMENT (continued)

indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. No settlements in excess of insurance coverage were made in any of the prior three fiscal years.

Changes in the Self Insurance Fund's claims liability amount in fiscal 2025 and 2024 were:

	Workers' Compensation	Group Health	Unemployment Compensation	Total
Claims Liability at August 31, 2023	\$ 16,674,673	\$ 5,259,723	\$ —	\$ 21,934,396
Incurred Claims	2,090,365	38,304,634	250,092	40,645,091
Payment on Claims	(2,878,618)	(37,045,013)	(250,092)	(40,173,723)
Claims Liability at August 31, 2024	15,886,420	6,519,344	—	22,405,764
Incurred Claims	2,548,278	40,270,058	431,381	43,249,717
Payment on Claims	(3,609,879)	(38,488,055)	(431,381)	(42,529,315)
Claims Liability at August 31, 2025	<u>\$ 14,824,819</u>	<u>\$ 8,301,347</u>	<u>\$ —</u>	<u>\$ 23,126,166</u>

B. Property, Casualty & Liability, Self-Insurance Insurance, and Bonds

The City has third party insurance for property insurance procured competitively through a third-party broker of record. The third-party property insurance includes fine arts, building replacement, boiler and machinery, aircraft hull and liability, marine hull and liability, mass transit fleet and liability including railcar, and railroad property and liability.

The City has third-party insurance for auto liability and comprehensive and catastrophic coverage for some city-owned fleet and rental vehicles. The City has joined together with other government entities in the Texas Municipal League Intergovernmental Risk Pool (TML). The City pays an annual premium to TML for auto vehicle insurance coverage. The agreement with TML provides that TML will be self-sustaining through member premiums and will re-insure through commercial companies for claims in excess of \$500,000 to \$1,000,000 for each insurance event. The City anticipates a minimum to no contingent losses. TML has published its own financial report that can be obtained from the Texas Municipal League Intergovernmental Risk Pool.

The City has third party liability insurance procured competitively through a third-party broker of record. The third-party liability insurance includes airport general liability, general liability for the fine arts museum, baseball park liability, and parking areas, crime, unmanned aerial vehicles (UAV/ Drones), medical professional liability for public health, public officials' liability (includes errors and omissions), cyber liability, and garage liability.

The City self-insurance includes most general liability, police liability, and a self-insurance retention along with various deductible levels as needed. The City is self-insured for workers' compensation claims.

The City continues to carry commercial fidelity bonds for elected officials and for management.

NOTE 10. RISK MANAGEMENT (continued)

C. Group Health and Life Insurance

The City maintains a group health insurance plan for active employees and their eligible dependents through a self-insured plan of benefits. Aetna Inc. administers the plan. Reinsurance coverage limits the annual liability. Contributions to the fund are provided by both the City and participating employees. A commercial carrier provides the group life insurance plan. Costs are recorded in the fund from which the employees' compensation is paid.

D. Unemployment Compensation Insurance

The City is self-insured for unemployment compensation claims through an agreement with the Texas Workforce Commission (TWC). Under the agreement, TWC administers all claims and is reimbursed by the City for claims incurred plus administrative charges.

NOTE 11. COMMITMENTS AND CONTINGENCIES

A. Litigation and Claims

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Claims and lawsuits against the City for which a liability for losses is deemed as probable in the amount of \$12.7 million has been accrued as of August 31, 2025.

B. Grants

The City has received federal and state financial assistance in the form of grants and entitlements that are subject to review and audit by the granting agencies. Such audits could result in requests for reimbursement by the granting agency for expenditures disallowed under terms and conditions specified in the grant agreements. In the opinion of City management, such disallowed costs, if any, will not be significant.

C. Opioid Settlement

The City is a participant in both the Johnson & Johnson and Distributor Settlements to allow the City to receive its allocation of settlement funds for use in opioid mitigation measures and to participate in other opioid litigation settlements. The settlement funds are distributed by the State of Texas Opioid Abatement Trust Fund which is part of the national opioid settlements agreement. These funds will be used to invest in harm reduction strategies to address the overdose crisis.

The City received a payment of \$823.9 thousand through August 31, 2025, and anticipate receiving additional payments of \$400.5 thousand. The funds are recorded as unearned revenue until allowable costs have been incurred.

NOTE 12. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION

A. Plan Description

Texas statute provides that retirees from a municipality with a population of 25,000 or more and who receive retirement benefits from a municipal retirement plan are entitled to purchase continued health benefits coverage for the retiree and the retiree’s dependents unless the retiree is eligible for group health benefits coverage through another employer. The State of Texas has the authority to establish and amend the requirements of this statute. The City provides certain healthcare benefits for retired employees. The postemployment Open Access Managed Choice & Aetna Medicare Plan (PPO)/(ESA) are both single-employer plans administered by Aetna.

1. Benefits Provided

The City offers medical, dental and vision benefits for retired employees and their dependents. There are three medical plan options for retirees under age 65. Upon Medicare eligibility, retirees move to a Medicare Advantage plan. All plans are fully insured and are not pooled with active employees. Retirees are also eligible to continue fully insured dental and vision benefits.

To be eligible to continue coverage under the City's plan, employees must satisfy the retirement eligibility requirements of the pension plan to which they belong. In addition, they must be enrolled in the City's active employee health benefit plan at the time of retirement. Prior to January 1, 2019, election to continue coverage could only be made at retirement. Retirees were not eligible to rejoin at any other time. Effective with employees who retire on or after January 1, 2019, an employee must have been covered by the City prior to retirement to be eligible for coverage. The retiree has the option to continue coverage or to drop medical coverage but rejoin upon Medicare eligibility.

Retirees are required to contribute a portion of the medical and Medicare Advantage premium rates. Retirees pay a premium ranging from \$144.18 to \$2,899.71 per month depending on the coverage elected. To continue with dental and vision, retirees must pay the full premium amount. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

2. Employees Covered by Benefit Terms

At August 31, 2025, the following employees were covered by the benefit terms of the OPEB plan:

Inactive employees currently receiving benefits payments	863
Inactive employees entitled to but not yet receiving benefits payments	0
Active employees	4,268
Total	<u><u>5,131</u></u>

3. Total OPEB Liability

The City's total OPEB liability of \$123.4 million was measured as of August 31, 2025, and was determined by an actuarial valuation as of August 31, 2024.

NOTE 12. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

4. Actuarial Assumptions and Other Inputs

Projections of benefits for financial reporting purposes are based on assumptions regarding the survival of plan members, the average per-capita claims cost, when current employees are expected to retire, and so forth. The assumptions were derived from a combination of plan experience, actuarial judgment, and the City's pension plans' valuations.

The City's total OPEB liability in the August 31, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation:	2.40 percent
Salary Increases:	3.25 percent, including inflation
Discount Rate:	4.89 percent
Prior Year Discount Rate:	3.99 percent
Healthcare Cost Trend Rates:	Initial rates are based on actual changes in the fully-insured premiums

The discount rate was based on the August 31, 2025 S&P Municipal Bond 20-Year High-Grade Index Yield.

Mortality rates for active employees were based on the PubG.H-2010 (general employees) and PubS.H-2010 (public safety) Employee and Retiree Mortality Tables for males or females, Generational with Projection Scale MP-2021.

B. Changes in Total OPEB Liability

The following table shows the changes in the City's total OPEB liability.

	Total OPEB Liability
Balance at 8/31/2024	\$ 138,705,777
Changes for the Year:	
Service Cost	6,043,101
Interest	5,684,045
Differences Between Expected and Actual Experience	(1,477,887)
Change in Assumptions/Inputs	(20,997,340)
Benefit Payments	(4,583,234)
Net Changes	<u>(15,331,315)</u>
Balance at 8/31/2025	<u>\$ 123,374,462</u>

NOTE 12. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

1. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following table presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using discount rates that are one-percent lower or one-percent higher than the current discount rate.

