OFFICE OF THE CITY MANAGER

Mayor John Cook City Council Members and Citizens of the City of El Paso

We submit the City of El Paso, Texas (City) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended August 31, 2005. This report was prepared by the City's staff and audited by the firm of KPMG LLP. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

Section 7.21 of the City Charter requires an annual audit by an independent certified accountant of all City accounts. The CAFR is the summary of the City's activities for the past fiscal year. We believe this CAFR is accurate in all material aspects; that it presents fairly the financial position and results of operations of the City measured by the financial activity of its various funds; and all disclosures necessary to enable the reader to gain an understanding of the City's financial affairs have been included.

This report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the City's organization chart and a list of principal officials. The financial section includes the auditors' report on the financial statements and schedules, Management's Discussion and Analysis (MD&A), Government-wide and Major Fund presentations, Notes to the Financial Statements, Required Supplementary Information and combining and individual fund statements and schedules. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. MD&A can be found immediately following the report of the independent auditors on page xvii. The statistical section includes selected unaudited financial and demographic information generally presented on a multi-year basis.

The City's management is responsible for establishing and maintaining internal controls designed to provide reasonable assurance that the assets of the government are protected from loss, theft or misuse, and that reliable accounting data are compiled to allow for preparation of financial statements in conformity with generally accepted accounting principles. The concept of reasonable assurance recognizes the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management. A goal of the independent audit is to provide reasonable assurance that the financial statements are free of material misstatements.

Additionally, because the City receives federal and state assistance, it is responsible for ensuring adequate internal control is in place to comply with applicable laws, regulations, contracts and grants related to those programs. A separate report, including a schedule of expenditures of federal and state financial assistance, findings and questioned costs and the independent auditors' report on compliance and on internal control over financial reporting is issued.

In fiscal year 2005, the City's Internal Auditor's Office reported directly to the City Manager. The internal auditor's primary responsibility is measuring and evaluating the effectiveness of the accounting and administrative controls. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The City's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Accordingly, deposits are either insured by Federal depository insurance or collateralized. All collateral on deposits is held either by the City's agent or by the depository's safekeeping department, as pledged to the City, while awaiting transfer to joint custodial account at the Federal Reserve Bank. The City's investment policy follows the provisions outlined in Texas statutes.

In addition, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund and Debt Service Fund are included in the annual appropriated budget. Project-length financial plans

are adopted for the Capital Projects Fund. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by fund, activity, and object (a summarization of specific category of expenditure type). The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Appropriation and encumbrance balances lapse at year end. However, these commitments are re-appropriated and honored during the subsequent year through a budget revision.

GENERAL INFORMATION

Location

El Paso is located in far west Texas on the international boundary between the United States and the Republic of Mexico. Situated on the Rio Grande River, the City straddles the lowest altitude all-weather pass through the Rocky Mountains. It is approximately equidistant from the cities of Houston, Texas; Denver, Colorado; and Los Angeles, California. The area comprising the City of El Paso (population 604,156), the remainder of El Paso County (population 125,635) and Ciudad Juarez, Mexico (population 1,368,175) has a population in excess of 2,097,966. El Paso is the fifth largest city in Texas and the largest American city on the border with Mexico. The City's corporate limits encompass 247.4 square miles. The City of El Paso, Texas, incorporated in 1873, operates under a Home Rule Charter with a Council-Manager form of government.

The City provides a full range of services to the general public. These services include police and fire protection; emergency medical and health services; sanitation services; public transportation; construction and maintenance of streets and infrastructure; recreational activities; and cultural events.

Financial Reporting Entity

The financial statements presented in this report conform to the reporting requirements of the Governmental Accounting Standards Board (GASB), which establishes combined statements as the required reporting level for governmental entities that present financial statements in accordance with GAAP.

The basic criterion for determining whether another governmental organization should be included in a primary governmental unit's reporting entity is accountability. Accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or the existence of a financial benefit/burden relationship (an organization which is fiscally dependent on the primary government should be included as part of the reporting entity).

These financial statements present the City of El Paso (the primary government and its component unit). The following component units, although legally separate from the City, are reported as part of the primary government:

El Paso Water Utilities

The component unit column in the entity wide financial statements (pages 1 and 2) includes the financial data of the City's component unit, El Paso Water Utilities (EPWU). City Council appoints the majority of the Public Service Board and is accountable for its operation. EPWU is reported discretely in a separate column as "Component Unit – El Paso Water Utilities".