	1% Decrease (3.89%)	Discount Rate (4.89%)	1% Increase (5.89%)
Total OPEB Liability	\$ 131,450,937	\$ 123,374,462	\$ 105,061,139

2. Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Baseline

The following presents the total OPEB liability of the City, as well as what the City's total liability would be if it were calculated using healthcare cost trend rates that are one-percent lower or one-percent higher than the median current healthcare cost trend baseline of 4.64%.

	1% Decrease (3.64%)	Healthcare Cost Trend Baseline (4.64%)	1% Increase (5.64%)
Total OPEB Liability	\$ 101,672,520	\$ 123,374,462	\$ 136,047,971

C. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the fiscal year ended August 31, 2025, the City recognized OPEB expense in the amount of \$3.9 million. As of August 31, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB as presented below:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 5,938,824	\$ 6,016,724
Changes of Assumptions or Other Inputs	18,274,388	52,391,518
Total	<u>\$ 24,213,212</u>	<u>\$ 58,408,242</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB expense will be recognized in OPEB expense as follows:

Year Ended August 31,	Amount
2026	\$ (9,509,819)
2027	(9,509,819)
2028	(9,509,819)
2029	(2,120,232)
2030	(334,595)
Thereafter	(3,210,746)
Total	<u>\$ (34,195,030)</u>

NOTE 13. EMPLOYEE BENEFIT PLANS

1. PENSION PLANS

The employees of the City and EPWater participate in one of two single-employer defined benefit pension plans: the City Employees Retirement Trust (CERT) and the Firemen and Policemen’s Pension Funds (FPPF), which consists of separate divisions for firemen (FPPF-Firemen Division) and policemen (FPPF-Policemen Division). Separate boards of trustees administer these pension plans as described in *Note 1* (CERT Board and FPPF Board, respectively).

The CERT was established in accordance with authority granted by Chapter 2.64 of the El Paso City Code and is a component unit (fiduciary fund type) of the City. The FPPF was established in accordance with authority granted by Article 6243b of *Vernon’s Annotated Texas Statutes* and is a component unit (fiduciary fund type) of the City. Each pension plan issues stand-alone financial statements that may be obtained from the respective funds’ administrative offices.

The total for the City's pension liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense are as follows:

	FPPF			Total	Total Pension Trust Funds
	CERT	Firemen Division	Policemen Division		
Net Pension Liability	\$ 202,936,411	\$ 206,969,335	\$ 308,297,058	\$ 515,266,393	\$ 718,202,804
Deferred Outflows of Resources					
Subsequent Contributions	30,867,752	11,246,647	15,120,605	26,367,252	57,235,004
Change in Experience	29,428,207	6,453,744	11,947,076	18,400,820	47,829,027
Change in Assumptions	17,674,984	1,316,117	628,033	1,944,150	19,619,134
Investment Earnings	14,103,830	36,848,009	50,536,205	87,384,214	101,488,044
Deferred Inflows of Resources					
Change in Experience	—	98,244	59,199	157,443	157,443
Pension Expense	25,201,388	26,125,648	39,186,180	65,311,828	90,513,216

The CERT amounts exclude an allocated portion for EPWater (19.9%).

A. Membership

Membership of each plan as of the measurement dates consisted of the following:

	August 31, 2024	December 31, 2024		
	CERT	Firemen Division	Policemen Division	Total FPPF
Retirees and Beneficiaries Receiving Benefits	3,657	848	1,199	2,047
Inactive Plan Members Entitled but not yet Receiving Benefits	173	6	12	18
Active Plan Members	4,128	912	1,113	2,025
Total	7,958	1,766	2,324	4,090

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)**B. City Employees Retirement Trust****1. Plan Description**

Substantially, all full-time employees of the City are eligible to participate in the retirement plan, except for uniformed firefighters and police officers who are covered under separate plans. Non-employer contributions are limited to participating employees of the CERT.

The designated purpose of the CERT is to provide retirement, death, and disability benefits to participants or their beneficiaries. The CERT is administered by the CERT Board, which is comprised of two citizens, who are not officers or employees of the City, nominated by the Mayor and approved by city council, four elected City employees, a retiree, and two district representatives as designated by city council. The CERT Board contracts with an independent pension custodian, investment managers, an investment consultant, an actuary and an attorney to assist in managing the CERT.

The City is the only contributing employer. The CERT pays direct administrative costs. The City provides indirect administrative support such as IT services. The CERT reimburses the City for various costs of processing pension checks, such as postage and supplies.

The CERT is not required to maintain any legally required reserves.

Participation is mandatory for classified employees (except permanent part-time employees). For non-classified employees, participation is mandatory for employees hired after July 1997. Classified employees include all the participants who are permanent, full-time employees and are not otherwise excluded from the CERT.

Members who were first participants prior to September 1, 2011, accrue benefits based on Tier I provisions as follows:

- Participants who leave the Plan before completion of 5 years of service receive a refund of their contributions. Participants leaving the Plan with more than 5 years but less than 10 years of service may receive a refund of their contributions plus interest at 5.5% compounded annually. Participants become fully vested after reaching 40 years of age and 10 years of service or 45 years of age and 7 years of service. Normal retirement is the earlier of: (i) 55 years of age with 10 years of service, or (ii) 60 years of age with 7 years of service or (iii) 30 years of service, regardless of age. Participants who have met the minimum vesting requirements may retire, but defer receiving pension payments until they reach normal retirement age. Alternatively, such vested participants may elect an early retirement, which will provide an actuarial reduced pension benefit payment upon termination. Persons retiring and eligible to receive benefits receive monthly pension payments in the amount of 2.5% of average monthly gross earnings received by the employee during the three years immediately prior to retirement, or 2.5% of the average monthly base salary received by the employee during the year immediately prior to retirement, or 2.5% of the monthly base salary pay for the month immediately prior to retirement, whichever is greater, multiplied by the number of completed years of service,

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

plus 0.2083 of 1% of such average for each additional completed or fractional part of a month of service.

Members who were first participants on or after September 1, 2011, accrue benefits based on Tier II provisions as follows:

- Participants who leave the Plan before completion of seven years of service receive a refund of their contributions. Participants leaving the Plan with more than seven years but less than 10 years of service may receive a refund of their contributions plus interest at 3% compounded annually. Participants become fully vested after reaching 45 years of age and seven years of service. Normal retirement is the earlier of: (i) 60 years of age with seven years of service, or (ii) 35 years of service, regardless of age. Participants who have met the minimum vesting requirements may retire, but defer receiving pension payments until they reach normal retirement age. Alternatively, such vested participants may elect an early retirement, which will provide an actuarially reduced pension benefit payment upon termination. Persons retiring and eligible to receive benefits receive monthly pension payments in the amount of 2.25% of average monthly gross earnings received by the employee during the three years immediately prior to retirement, multiplied by the number of completed years of service, plus .1875 of 1% of such average for each additional completed or fractional part of a month of service, limited to 90% of the three-year average final pay. A pension benefit is available to surviving spouses and dependents. The Plan includes no automatic increase in retirement benefits. However, the Board, at its discretion after consideration of a recent actuarial review of the funding status, may provide ad-hoc cost of living or other increases in retirement benefits.

2. Basis of Accounting

The accounting policies of the CERT have been established to conform to GAAP for state and local governments as promulgated by authoritative pronouncements issued by the GASB. The CERT is accounted for using an economic resources measurement focus and the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the CERT's management to make estimates and assumptions that affect the reported amounts in assets and liabilities, and disclosure of contingent assets and liabilities and the actuarial valuation of the CERT's benefits at the date of the financial statements and the reported changes in net position during the reporting period. Actual results may differ from those estimates.