City Employees' Pension Fund

The City contributes to the City Employees' Pension Fund which is a single-employer defined benefit retirement system established under legal authority of the City Charter and administered by the City. Although not under the direct control of the City, the City Employees' Retirement Fund serves only City and Public Service Board employees and, because of the scope of service, is included in the City's financial statements as a Trust Fund.

Firemen and Policemen's Pension Fund (FPPF)

Uniformed fire fighters and police officers participate in the FPPF, which is divided into two divisions: the firemen division and policemen division. The plan is a single-employer defined benefit retirement plan established under legal authority of State Statutes and the City Charter and is administered by a Board of Trustees (FPPF Board). Although not under the direct control of the City, the FPPF serves only City employees and, because of the scope of service, is included in the City's financial statements as a Trust Fund.

Debt Administration

During the fiscal year, the City issued \$152,190,000 in refunding general obligation bonds, \$17,315,000 in revenue bonds and \$39,500,000 in commercial paper. At August 31, 2005, the City had \$431,320,000 of debt issues outstanding for which property taxes are levied for principal and interest payments. These issues include \$262,955,000 of general obligation bonds, \$79,500,000 of commercial paper and \$88,865,000 of certificates of obligation. Additionally, the City has \$42,515,090 in revenue bonds and notes payable for which airport, bridge

system and solid waste disposal system revenues are pledged to make principal and interest payments. For more detailed information about the City's general long-term debt see Note 8 to the financial statements.

As voted by the citizens, there remained \$254,655,000 of bonds authorized but not issued available for sale as of August 31, 2005. City Council approved the issuance of \$100,000,000 in commercial paper notes to serve as interim financing until the bonds are issued. The City has issued commercial paper notes in the principal amount of \$80,000,000 as of August 31, 2005.

The debt service property tax rate during the report period was \$0.172015 per \$100 of assessed value. In 2005, the total tax rate decreased to \$0.69667; the total tax rate for fiscal years 2002 through 2004 had remained constant at \$0.719833. The 2005 operating tax rate of \$.524662 remains well within the \$1.85 tax rate limit established by the City Charter.

The City has obtained, through purchase of insurance, an "AAA" rating from Standard and Poor's and "Aaa" rating from Moody's Investors Service in its last two bond issuances.

Pension Trust Funds Operations

Two pension and retirement funds exist for the employees of the City. They are the City Employees' Retirement Plan (CEPF) and the Firemen and Policemen's Pension Funds (FPPF), which is comprised of two divisions - Firemen Division and Policemen Division. Mellon Trust Company is the custodian for all pension plan assets. An independent audit of each of the pension funds has been completed and separate reports have been issued.

The CEPF's most recent actuarial study is dated September 1, 2004 and indicates the actuarially computed value of benefits exceed fund assets by \$83,014,000. The FPPF's most recent actuarial study is dated December 31, 2003 and indicates the actuarially computed value of benefits exceed fund assets by \$258,233,000.

More detailed pension information is available in Note 14 to the financial statements and pension schedules in the Required Supplementary Information other than MD&A.

Risk Management

The City retains the risk for its general liability, police officers' liability, workers' compensation, unemployment compensation, group health, and auto liability. The City's liability for causes of action based on tort is limited by the Texas Tort Claims Act to \$250,000 per person injured or \$500,000 per incident and \$100,000 for property damage. Generally, however, there is no liability limit for causes of action based on claims for Civil Rights violations or claims arising from a breach of contract. Excluded from self-insurance are Mass Transit vehicles, liability insurance for the Airport, police auto liability, and certain other catastrophic liability occurrences. Property, casualty, boiler, and machinery insurance is provided by a commercial carrier.

ECONOMIC OUTLOOK

The City of El Paso is positioned to take advantage of tremendous growth as a result of the Military Base Realignment and Closure (BRAC) process completed in late 2005. Over 20,000 new troops and 30,000 accompanying family members are projected to become part of the City population during the next five years. The resulting seven percent increase in population will be in addition to an already healthy normal growth projection. The increase in population will spur substantial demand driven growth in all portions of the service and retail sectors of the economy.

The maquiladora industry in Cuidad Juarez and the surrounding Mexican states have achieved renewed interest and growth. As a result, greater numbers of Mexican workers are being employed and thus higher levels of expandable income are being generated. In addition, the opportunities for international trade are increased as greater demand for "just in time" manufacturing materials and components are generated on both sides of the border.

El Paso-Juarez border crossings by passenger vehicle are the highest anywhere on the U.S./Mexican Border. In excess of 10 million individuals cross into the U.S. at El Paso from Mexico each year, many of which come to El Paso for retail, recreation and entertainment purposes. As the employment and wages grow on the Mexican side of the border, so do the opportunities for greater sales revenues in El Paso.

As of the end of October 2005, 283,200 persons were employed within the El Paso Metropolitan Statistical Area out of a total Civilian Labor Force of 301,900 persons. The resulting unemployment rate was 6.2 percent, a decline of 1.2 percent from October 2004. Notable gains in employment took place in the professional and business services, retail and education/health services sectors.

Strategic planning efforts are underway within the City and the region in an effort to appropriately focus economic development and workforce efforts to attract new businesses, while expanding and retaining the current business base. The City of El Paso launched the Business First! Program in 2005 to connect existing businesses with a network of over 25 business service providers.

Given the population growth attributable to the BRAC Process, continued steady normal population growth patterns and focused business attraction and expansion efforts, the economic outlook for El Paso's future is extremely bright. Through effective strategic planning and management of resources, the City will be positioned to meet its growing service demands while maintaining a solid financial foundation and achieving its vision of "establishing El Paso as the premier community of the Southwest".

MAJOR INITIATIVES

Change in Structure - Strong Mayor to City Manager

In 2005, the City adopted a budget that reflected the change in governance approved by voters in February 2004. The people voted in the affirmative to change the City Charter to a Council-Manager form of government effective September 1, 2004. The City began its transition in August 2004 with the appointment of its first City Manager, Joyce Wilson. She officially took office in late September 2004. The 2005 CAFR reflects the changes to this new form of government.

BRAC Realignment Impact on El Paso

In 2005, the City welcomed the news of the Military Base Realignment and Closure (BRAC) process. It is anticipated that over 20,000 new troops and 30,000 accompanying family members will become part of the City population during the next five years. As a result of this new population growth, various City departments are taking steps to ensure that the City is prepared to handle the inflow of people. The Developmental and Infrastructure Portfolio acts as the liaison group between Fort Bliss and the City to ensure that lines of communication are open and the City will be able to provide necessary services as troops arrive.

Neighborhoods First

In 2005, the Neighborhood Services program for the City of El Paso announced the formation of the Neighborhood Council of El Paso (NCEP). The NCEP is an elected body of five registered neighborhood association leaders that represent the different planning areas in the City of El Paso.

The purpose of the NCEP is to review and discuss neighborhood related issues that affect the quality of life and enhancement of El Paso's neighborhoods. The NCEP will work to offer suggestions to elected officials, City staff and other city leaders as issues and concerns arise. Furthermore, the NCEP will work as a network system for all the registered neighborhood associations to ensure that communication and cooperation is being applied as issues and concerns are brought forward to the organization.

The NCEP will meet monthly and will work in collaboration with City staff to set the monthly agenda and to provide insight towards concerns that the neighborhood associations are recognizing.

Public Safety

For the third year in a row the City of El Paso has been named as the Second Safest City in the United States with a population of over 500,000 residents. El Paso was ranked as the second safest city in the United States for the first time in 2003 and again in 2004. Previously El Paso had been ranked as the third safest city for the preceding six years. This rating, developed by the Morgan Quitno Press, compares cities with a population of more than 500,000 people. Morgan Quitno Press is an independent research firm that conducts various safety studies of cities, metropolitan areas and states.

Police administration attributes this rating to community policing and the many partnerships that the El Paso Police Department has developed with the citizens, other law enforcement agencies, city departments and various civic groups throughout El Paso. Additionally, this success could not have been accomplished without the hard work and dedication of each and every El Paso Police Officer and civilian employee that work each day to make El Paso a safer place to live and work.