3. Valuation of Investments

Investments are stated at fair value in the accompanying statements of fiduciary net position. The fair value of marketable investments, including U.S. government securities, corporate bonds and stocks, is determined by the latest bid price or by the closing exchange price at statements of fiduciary net position dates. The fair value of investments in bank collective investment, commingled funds, real estate investment funds and private equity limited partnerships are determined by the investment managers based on the fair values of the underlying securities in the funds. In general, the fair value of the underlying securities held in the real estate investment funds are based upon property appraisal reports prepared by independent real estate appraisers (members

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

of the Appraisal Institute or an equivalent organization) within a reasonable amount of time following acquisition of real estate and no less frequently than annually thereafter.

In general, the fair value of the underlying securities held in the private equity limited partnerships are based on GASB Statement No. 72, *Fair Value Measurement*, and limited partnership financial statements are audited by independent certified public accountants. Bank collective investment funds are governed by Section 9.18 of Regulation 9 issued by the Office of Comptroller of the Currency and by other applicable regulations as defined by the Mellon Bank, N.A. Employee Benefit Collective Investment Fund Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments reflected in the accompanying statement of changes in fiduciary net position represents gains or losses realized during the year plus or minus the change in the net unrealized gains or losses on investments. The change in net unrealized gains or losses on investments represents the change in the difference between the cost and fair value of investments at the beginning versus the end of the fiscal year.

4. Concentration of Investments

Concentration of credit risk is the risk of loss attributed to the magnitude of the CERT's investment in a single issuer. The CERT's investment policy does not allow for the investment portfolio to hold more than 10% in any one company. At August 31, 2025, the CERT did not have any single investment in any one organization which represents 5% or more of the fiduciary net position since the portfolio is invested in diversified bank collective investment funds, commingled funds, real estate trusts and private equity partnerships.

5. Contributions Required and Contributions Made

Contribution rates for the CERT are based upon local statutes as enacted by the El Paso City Council and are not actuarially determined. However, each time a new actuarial valuation is performed, contribution requirements are compared to the actuarially determined amount necessary to fund service costs and amortize the unfunded actuarial liability (using entry-age-normal cost method) over 30 years. As of the most recent actuarial valuation, the contribution rate was 23.00% of annual covered payroll.

Contributions to CERT for the year ended August 31, 2025, were made as follows:

	<u>Amount</u>	<u>Stated Percentage of Covered Payroll</u>
Employer Contributions	\$ 38,536,521	14.05%
Employee Contributions	24,649,953	8.95%
Total	<u>\$ 63,186,474</u>	<u>23.00%</u>

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

6. Actuarial Assumptions

The total pension liability as of August 31, 2025 was determined based on the September 1, 2024 actuarial valuation for the August 31, 2024 measurement date and rolled forward to the measurement date of August 31, 2025. The results of the actuarial valuation as of September 1, 2024 are consistent with the August 31, 2024 measurement date. The following actuarial assumptions used in the measurement of the total pension liability:

Cost of living benefits increases	None
Inflation	2.5%
Salary increases	2.5%, average, including inflation
Investment rate of return	7.25%, compounded annually, net of expenses
Actuarial cost method	Entry-age-normal-level percentage of pay
Asset valuation method	Plan invested assets are reported at fair value

Mortality rates for active and deferred participants are based on the Pub-2010 employee tables with Blue Collar adjustment projected with Scale MP-2021 on a fully generational basis. Mortality rates for healthy retirees and survivors are based on 112% of the Pub-2010 healthy annuitant tables with Blue Collar adjustment (92% of male rates and 100% of female rates) projected with Scale MP-2021 on a fully generational basis. Mortality rates for disabled participants are based on the Pub-2010 Non-safety disabled annuitant table projected with Scale MP-2021 on a fully generational basis.

The actuarial assumptions used in the September 1, 2024 valuation were based on the results of an actuarial experience study performed in 2022.

The long-term expected rate of return on pension fund investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) and developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the CERT’s target asset allocation as of August 31, 2025 are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic Equity	6.48%
International Equity	6.26%
Fixed Income	2.26%
Real Estate	4.30%
Private Equity	9.52%

7. Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions will be based on the rates established

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

by Ordinance. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the total pension liability in accordance with the method prescribed by GASB Statement No. 67.

In the event benefit payments are not covered by the plan's fiduciary net position, a municipal bond rate would be used to discount the benefit payments not covered by the plan’s fiduciary net position. The S&P Municipal Bond 20-Year High Grade Index rate was 5.23% as of August 31, 2025.

Changes in the total pension liability, plan fiduciary net position and the net pension liability through the respective fiscal years ended, are as follows for CERT and as apportioned to the City and EPWater, as determined by the City at August 31, 2025:

Changes in Net Pension Liability - City Employees Retirement Trust

	Increase (Decrease)		
	Total Pension Liability (a)	Fiduciary Net Position (b)	Net Pension Liability (a) - (b)

Employer Contributions	—	6,799,934	(6,799,934)
Plan Member Contributions	—	4,333,468	(4,333,468)
Net Investment Income	—	21,600,945	(21,600,945)
Administrative Expense	—	(529,037)	529,037
Net Changes	9,719,570	15,248,099	(5,528,529)
Balances as of August 31, 2025	<u>\$ 247,613,576</u>	<u>\$ 197,196,165</u>	<u>\$ 50,417,411</u>

8. Sensitivity to Interest Rate Changes

The following presents the resulting net pension liability as of August 31, 2024 (measurement date) calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.25%) or one-percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
City's Net Pension Liability	\$ 390,759,825	\$ 253,353,821	\$ 137,981,608

9. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended August 31, 2025, the City recognized pension expense, as measured in accordance with GASB Statement No. 68, of \$25,201,388 for the City and \$6,261,019 for EPWater. The reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for the City Employees Retirement Trust in total and as apportioned to the City and EPWater, as determined by the City at August 31, 2025:

City Employees Retirement Trust	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference in Expected and Actual Experience	\$ 36,739,330	\$ —
Net Difference Between Expected and Actual Investment Earnings on Plan Investments	17,607,789	—
Change in Assumptions for Pensions	22,066,145	—
Contributions Subsequent to the Measurement Date	38,536,521	—
Total City Employees Retirement Plan	<u>\$ 114,949,785</u>	<u>\$ —</u>

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

City	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference in Expected and Actual Experience	\$ 29,428,207	\$ —
Net Difference Between Expected and Actual Investment Earnings on Plan Investments	14,103,830	—
Change in Assumptions for Pensions	17,674,984	—
Contributions Subsequent to the Measurement Date	30,867,752	—
Total City	<u>\$ 92,074,773</u>	<u>\$ —</u>

EPWater	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference in Expected and Actual Experience	\$ 7,311,123	\$ —
Net Difference Between Expected and Actual Investment Earnings on Plan Investments	3,503,959	—
Change in Assumptions for Pensions	4,391,161	—
Contributions Subsequent to the Measurement Date	7,668,769	—
Total EPWater	<u>\$ 22,875,012</u>	<u>\$ —</u>

An amount of \$30.9 million reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date but before the end of the City's fiscal year ended, will be recognized as a reduction in the net pension liability in the subsequent fiscal period rather than in the current fiscal period.