The Plaza Theater

A long-regarded jewel of downtown past, the Plaza Theater is undergoing a \$32.4 million renovation designed to convert this historical theater to a multi-purpose performing arts and cultural event venue. This project is a public/private partnership between the City and the El Paso Community Foundation and is scheduled for completion in March 2006.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of El Paso for its Comprehensive Annual Financial Report for the fiscal year ended August 31, 2004. This was the seventh consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both accounting principles generally accepted in the United States and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this Comprehensive Annual Financial Report was made possible by the dedicated service of the employees of the Department of the Comptroller. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. Additionally, the effort of the City's component unit (El Paso Water Utilities) and their external auditors is appreciated.

We would also like to thank the Mayor, City Council and City Department Directors for their interest and support in planning and conducting the financial operation of the City in a responsible and progressive manner.

Respectfully submitted,

ague a. Inlive

Independent Auditors' Report

To the Honorable Mayor and Members of the City Council City of El Paso, Texas:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of El Paso, Texas (the City), as of and for the year ended August 31, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Public Service Board – City of El Paso (El Paso Water Utilities), which represents 100% of the assets and revenues of the discretely presented component unit in the accompanying statement of net assets and statement of activities. We did not audit the financial statements of the Firemen and Policemen's Pension Fund (FPPF), a component unit, which represents 51% of the assets of the aggregate remaining fund information. The financial statements of El Paso Water Utilities and of FPPF were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for El Paso Water Utilities and FPPF, are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the City Employees' Pension Fund and FPPF were not audited in accordance with Government Auditing Standards. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of August 31, 2005, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated April 10, 2006 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages xvii through xxviii, the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual on page 63, and the Schedule of Funding Progress on page 64 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

CITY OF EL PASO

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of El Paso (City), we offer readers of the City's financial statements this overview and analysis of the financial activities of the City for the fiscal year ended August 31, 2005. This document is designed to:

- Provide a concise overview of the City's financial activity, comparing current year to prior year and identifying specific economic factors contributing to changes;
- Help users of the financial statements understand the relationship of the results reported in the government-wide financial statements related to governmental activities and the results reported in the major governmental funds financial statements;
- Help the reader focus on the City's financial condition as a whole, describing currently known facts, decisions or conditions expected to impact the City's financial condition and the availability of fund resources for future years; and
- Identify significant variances between the adopted budget, final budget and actual expenditures, discussing the impact of these variances on future liquidity.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities and resulting changes, it should be considered in conjunction with the letter of transmittal and the City's financial statements. The information contained in these three sections of this Comprehensive Annual Financial Report (CAFR) complements each other.

FINANCIAL HIGHLIGHTS

- On a government-wide basis, the Primary Government total assets exceeded its liabilities at August 31, 2005 by \$403.3 million. There is \$25.2 million unrestricted net asset deficit.
- The Primary Government's total net assets decreased by \$21.8 million. Governmental activities decreased net assets by \$44.8 million and increases from business-type activities totaled \$23 million.
- The Primary Government's total expenses were \$21.8 million more than the \$488.8 million generated in charges for services, grants, taxes and other revenues. The Primary Government's Net Pension Obligation increased \$14.1 million to \$61.2 million in fiscal 2005.
- The cost of the Primary Government's governmental activities was \$413.4 million for the 2005 fiscal year.
- As of August 31, 2005, the City's governmental funds reported combined ending fund balances of \$66.4 million, a decrease of \$14.4 million compared with the prior year. Approximately 66.5% of the combined fund balances or \$44.1 million is unreserved, undesignated and available for the discrete purposes for which these funds are collected.
- The unreserved, undesignated fund balance in the General Fund was \$16.7 million or 6.5% of total General Fund current year expenditures.
- In fiscal year 2005, the City issued \$56.815 million in debt to finance projects. There was a net increase of \$48.9 million in long-term liabilities from the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The CAFR includes introductory, financial and statistical sections. The financial section of the CAFR consists of three components: this discussion and analysis, the basic "liftable" financial statements and related notes to the financial statements, and the unaudited required supplementary information.

These components of the Comprehensive Annual Financial Report are graphically illustrated below:

	Introductory Section	Letter	of Transmittal, Organization	Chart, Other Introductory I	nformation				
			Management's Di	scussion and Analysis					
		Government-Wide							
		Financial	Fund Financial Statements						
		Statements							
			Governmental Funds	Proprietary Funds	Fiduciary Funds				
~	Financial Section	Statement of	Balance Sheet	Statement of Net Assets	Statement of Fiduciary				
E		Net Assets			Net Assets				
$\mathbb{C}^{\mathbf{A}}$	Section		Statement of Revenues	Statement of Revenues,	Statement of Changes				
			Expenditures and	Expenses and Changes	in Fiduciary Net Assets				
		Statement of	Changes in Fund	in Fund Net Assets					
		Activities	Balances	Statement of Cash					
				Flows					
		Notes to the Financial Statements							
			Required Supplementary Ir	าformation Other Than MD&	kΑ				

The basic financial statements include both government-wide and fund financial statements. These statements differ in scope, measurement focus and basis of accounting, as well as in the information provided. The following chart illustrates these differences:

	Government-Wide	Fur	nd Financial Statemen	ts
	Statement	Governmental	Proprietary	Fiduciary
Scope	Entire entity (except fiduciary funds)	The day-to-day operating activities of the City for basic governmental services	The day-to-day operating activities of the City for business- type enterprises	Instances in which the City administers resources on behalf of others, such as property tax and pension

Type of asset and liability information	All assets and liabilities, both financial and capital, short-term and long-term	Current assets and liabilities that come due during the year or soon thereafter; capital assets and long-term liabilities	All assets and liabilities, both financial and capital, short-term and long- term	All assets held in a trustee or agency capacity for others and all liabilities
Type of inflow and outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during the year or soon thereafter; expenditures when goods or services have been received and the related liability is due and payable	year, regardless of when cash is received	All additions and deductions during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide financial statements are designed to resemble those of private-sector entities in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government.

The *Statement of Net Assets* is designed to provide asset and liability information with the difference between the two presented as Net Assets. This statement combines governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations.

Component Units, which are other governmental units over which City Council, acting as a group, can exercise influence and/or may be obligated to provide financial subsidy, are presented as a separate column in the government-wide statements and as individual activities in the Fund Financial Statements. The focus of the statements is clearly on the Primary Government and the presentation allows the user to address the relative relationship with the Component Units.

The *Statement of Activities* is focused on both the gross and net cost of various functions (including governmental, business-type and component unit) supported by the government's general tax and other revenues. This is intended to summarize and simplify the user's analysis of the costs of various governmental services and/or subsidies to various business-type activities and/or component units.

Governmental Activities reflect the City's basic services, including police, fire, public works and community services. Property and sales taxes finance the majority of these services.

Business-type Activities reflect private sector type operations (Solid Waste, Airport, International Bridges and Mass Transit), where fees for services typically cover all or most of the cost of operations, including depreciation.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is based upon compliance with finance-related legal requirements underlying each fund. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar. The focus is now on major funds, rather than fund types.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how cash and other financial assets can readily be converted as available resources, as well as on the balances at the end of the fiscal year that are available for spending. Such information may be useful in determining what financial resources are available in the near future to finance the City's operations.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains numerous governmental funds, as needed, to insure proper accountability. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Community Development Block Grants Fund, Debt Service Fund and Capital Projects Fund, all of which are considered to be major funds. Data from the remaining Special Revenue funds are combined into a single column, titled Other Governmental Funds. Individual fund data for each of these non-major governmental funds is provided following the required supplementary information in the form of combining financial statements and schedules. These fund financial statements follow the basic financial statements in this CAFR.

Proprietary Funds

Proprietary funds are generally used to account for services for which the City charges customers—either outside customers or internal cost centers of the City. Proprietary funds provide a more detailed report of the same type of information as shown in the government-wide financial statements. The City maintains two types of proprietary funds:

- o Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its airport, mass transit, sanitation and international bridge operations.
- Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses its internal services funds to account for its employee health benefits and welfare programs, risk management, fleet services, printing and mail services. As these internal services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary funds financial statements provide separate information for the enterprise funds (i.e., El Paso International Airport, Solid Waste Management and Sun Metro (Mass Transit)) since they are considered major funds of the City. Because the International Bridges fund is the only remaining enterprise fund, it is being presented separately even though it does not meet the criteria of a major fund established in GASB Statement No. 34. All internal service funds are combined into a single aggregated presentation on the proprietary fund financial statements. Individual fund data for the internal services funds is provided in the form of combining statements and schedules.