Other amounts reported as deferred outflows and inflows of resources to the plan will be recognized in pension expense as follows:

Ending August 31,	Total	City	EPWater
2026	\$ 16,116,025	\$ 12,908,936	\$ 3,207,089
2027	43,930,875	35,188,631	8,742,244
2028	11,776,145	9,432,692	2,343,453
2029	1,881,265	1,506,889	374,376
2030	2,708,954	2,169,873	539,081
Total	<u>\$ 76,413,264</u>	<u>\$ 61,207,021</u>	<u>\$ 15,206,243</u>

C. Firemen and Policemen’s Pension Fund

1. Plan Description

The designated purpose of the FPPF is to provide retirement, death and disability benefits to participants or their beneficiaries. The Fund is established by state statute and administered by a Board of Trustees comprised of eleven trustees as follows: three citizens of the City appointed by the Mayor; two citizens of the City appointed by the City Manager; three member firemen of the Fire Department, to be elected by the firemen members of the Fund; and three member policemen of the Police Department, to be elected by the policemen members of the Fund. The Board contracts with an independent custodian bank, investment managers, investment consultants, and an actuary to assist in managing the Fund.

The FPPF is a defined benefit pension plan covering uniformed firefighters and police officers employed by the City of El Paso. Non-employer contributions are limited to participating employees. The City of El Paso is the only participating employer. The projection of benefits for

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

financial reporting purposes does not explicitly incorporate the potential effects of the legal funding limitations.

The FPPF – Firemen Division is a defined benefit, retirement plan covering uniformed employees of the Fire Department. Participants are required to contribute 18% of their compensation to the FPPF.

The FPPF – Policemen Division is a defined benefit, retirement plan covering uniformed employees of the Police Department. Participants are required to contribute 18% of their compensation to the FPPF.

Any person duly appointed as a fireman or policeman in the fire or police departments of the City shall automatically become a member of the pension fund, provided such person shall have attained eighteen (18) years of age. Participant contributions (without interest) are refunded upon request if a participant terminates with five or more years of service but less than twenty years of service. All benefits under the FPPF are terminated if contributions are refunded.

The FPPF is maintained under the provisions of Article 6243b of Vernon's Annotated Texas Statutes. All current FPPF provisions are set forth in the City of El Paso Firemen and Policemen's Pension Fund Plan Document. Benefit provisions, contribution obligations and funding policy of the Fund are established and amended by the Board of Trustees in accordance with authority granted by Article 6243b of Vernon's Annotated Texas Statutes. The costs of administering the Fund are paid out of the Fund's assets.

Benefits are calculated as follows for the Base Plan and Second Tier Plan. Any member originally enrolled on July 1, 2007 or thereafter is automatically enrolled in the Second Tier Plan.

a. Base Plan

Retirement benefits for members with at least 20 years of vesting service and the attainment of age 45 or more are calculated at 2.75% of the member's final wages multiplied by years of credited service. Retirement benefits for members with at least 20 years of vested service, under the age of 45 are calculated at 2.75% of the member's final wages multiplied by years of credited service reduced by a factor proportionate to the number of months and years below the age 45. Retirement benefits for members with at least 10 years of vested service and at least 50 years of age are calculated at 2.75% of the member's final wages multiplied by the member's years of credited service.

Plan members are eligible for service-connected disability benefits and for ordinary disability benefits. Disability retirement benefits are calculated as the greater of 50% of the member's final wages or 2.75% of the member's final wages multiplied by years of credited service. Death benefits are calculated as the greater of 50% of the member's final wages or the calculation of a retiree benefit as mentioned in the preceding paragraph.

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

A qualified spouse with no qualifying children is entitled to receive 100% of member's death benefit. If there are qualifying children, a qualified spouse receives two-thirds of the death benefit and qualified children equally share the remaining third. If there is no qualifying spouse, then the qualifying children are entitled to equally share two-thirds of the member's death benefit.

Cost-of-living adjustment (COLA) is provided upon the earlier of the retiree having attained age 60 or the fifth anniversary for firemen or second anniversary for policemen of the pension commencement date and on each January 1st thereafter.

b. Second Tier Plan

Retirement benefits for members with at least 20 years of vesting service and the attainment of age 45 or more are calculated at 2.50% of the member's final wages multiplied by years of credited service. Retirement benefits for members with at least 10 years of vesting service, but less than 20 years of vesting service, and attainment of age 50 or more are calculated at 2.50% of the member's final wages multiplied by the member's years of credited service.

Plan members are eligible for service-connected disability benefits and for ordinary disability benefits. Disability retirement benefits are calculated as the greater of 50% of the member's final wages or 2.50% of the member's final wages multiplied by years of credited service. Death benefits are calculated as the greater of 50% of the member's final wages or 75% of the calculation of a retiree as mentioned in the preceding paragraph. A qualified spouse with no qualifying children is entitled to receive 100% of member's death benefit. If there are qualifying children, a qualified spouse receives two-thirds of the death benefit and qualified children equally share the remaining third. If there is no qualifying spouse, then the qualifying children are entitled to equally share two-thirds of the member's death benefit. In November 2024, the 1.5% COLA was approved for the Second Tier Plan.

c. Deferred Retirement Option Program (DROP)

Base Plan and Second Tier Plan members who are at least 45 years old with at least 20 years of credited service are eligible to participate in a Forward DROP by an irrevocable written election. At the date participation in the Forward DROP begins, the participant's years of credited service and average final compensation become frozen for purposes of determining pension benefits. The participant is considered retired related to the Fund and does not accrue additional retirement benefits, except for annual benefit cost-of-living adjustments, if applicable. Upon retirement, the participant receives the lump sum of the total of the monthly retirement benefits between the benefit computation date and the retirement date and then begins receiving the monthly benefit.

Each Forward DROP participant's monthly pension is tracked by an individual DROP account between the date participation in the Forward DROP begins and the retirement date and accrued as a liability on the statement of fiduciary net position. Forward DROP balances are not credited with investment gains and losses. As of December 31, 2024 the DROP payable totaled \$91,201,326.

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

2. Basis of Accounting

The accounting policies of the Fund have been established to conform to GAAP for state and local governments as promulgated by authoritative pronouncements issued by GASB. The Fund is accounted for on an economic resources measurement focus using the accrual basis of accounting.

3. Valuation of Investments

Investments are stated at fair value in the accompanying statements of fiduciary net position. The fair value of marketable investments is determined by the latest bid price, closing exchange price at year end, institutional bid evaluation or NAV as considered appropriate for each investment type by the Custodian. The estimated fair value of alternative investments is based on the most recent valuations provided by the external investment managers. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Third-party investment managers administer substantially all marketable securities of the Fund. Gains and losses resulting from securities transactions are recorded in investment income.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net change in fair value of investments reflected in the accompanying statement of changes in fiduciary net position available for benefits represents the net realized and unrealized gains or losses on investments, which equals the difference between the cost and market value of investments at the beginning versus the end of the year, plus or minus gains or losses realized during the year.

4. Contributions Required and Contributions Made

Employee contributions are established by the Board of Trustees and a vote of active participants in accordance with Article 6243b of Vernon's Annotated Texas Statutes. The City's funding policies provide for periodic employer contributions.

In the event, based upon the results of the actuarial valuations, a qualified actuary determines that the total contribution rate is insufficient to amortize an unfunded actuarial accrued liability, the City's governing body may increase its contribution rate.

The sum of the City's contribution rate and the member contribution rate, after an increase, may not exceed the total contribution rate determined by the actuary necessary to amortize the unfunded actuarial liability over a thirty (30) year period.

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

5. Securities Lending Transactions

The Fund is authorized to enter into securities lending transactions under Texas State Statutes Section 2256.0015. The Fund has a securities lending agreement with the Custodian under which Fund-owned investments are lent to one or more approved borrowers for a fee. The Custodian, as lending agent, is responsible for collecting required collateral in the form of cash, securities issued or guaranteed by the U.S. Government or its agencies, or irrevocable letters of credit issued by banks independent of the borrowers. The lending agent is authorized to enter into securities lending transactions of U.S. and non-U.S. securities in accordance with the terms of a securities lending authorization agreement.