While the total column on the business-type fund financial statements for enterprise funds is the same as the business-type column on the government-wide financial statement, the governmental major funds total column requires a reconciliation because of the different measurement focus which is reflected on the page following each statement. The flow of current financial resources will reflect bond proceeds and inter-fund transfers as other financial sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations into the Governmental Activities column in the government-wide statements.

Fiduciary Funds

Fiduciary funds are used to account for resources held by the City in a trustee capacity or as an agent for the benefit of parties outside the City, individuals, private organizations or other governmental entities. Fiduciary funds include both trust and agency type funds. Trust fund statements allow the City to present its blended component unit, the City employee's pension trust fund, as well as other private purpose trusts. Agency funds include tax office collections on behalf of the other taxing entities and the treasury fund, which acts as a clearing fund for payroll liabilities and investment earnings. While these funds represent a trust responsibility, these assets are restricted in purpose and do not represent discretionary resources of the government. Therefore, these assets are not presented as part of the government-wide financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes immediately follow the financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, the CAFR also presents certain required supplementary information. These schedules include the budgetary comparison and information concerning the City's funding of its pension benefit's obligation.

Other Information

Following the required supplementary information are additional schedules such as the combining statements referred to above in connection with non-major governmental funds, internal service funds and fiduciary funds and schedules of expenditures for capital projects.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Comparative information for the current and preceding year is presented below:

Analysis of the City's Net Assets

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of El Paso, assets exceeded liabilities by \$403.3 million at August 31, 2005.

The largest portion of the City's net assets, 80.6%, reflects its investments in capital assets (e.g. land, building, equipment, improvements, construction in progress and infrastructure), less any outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the City's net assets, 19.4%, represents resources that are subject to external restrictions on how they may be used. These restricted net assets include reserves for debt service, reserves for amounts restricted by other funding agencies, as well as a \$16 million cash reserve required by the City Charter. Restricted net assets increased 3.2% over the prior year.

Generally, all net assets generated by governmental activities are either externally restricted or invested in capital assets. Unrestricted governmental activities net assets showed a \$25.2 million deficit at the end of this year. This deficit indicates that the City has long-term commitments that exceed its net capital assets.

Unrestricted net assets in business-type activities totaled \$11.3 million, increasing \$12.4 million from 2004.

Analysis of the City's Operations

The following table provides a summary of the City's operations for the year ended August 31, 2005. Governmental activities decreased the City of El Paso's net assets by \$44.8 million offset by a increase in the business-type activities of the City of \$23 million resulting in a net asset decrease of \$21.8 million.

The total cost of all programs and services was \$510.5 million. Governmental activities cover a range of typical City services and are directly supported by charges for these services, grants and contributions. As illustrated in the following chart, without exception, these revenues are inadequate to support the cost of the services with public safety creating the greatest burden on the taxpayer. Consequently, general revenues cover any net expense after program-specific revenues are applied. These general revenues include taxes, investment earnings and gains on sales of capital assets.

The City's total revenue on a government-wide basis was \$488.8 million. Revenues for governmental activities totaled \$348.1 million. Taxes, in the form of property, sales and franchise taxes, represent 68% of the City's governmental activities revenues and charges for services make up another 15.6% with the remaining funds coming from state and federal aid, interest earnings and other miscellaneous revenues.

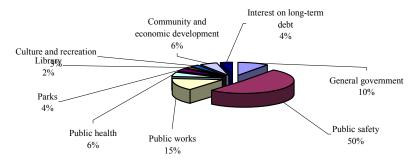

The following chart compares the City's governmental activities expenses to the prior year.

The following charts break down the City's governmental activities revenues by source and expenses by function for the current fiscal year. General revenues such as taxes and investment earnings are not reflected in program revenues but are included in the governmental activities revenues chart to illustrate their significance.

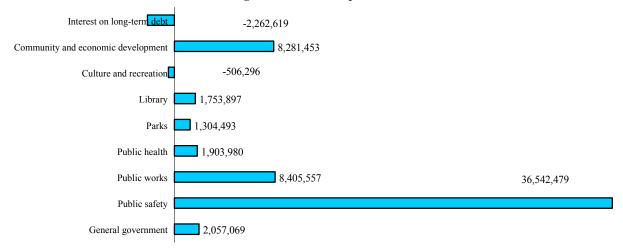

Expenses by Function - Governmental Activities

The following chart shows the change in functional expenses from the prior year.