The lending agent has indemnified the Fund harmless from any losses, damages, costs or expenses the Fund may incur if the lending agent is unable to recover borrowed securities or distributions made during the term of the loans with respect to those securities as a result of the lending agent's failure to make a reasonable determinations of the creditworthiness of a borrower, demand adequate and appropriate collateral on a timely basis or to perform its duties under the agreement with the Fund. The agreement states that collateral must have a market value equal to no less than 100% of the market value of the borrowed securities. Non-cash collateral must have a market value equal to no less than 102% of the market value of the borrowed securities, or 105% of the borrowed securities if the collateral are denominated in different currencies.

Each business day, the lending agent and the Fund determine the market value of the collateral and the borrowed securities. The Fund's security lending policy requires investment grade securities. Cash collateral received from the borrower is subsequently reinvested in a securities lending collateral investment pool. As of December 31, 2024, the Fund's securities lending obligation exceeded the fair value of the underlying securities.

The following tables summarize the fair value measurements of lent securities, cash collateral received, and the fair value of the reinvested cash collateral:

	December 31, 2024		
Securities Lent	Fair Value of Underlying Securities	Collateral Received	Collateral Investment Value
Domestic Equities	\$ 35,912,800	\$ 36,813,359	\$ 36,938,512 ^(a)

(a) This amount includes the FPPF's Staff Plan's portion of the investment portfolio which is not included in the Statement of Fiduciary Net Position.

As of December 31, 2024, the Fund also holds securities collateral that cannot be pledged or sold absent a borrower's default totaling \$14,045,582. The securities collateral consists of U.S. Treasury Bills, U.S. Treasury Notes, and U.S. Treasury Bonds. There were no losses from securities lending transactions during the year ended December 31, 2024 resulting from a default of a borrower or the lending agent.

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

6. Actuarial Methods and Assumptions

The total pension liability was determined by three actuarial valuations as of January 1, 2024 rolled forward to a measurement date of December 31, 2024. The actuarial assumptions included a 7.75% investment rate of return; projected salary increases of 2.75% plus promotion, step and longevity increases that vary by service for fire and police; and an inflation rate of 2.75% per year. Mortality rates were based on the PubS-2010 (public safety) total dataset tables for employees and for retirees (sex distinct), projected for mortality improvement generationally using scale MP-2020.

The long-term expected rate of return on investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan administrative and investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2024 are summarized in the following table (rates shown exclude inflation).

	Target Allocation	Long-term Expected Rate of Return
Equities		
Large Cap Domestic	16.0%	6.19%
Mid Cap Domestic	5.0%	6.45%
Small Cap Domestic	6.0%	6.06%
International Developed	21.0%	6.42%
Emerging Markets	5.0%	7.19%
Real Estate	10.0%	3.90%
Private Equity	15.0%	6.75%
Fixed Income	20.0%	8.75%
Cash	2.0%	—%

7. Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that the Fund's contributions will continue to follow the current funding policy. Based on the actuarial assumptions applied, the Fund's fiduciary net position is projected to be available to make all projected future benefit payments of current plan members for all future years and hence, the blended GASB discount rate is equal to the long-term rate of return of 7.75%. Therefore, the long-term expected rate of return on pension plan investments of 7.75% was applied to all periods of projected benefit payments to determine the total pension liability.

CITY OF EL PASO, TEXAS

NOTES TO FINANCIAL STATEMENTS

Year Ended August 31, 2025

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

Changes in the total pension liability, plan fiduciary net position and the net pension liability for the year ended August 31, 2025 were as follows:

Firemen Division			
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Amounts as of January 1, 2024	\$ 944,290,628	\$ 740,283,478	\$ 204,007,150
Changes for the Year:			
Service Cost	12,392,831	—	12,392,831

Amounts as of December 31, 2024	<u>\$ 2,375,839,094</u>	<u>\$ 1,860,572,701</u>	<u>\$ 515,266,393</u>

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

8. Sensitivity to Interest Rate Changes

The following presents the net pension liability (asset) calculated using the discount rate of 7.75%, as well as what the Fund's net pension liability (asset) would be if it were calculated using a discount rate that is one-percent lower (6.75%) or one-percent point higher (8.75%) than the current rate:

Firemen Division		
1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
\$ 335,914,324	\$ 206,969,335	\$ 101,461,556

Policemen Division		
1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
\$ 491,230,222	\$ 308,297,058	\$ 158,349,510

FPPF		
1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
\$ 827,144,546	\$ 515,266,393	\$ 259,811,066

9. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Plan

For the fiscal year ended August 31, 2025, the City recognized pension expense, as measured in accordance with GASB Statement No. 68, of \$26,125,648 for firemen division and \$39,186,180 for policemen division, and reported deferred outflows of resources and deferred inflows of resources related to the plan from the following sources:

Firemen Division		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference Between Projected and Actual Earnings on Pension Plan Investments	\$ 36,848,009	\$ —
Change in Assumptions	1,316,117	—
Differences Between Expected and Actual Experience	6,453,744	98,244
Contributions Subsequent to Measurement Date	11,246,647	—
	<u>\$ 55,864,517</u>	<u>\$ 98,244</u>

Policemen Division		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	\$ 50,536,205	\$ —
Changes in Assumptions	628,033	—
Differences Between Expected and Actual Experience	11,947,076	59,199
Contributions Subsequent to Measurement Date	15,120,605	—
	<u>\$ 78,231,919</u>	<u>\$ 59,199</u>

NOTE 13. EMPLOYEE BENEFIT PLANS (continued)

	FPPF	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	\$ 87,384,214	\$ —
Changes in Assumptions	1,944,150	—
Differences Between Expected and Actual Experience	18,400,820	157,443
Contributions Subsequent to Measurement Date	26,367,252	—
	\$ 134,096,436	\$ 157,443

Contributions of \$26,367,252 were reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date but before the end of the City's reporting period will be recognized as a reduction in the net pension liability in the subsequent fiscal period rather than in the current fiscal period.

Amounts reported as deferred outflows or deferred inflows of resources related to the plan will be recognized in pension expense as follows:

Fiscal Year Ending August 31,	Policemen Division	Firemen Division	FPPF Total
2026	\$ 26,143,026	\$ 17,695,626	\$ 43,838,652
2027	42,661,816	27,998,999	70,660,815
2028	(6,730,286)	(2,227,140)	(8,957,426)
2029	977,559	1,052,141	2,029,700
2030	—	—	—
Total	\$ 63,052,115	\$ 44,519,626	\$ 107,571,741

2. DEFERRED COMPENSATION PLANS

The City offers eligible employees two Deferred Compensation Plans created in accordance with the Internal Revenue Code Section 457 (one pre-tax, and one after tax – a “Roth” plan), which are entirely funded by employee contributions, and a Defined Contribution Plan created in accordance with Internal Revenue Code 401(a), which is funded by employer contributions.

All assets and income earned thereon are held in trust for the exclusive benefit of Plan participants and their beneficiaries; therefore these plans are not reported in the financial statements of the City. The Plans are administered by Empower Retirement, which also serves as trustee of the assets.

NOTE 14. TAX ABATEMENTS

The City provides Chapter 380, 351, and 312 type incentive agreement opportunities for new, expanding, and/or retaining business projects. Consideration for financial incentives is given to any business or commercial development project with the possibility of substantially enhancing the economic health of the City. An incentive is proposed if the project results in a net increase and/or retention of quality jobs, adds to the tax base, improves and/or enhances economic welfare of residents or businesses of the City, and/or demonstrates the potential to generate revenues to the City which outweigh costs associated with incentives. Projects must demonstrate public purpose, economic benefit, increase private capital investment in the community, or encourage development in targeted City locations, businesses or clusters that enhance the City's economy.

Through the State of Texas, the City receives Chapter 351 Hotel Occupancy Tax (HOT) Rebates to disburse to hotels participating in the Chapter 380 Agreements upon completion of certain criteria. Per State Code, hotel projects in certain municipalities can receive rebates of the state hotel occupancy tax and sales tax revenue they collect, as well as their collections of local hotel taxes, sales taxes, mixed beverage taxes and property taxes. To be eligible, these hotel projects must be within 1,000 feet of a convention center facility, and the hotel or its land must be owned by the city. Tax receipts from meeting spaces, restaurants and shops, convention center entertainment-related facilities, parking facilities and water and sewer systems may be eligible for the rebates as well. The hotel owners can receive these rebates for 10 years after opening. As of the end of the fiscal year, three hotels were participating in this program.

Applicants must provide solid evidence of financial stability and capacity to complete the project, be compliant with all local, state and federal laws, and be current on all City taxes and any other obligation to the City.

The City has not entered into agreements with other governments that would reduce the reporting government's tax revenues. Other governments are not authorized to enter into tax abatement agreements that reduce the City's tax revenue without the City's consent.

The City's Incentives Policy, Guidelines and Criteria**• Qualification Criteria**

Projects are required to meet qualifying standards in at least one of four (4) categories detailed in the City of El Paso Incentives Policy - Guidelines and Criteria (Incentive Policy) to be eligible for incentives:

- Category 1: Related to Quality Jobs, is eligible for a 40% grant.
- Category 2: Related to Business-Type, is eligible for a grant up to 50%.
- Category 3: Related to Capital Intensive Projects. Policy guidelines for specified percentage of jobs above the Median County Wage and specified ranges of Capital Investment, companies may be eligible for grants ranging between 60% to 70%.
- Category 4: Related to Increased Productive Capacity, is eligible for a 50% grant.
- Category 5: Related to Retail Development / Destination Retail / Retail Distribution Center to be eligible for up to a 100% rebate on the city's portion of property taxes (incremental to base year value) and/or up to 100% rebate on the City's portion of sales taxes.

NOTE 14. TAX ABATEMENTS (continued)

- **Bonus Incentives**

An additional 10% rebate amount, not to exceed 100% may also be available to those companies that meet at least one of the criteria detailed in the Incentive Policy related to company location, corporate headquarter operations and minimum personnel employed, research and development, employment of veterans, collaboration or business partnerships with higher education institutions or technical institutions, and wages.

- **Economic Development Incentives**

Upon completion of an economic impact analysis, the Economic & International Development Department will consider and recommend projects for incentives. The majority of incentives are based on the Chapter 380 Agreement. However, the City reserves the right to use any other non restricted source in the award of incentives.

- **Ineligible and Restricted Areas and Use**

Projects that have been issued a building permit, including any conditional permits or projects that do not meet the wage requirements, except as specified in the Incentive Policy are not eligible for incentives.

Incentive Programs Available**1. Infill Development Programs (380 and 312)**

Program Policy - project consideration includes the potential impact of the reinvestment project on the immediate and surrounding area. Revitalization strategy for future growth and results in the creation of additional jobs in the City, the value of such benefits to the City outweighing the amount of the rebate the City will provide under the agreement.

Eligibility Criteria - the property must meet the definition for infill development per Section 20.02.471 of the City Code, located within the jurisdiction limits of the City and must meet the location criteria, as per Subsection 20.10.280(B) of the City Code.

Recapture - if a project is not completed as specified or if the terms of the agreement are not met, the City has the right to cancel or amend the incentive agreement, recapture any rebated or exempted taxes, and assess penalty payments for the amounts previously secured by City liens against the property.

City Commitment – release of liens, if approved, as the result of condemnation, demolition, sanitation, or other city-imposed non-property tax liens, excluding Community Development or other federally-funded liens.

Infill 380 Agreements:

Purpose - facilitates loans or grants of public funds for the purposes of promoting local economic development and stimulating business and commercial activity within the City. It also provides financial incentives to develop vacant and underutilized properties within the city limits, in accordance with Title 20 of the City Code.

Tax Incentive - rebate 100% of the City's 1% portion of sales tax.

Authority - Chapter 380 of the Texas Local Government Code.

NOTE 14. TAX ABATEMENTS (continued)

Rebate Determination - a rebate package must be submitted no more than once a year during the term of the contract along with documentation of qualified expenditures incurred in the construction of the development and the applicant has paid or caused to be paid all the City's local sales and use taxes associated with the qualified expenditures in accordance with their specific agreement.

Recipient Commitment – meet all the requirements of the agreement and demonstrate they have not incurred any delinquent taxes by providing certified city tax certificates for each parcel of property owned in the City of El Paso.

Infill 312 Agreements:

Purpose - provides financial incentives to develop vacant and underutilized properties within the city limits, in accordance with Title 20 of the City Code.

Tax Incentive - a percentage based upon the increased value of the Real Property over the value in the base year.

Authority - State of Texas Property Redevelopment and Tax Abatement Act, Chapter 312 of the Texas Tax Code.

Abatement Determination - submit a detailed site development plan in accordance with Title 20 of the City Code to be reviewed by the City's Planning Division. If approved, must submit yearly application to CAD and report of compliance, the percentage of the incentive will be based on the project.

Recipient Commitment - meet all of the general and qualifying criteria in the City's Incentive Policy, and provide "added value" to a property in which the minimum property value is established by the provision in that policy.

2. 380 Strategic Agreements

Purpose - the majority of Strategic Agreements are for the purpose of retention and quality job creation, expansion, and promote tourism. Also designed to provide employment and training to residents and economically disadvantaged individuals.

Eligibility Criteria - mainly to create, expand, and retain quality jobs.

Tax Incentive - a rebate of a percentage of personal and real property taxes and/or a rebate of a percentage of City's 1% sales and use tax revenues.

Authority - Chapter 380 of the Texas Local Government Code and State of Texas Property Redevelopment and Tax Abatement Act, Chapter 312 of the Texas Tax Code.

Rebate Determination - a rebate package must be submitted no more than once a year during the term of the contract along with documentation of qualified expenditures incurred and the applicant has paid or caused to be paid all the City's local sales and use taxes associated with the qualified expenditures in accordance with their specific agreement. Incentives will be considered on a project-by-project basis. In relation to rebate of personal and real property taxes, applicant must submit a detailed site development plan in accordance with Title 20 of the City Code to be reviewed by the City's Planning Division. If approved, the percentage of the incentive will be based on the project.

NOTE 14. TAX ABATEMENTS (continued)

Recapture - the City has the right to cancel or amend the incentive agreement, recapture any rebated or exempted taxes, and assess penalty payments for the amounts previously secured by City liens against the property.

Recipient Commitments - varies by agreement, including investment in real and personal property, to create quality job opportunities, to retain jobs, create a workforce which provides training that leads to a Bachelor's or Associates degree and/or Licensed Certification. Commitment to maintain business activities for a period of time.

City Commitment - after approval of the applicant's submitted package, payments will be processed within ninety (90) days.

3. Multi-Family

Incentives under this policy are no longer available. However, the City continues to make payments for incentives established prior to the expiration of this policy.

Purpose - to establish a short-term city-wide multi-family housing needs incentive policy and accompanying Chapter 380 grant program that promotes and stimulates business activity, resulting in immediate construction of large-scale multi-family housing developments, alleviating the critical housing needs of the City related to Fort Bliss expansion.

Eligibility Criteria - project must construct one or more new multi-family housing structure each consisting of at least 150 housing units.

Tax Incentive - rebate 100% of the property tax increment for 5 years not to exceed the City's portion.

Abatement Authority - Texas Constitution and Chapter 380, Texas Local Government Code.

Rebate Determination - If approved, applicant shall be eligible for an annual grant payment in an amount not to exceed 100% of the total value of the city's portion of the incremental ad valorem property tax revenue generated by the subject property above the Base Year Value for the Development for the Grant Period. Incentives will be considered on a project-by-project basis.