Change in Functional Expense - Governemental Funds

Total expenses for business-type activities decreased \$8.7 million to \$97.1 million while program revenues increased \$12.8 million to \$112 million.

		Program
	 Expenses	Revenues
International Airport Operations	\$ 29,278,370	36,584,277
Industrial Park Operations and Other Operations	2,924,522	5,917,634
International Bridges	3,550,111	14,192,515
Solid Waste Management	15,498,416	28,609,380
Mass Transit	45,853,919	26,688,078
	\$ 97,105,338	111,991,884

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental funds – At the end of the current fiscal year, the City of El Paso's governmental funds reported combined ending fund balances of \$66.4 million, a decrease of \$14.4 million from 2004. Approximately 66.5% of this total amount or \$44.1 million constitutes unreserved, undesignated fund balance. The remainder of the fund balance is reserved or designated to indicate that is not available for new spending because it has already been committed (i.e., \$16 million to provide a cash reserve, \$3.1 million to provide for inventory and \$.5 million to pay for subsequent years expenditures and contingencies).

The General Fund is the general operating fund of the City. As of August 31, 2005, the fund balance for the General Fund totaled \$36.3 million, decreasing \$11,267 from the prior year. The unreserved and undesignated portion of the fund balance increased by \$.3 million, to \$16.7 million at August 31, 2005. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved and undesignated fund balance represents 6.5% of total fund expenditures, while total fund balance represents 14.1%.

The Community Development Block Grants Fund is the only Special Revenue Fund designated as a major fund for reporting purposes. These grant-related activities generated \$23.2 million in revenues for the year ended August 31, 2005 with \$32.0 in deferred revenues consisting primarily of \$32.0 in notes receivable.

Fund balance for debt service increased \$2.1 million from 2004 primarily as a result of a transfer from the General Fund of \$1.2 million.

Capital Projects Fund expenditures totaled \$82.5 million for the 2005 fiscal year. \$39.5 million in commercial paper was issued, taking advantage of the low interest rates available for these short-term arrangements along with \$17.3 million in combination tax and revenue bonds. Revenues generated amounted to \$6.3 million resulting in a fund balance decrease of \$17.9 million from the prior year.

The following schedules provide an overview of General Fund revenues by source and expenditures by function, highlighting changes from the prior fiscal year.

Revenues by Source - General Fund									
		Actuals			Revenue	Increase (Decrease)			
		2005	2004	2005	2004		\$	%

Total Expenditures	\$ 257,104,240	251,813,163			\$	5,291,077	2.10%	

Proprietary funds – The City's proprietary fund statements provide the same type of information found in the government-wide financial statements but in more detail.

Unrestricted net assets of the respective proprietary funds are shown on the Balance Sheet for these funds. The funds had a net assets increase (decrease) in 2005 and 2004 as follows:

	2005	2004
Airport	\$ 9,974,320	6,659,608
International Bridges	537,080	69,650
Solid Waste Management	8,715,938	(3,981,015)
Mass Transit	3,768,889	(3,852,757)
Net asset increase	\$ 22,996,227	(1,104,514)

GENERAL FUND BUDGETARY HIGHLIGHTS

In the General Fund, the City originally budgeted for a decrease in the fund balance of \$9 million. Actual revenues and transfers were \$4.4 million more than estimated while actual expenditures were \$6.2 million less than anticipated, resulting in a net decrease of \$11,267 in fund balance at the end of 2005.

City Council voted to reduce its property tax rate for both maintenance and operations and debt service to \$0.69667 per \$100 in value for 2005 that resulted in an increase in the amount of fund balance to be used in 2005 as compared to 2004.

In early 2004, the City adopted a new form of governance that impacted restructuring in certain departments. Significant staffing changes were delayed until the new City Manager was hired on September 1, 2004. The administration left various positions vacant during 2005 that contributed to keeping expenditures at 98% of budget.

During the year, the City made revisions to the original appropriations approved by City Council. These changes resulted in an increase in the use of fund balance from the original budget by \$1.6 million. The majority of the revisions were done to meet critical departmental needs particularly overtime for firemen.

CAPITAL ASSETS

The City of El Paso's investment in capital assets for its governmental and business-type activities as of August 31, 2005, amounts to \$799.3 million (net of accumulated depreciation).