Recapture - the City has the right to cancel or amend the incentive agreement, recapture any rebated or exempted taxes, and assess penalty payments for the amounts previously secured by City liens against the property.

Recipient Commitments - subject to requirements specified in the Multi-Family Housing Needs Incentive Policy and Chapter 380 Grant Program, pursuant to Chapter 380, Texas Local Government Code. Minimum construction requirements, site development plan, businesses or individuals must be current on all city taxes or any other obligation to the City, demonstrate approved permits have been obtained under Federal, State, and local laws.

City Commitment - after approval of the applicant's submitted package, payments will be processed within ninety (90) days.

4. Transit Oriented Development (TOD)

Purpose - encourage the growth and development of a mix of commercial, residential, office and entertainment centered around or located near a transit station. To spur economic development and improve the quality of life for the City residents while reducing the City's carbon footprint.

NOTE 14. TAX ABATEMENTS (continued)

Program Policy - project consideration includes the potential impact of project on the immediate and surrounding area. To be considered for incentives under this policy, the proposed infill development project must comply with the mandatory design requirements and no less than three of the selective design requirements as identified in Subsection 20.10.280 (C) of the City Code.

Eligibility Criteria - project must be located within TOD incentive areas, meet mandatory design requirements and the project must be in compliance with all local, state and federal laws. TOD incentive areas are in accordance with the policy.

Tax Incentive – includes rebates of building and planning permit fees, lien waivers, construction materials sales tax, property and/or sales and use tax.

Authority – Chapter 312 of the Texas Tax Code.

Rebate Determination – the City Manager or designee will consider requests for financial incentives in accordance with these policies, the City Code, the Texas Tax Code, and the Texas Local Government Code.

Recapture – if a project is not completed as specified, or if the terms of the agreement are not met, the City has the right to cancel or amend the incentive agreement, recapture any rebated or exempted taxes, and assess penalty payments for the amounts previously paid, which can be secured by City liens against the property and all previously waived fees and abated taxes shall become due to the City.

Recipient Commitments – comply with procedural guidelines, submit a detailed site development plan in accordance with Title 20 of the City Code. Show financial stability and capacity to complete the project. Demonstrate compliance with all local, state and federal laws.

City Commitment - release of liens, if approved, as the result of condemnation, demolition, sanitation, or other city-imposed non-property tax liens, excluding Community Development or other federally-funded liens.

<u>Incentive Programs</u>	<u>Amount of Tax Incentives during the Fiscal Year</u>
380 Strategic Incentive	\$ 15,270,322
Infill Development Incentive	1,505,187
Transit Oriented Development Incentive	<u>1,677</u>
Total	<u>\$ 16,777,186</u>

NOTE 15. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

A summary, by object level, of expenditures exceeding appropriations at the legal level of budgetary control in the general fund is as follows:

Object		Total
Personnel Services	\$	5,966,098
Utilities		2,078,503

Personnel Services exceeded budget in several key areas during the fiscal year. Civilian salaries were over budget by \$1.3 million, primarily due to staffing needs. Overtime costs exceeded budget by \$2.5 million, including \$2.1 million for civilian personnel and \$981.0 thousand for fire operations. Additionally, fire incentive pay and sick leave payoff surpassed budget by \$1.2 million. Water expenses were higher than anticipated by \$2.1 million.

The reported excess of actual over budget in the Schedule of Revenues, Expenditures and Changes in Fund Balances Budget to Actual for principal (\$894.9 thousand), interest expense (\$178.9 thousand), and capital outlay (\$3.1 million) reflects financial reporting adjustments required under GASB Statement No. 87. These amounts represent non-budgetary items recorded solely for compliance with GASB 87 and do not indicate that actual expenditures exceeded legally adopted budget appropriations.

NOTE 16. IMPLEMENTATION OF FUTURE GASB STANDARDS

The Governmental Accounting Standards Board (GASB) has issued the following pronouncements which are not yet effective.

Statement No. 103: *Financial Reporting Model Improvements*

This Statement was issued in April 2024 to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The application of this Statement becomes effective for the City in fiscal year 2026.

Statement No. 104: *Disclosure of Certain Capital Assets*

This Statement was issued in September 2024 and establishes requirements for certain types of capital assets to be disclosed separately in the capital assets note disclosure required by Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. It also establishes requirements for capital assets held for resale, including additional disclosures for those capital assets. The application of this Statement becomes effective for the City in fiscal year 2026.

Implementation Guide No. 2025-1: *Implementation Guidance Update - 2025*

This Implementation Guide was issued in June 2025 to provide guidance that clarifies, explains, or elaborates on GASB Statements. It supersedes Implementation Guide No. 2015-1, question 2.18.2, amending Implementation Guide 2015-1, questions 7.9.6, 7.73.2, and Z.54.30, as well as new guidance on GASB Statements. The application of this Implementation Guide becomes effective for the City in fiscal year 2026.

Statement No. 105: *Subsequent Events*

This Statement was issued in December 2025 to improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users. The application of this Statement becomes effective for the City in fiscal year 2027.

The City of El Paso will implement new GASB pronouncements no later than the required effective date. The City is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the City's financial statements.

NOTE 17. SUBSEQUENT EVENTS

1. A resolution to dissolve the Thunder Canyon Public Improvement District 1 was approved by the City Council on December 16, 2025. The City Council finds that all obligations have been satisfied and paid for in full as of August 14, 2020 and that the dissolution of the District is in the best interest of the City and the property owners within the District.
2. A resolution to deprogram the 2018 Capital Plan and the 2019 Capital Plan, due to the City Council decision of not issuing remaining authorized certificates of obligation was approved by the City Council on January 20, 2026. The amount of certificates of obligation that will no longer be issued is \$31,905,363.

Budget to Actual Schedules
For the Year Ended August 31, 2025

General Budget Policies

The City adopts an annual budget for the General Fund, CDBG, Debt Service Fund, Internal Service Funds and the operations of the enterprise funds. Unexpended appropriations for these funds lapse at the fiscal year end. Capital project funds are generally budgeted on a project basis that allows spending beyond the fiscal year end until the project is complete. Other special revenue funds such the COVID-19 Relief Grants Funds, do not have appropriated budgets since other means control the use of these resources (e.g. grant awards) and sometimes span a period of more than one fiscal year. The level of budgetary compliance is at the object level for appropriations and every City department is responsible for staying within budget constraints.

The budgets for all governmental funds are prepared on a modified accrual basis. Purchases of materials, supplies, and equipment are considered expended when bought and depreciation/amortization expense for budgetary purposes is excluded. Encumbrances are considered obligations when the commitment is incurred. All appropriations and encumbrances in all governmental funds, with the exception of certain special revenue and capital projects funds, are considered lapsed at the end of the fiscal year. However, some encumbrances can be re-committed in the following year with proper approval.

The City uses the performance budgeting concept, which focuses on goals, objectives, evidence, and results, such as the City's Strategic Plan. Departments build their budget based on their prior year budget while utilizing the Budget Manual, evaluating customer priorities and the priorities of our City Council. Revenue generating departments must also include revenue estimates in their requested budget submittals. The City Manager establishes parameters for the upcoming fiscal year and provides programmatic direction to the departments in preparing their operating and capital budget requests in accordance with the City's Strategic Plan and City Council's guidance. The City Manager's Proposed Budget is filed with the City Clerk and the County Clerk in July and distributed to City Council, directors, the media, and posted on the City's website.

Review sessions and public hearings are scheduled during July and August to provide an opportunity for City Council and the citizens to ask questions, make recommendations, and gain a better understanding of the operations of each department. Budget policy dictates the budget be balanced meaning the appropriations from each fund may not exceed the resources available for the fiscal year. These resources include estimated revenues and the unassigned balance in the fund at the beginning of the year. The budget is adopted by resolution, subject to the Mayor's veto, no later than the day before the first day of the fiscal year.

Department heads are authorized to request budget transfers not to exceed \$50,000 within the same department. Budget transfers exceeding \$50,000 that are within the same department may be approved by the City Manager. The City Manager is also authorized to make budget transfers between departments not to exceed \$100,000. Budget transfers between departments exceeding \$100,000 shall require City Council approval. A budget transfer must be approved prior to the occurrence of the expenditure, except for emergency expenditures when approved by the City Manager and ratified by the City Council. The legal level of budgetary compliance is at the object level for the use of appropriations.

OPEB Plan
August 31, 2025

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Changes of assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The following are the discount rates used in each period.

Year	Discount Rate
2018	3.42%
2019	2.63%
2020	2.33%
2021	1.95%
2022	3.91%
2023	4.13%
2024	3.99%
2025	4.89%

The following changes were made to assumptions since the prior year and are all considered components of changes in inputs and assumptions.

- Discount Rate: The discount rate increased from 3.99% to 4.89%. This resulted in a decrease in the Total OPEB Liability of approximately \$15.31 million.
- Age-Adjusted Premium Rates: The age-adjusted premium rates were updated to reflect current rates. This resulted in an decrease in the Total OPEB Liability of approximately \$9.71 million.
- Retiree Contribution Rates: The retiree contributions were updated to current levels. This resulted in an increase in the Total OPEB Liability of approximately \$6.76 million.
- Medical Trend Rates: The medical trend rates were adjusted slightly which resulted in a decrease in the Total OPEB Liability of approximately \$2.73 million.

EPWater (PSB) Retirees:

The PSB retirees were excluded from this valuation because the PSB is responsible for the cost of the benefits, not the City.

Methods and assumptions used to determine the total OPEB Liability for the most recent year include:

- a. Valuation date: August 31, 2024
- b. Inflation: 2.40%
- c. Salary increases, including inflation: 3.25%
- d. Discount rate: 4.89% for 2025; 3.99% for 2024
- e. Medicare eligibility: All current and future retirees are assumed to be eligible for Medicare at age 65
- f. Mortality Rates: Mortality rates for active employees were based on the PubG.H-2010 (general employees) and PubS.H-2010 (public safety) Employee and Retiree Mortality Tables for males or females, Generational with Projection Scale MP-2021.
- f. Actuarial cost method: Entry age, level percent of pay method
- g. Amortization method: Experience gains and losses are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the OPEB plan (active employees and inactive members) determined as of the beginning of the measurement period.

CITY OF EL PASO, TEXAS
Notes to the Required Supplementary Information
El Paso Firemen and Policemen's Pension Fund

Methods and Assumptions Used to Determine Contribution Rates

Actuarial Valuation Date	January 1, 2024
Measurement Date	December 31, 2024
Actuarial Cost Method	Entry Age Normal
Amortization Method	The unfunded actuarial accrued liability is amortized over 40 years assuming current contribution rates continue.
Remaining Amortization Period	15 years for Police and 16 years for Fire
Asset Valuation Method	Investments are reported at fair value, the price that would be recognized to sell an asset in an orderly transaction between market participants at the measurement date.
Assumptions	
Inflation	2.75%
Discount Rate	7.75%
Salary Increases	2.75% plus promotion, step and longevity increases that vary by service
Investment Rate of Return	7.75% net of pension plan investment expense, including inflation
Retirement Age	<i>Base Plan</i> - Retirement upon the completion of 20 years of service and the attainment of age 45 or more. <i>Second-Tier Plan</i> - Retirement upon the completion of 20 years of service and the attainment of age 45.
Mortality	Mortality rates were based on the PubS-2010 (public safety) total dataset tables for employees and for retirees (sex distinct), projected for mortality improvement generationally using the scale MP-2020.

**COMBINING AND INDIVIDUAL
FUND STATEMENTS AND SCHEDULES**

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

FEDERAL GRANTS – This fund accounts for grants received from federal sources for transportation, human services, environmental, cultural, public safety, and homeland security activities.

STATE GRANTS – This fund accounts for grants received from state departments and agencies for transportation, human services, environmental, cultural, and public safety activities.

OTHER GRANTS – This fund accounts for grants which are not state or federal grants.

PUBLIC HEALTH GRANTS – This fund accounts for grants received from the state for public health services.

PUBLIC HEALTH WAIVER PROGRAM - This fund accounts for Medicaid waiver funding which under the state program allows for improvement in the quality of health services and the reduction of care costs. The City uses the program receipts to expand preventive health services and collaborate with community partners.

DESTINATION EL PASO - This fund accounts for the destination marketing, venue, convention and event management for the City.

ECONOMIC DEVELOPMENT - This fund accounts for activities associated with business development, redevelopment and advocacy services to the El Paso regional and international community to create jobs, increase the local tax base and expand existing businesses.

TAX INCREMENT FUNDS - This fund accounts for activities to pay for improvements in geographic areas designated as a Tax Increment Reinvestment Zone or a Transportation Reinvestment Zone. Ad valorem property taxes are redirected to each designated geographic area.

NONGRANTS – This fund accounts for funds received that are restricted by the donor (in the case of donation), City Council action, or other legislation. Funds received include donations, hotel occupancy tax, proceeds from police enforcement activities, environmental fees, park fees, animal shelter fees, repayment of business rehab loans (local program), and blended component units.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one City department to other City departments on a cost reimbursement basis.

Supply and Support – This fund accounts for the Fleet Maintenance Department which operates the City motor pool and maintains/repairs City owned vehicles. Facility Maintenance activities are also included in this fund.

Self-Insurance – This fund accounts for the financing of health benefits, workers' compensation benefits and unemployment benefits for City employees.

STATISTICAL SECTION
(unaudited)

The Statistical Section of the City’s Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information is in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time. 141

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, primarily property tax. 147

Debt Capacity

These schedules present information to help the reader assess the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. 148

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place. 156

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs. 161

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports through fiscal year 2025.

CITY OF EL PASO, TEXAS
Personal Income by Industry (continued)
Last Eight Calendar Years

Notes:

- (1) The estimates of earnings for 2017 forward are based on the 2017 NAICS.
- (2) Census Bureau midyear population estimate. BEA produced intercensal annual county population statistics for 2010 to 2019 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released county population data for 2020 through 2022, which are based on the 2020 decennial counts. BEA used the Census Bureau Das Gupta method (see <https://www2.census.gov/programs-surveys/popest/technical-documentation/methodology/intercensal/2000-2010-intercensal-estimates-methodology.pdf>), modified to account for an extra leap year day, to produce the intercensal population figures that will be used until Census releases its official intercensal population data.
- (3) Employer contributions for government social insurance are included in earnings by industry and earnings by place of work, but they are excluded from net earnings by place of residence and personal income. Employee and self-employed contributions are subtractions in the calculation of net earnings by place of residence and all of the income measures.
- (4) The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers and US residents employed by international organizations and foreign embassies.
- (5) Rental income of persons includes the capital consumption adjustment.
- (6) Includes actual employer contributions and actuarially imputed employer contributions to reflect benefits accrued by defined benefit pension plan participants through service to employers in the current period.
- (7) Proprietors' income includes the inventory valuation adjustment and capital consumption adjustment.
- (8) Under the 2007 NAICS, internet publishing and broadcasting was reclassified to other information services. Metropolitan Areas are defined (geographically delineated) by the Office of Management and Budget (OMB) bulletin no. 20-01 issued March 6, 2020.

Note. All dollar estimates are in thousands of current dollars (not adjusted for inflation). Statistics presented in thousands of dollars do not indicate more precision than statistics presented in millions of dollars.

Last updated: November 14, 2024, new statistics for 2023; revised statistics for 2019-2022