Infrastructure Assets

General capital assets include land, improvements to land, easements, buildings, vehicles, machinery and equipment, infrastructure and all other tangible assets that are used in operations and that have initial useful lives greater than two years and exceed the government's capitalization threshold (see Note 5). The City has capitalized all purchased assets with a cost of \$5,000 or more.

Historically, a government's largest group of assets (infrastructure – roads, bridges, traffic signals) have not been reported nor depreciated in governmental financial statements. GASB 34 requires that these assets be valued and reported within the Governmental column of the Government-wide Statements. Additionally, the government must elect to either (a) depreciate these assets over their estimated useful life or (b) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. The City chooses to depreciate infrastructure assets over their estimated useful lives.

CAPITAL ASSETS AT YEAR-END (NET OF ACCUMULATED DEPRECIATION)

	Governmental Activities	Business-Type Activities	Total
	Activities	Activities	Total
Land	\$ 137,449,695	8,977,418	146,427,113

Libraries	8,833,374
Parks	8,239,964
Plaza Theatre	14,444,409
Quality of Life - Parks	6,220,157
Quality of Life - Zoo	1,556,966
Streets	526,030
Zoo	3,170,741

DEBT ADMINISTRATION

At the end of the fiscal year, the City of El Paso had total debt and notes payable of \$473,835,090. Of this amount, \$431,320,000 is comprised of bonded debt backed by the full faith and credit of the government. Bonds of \$33,930,000 and Notes Payable of \$8,585,090 are secured solely by fees for services rendered. The Notes Payable pertain to financing agreements between the City of El Paso and the State Infrastructure Bank, as well as the Federal Highway Administration to provide funding for design, construction and improvement of the International Bridges.

OUTSTANDING DEBT AT YEAR-END BONDS AND NOTES PAYABLE

	(Sovernmental Activities	Business-Type Activities	Total
General Obligations	\$	262,955,000		262,955,000
Revenue Bonds Payable			33,930,000	33,930,000
Certificate of Obligations		70,387,095	18,477,905	88,865,000
Commercial Paper		79,500,000		79,500,000
Notes Payable			8,585,090	8,585,090
Unamortized discount (premium)		13,333,579	(586,364)	12,747,215
Total	\$	426,175,674	60,406,631	486,582,305

During the fiscal year, the City issued \$152,190,000 in refunding general obligation bonds, 17,315,000 in revenue bonds, \$39,500,000 in commercial paper. Commercial paper proceeds are used to pay costs of land acquisition and improvements, construction and building improvements.

The City's General Obligation, Revenue Bonds, Certificate of Obligations, and Contractual Obligations ratings are listed below:

	Moody's Investors Service	Standard & Poor's
General Obligations	Aa3	AA
Revenue Bonds Payable	A	A-
Certificate of Obligations	Aa3	AA
Contractual Obligations	Aa3	AA
Commercial Paper	P-1	A-1+

Several of the City's Bonds are insured, thus holding a AAA credit rating from both Moody's and Standard & Poor's. The City's rating on commercial paper is the highest rating given.

Additional information on the City of El Paso's long-term debt can be found in Note 8 of this CAFR.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

According to recent reports by the Texas State Comptroller (Comptroller), the Upper Rio Grande region of Texas is expected to have stable economic growth. Unemployment rates for the City dropped from 10.3% in August 2003 to 7.5% through the end of August 2004. The annual unemployment rate for 2003 for the City was 9.7% and was 7.1% through the end of October 2004. This is in line with the overall State experience where the unemployment rate has decreased from 6.8% in August 2003 to 5.7% in August 2004.

Retail sales continue to increase for the state overall. As reported by the Comptroller, sales tax collections increased by 8% statewide through October 2004 compared to October 2003. The City of El Paso also reflected a 6.8% growth from the prior year in sales tax collection. The City also increased its bridge revenues by 8.2% by increasing its bridge fees in 2004. And although the City maintained its tax rate at the same rate as in 2003, the City was able to collect an additional 4% over the prior year due to an increase in property values.

Investment earnings have still not reached the amounts that had been earned in years prior to 2003, however, this year's decline in investment earnings was only 3% compared to last year's decline of 63%. Investments were limited to short-term investments such as government investment pools due to market conditions. Investment strategies are being reviewed to seek out additional earnings opportunities.

For 2005, the budget was prepared with a use of fund balance of approximately \$9 million or 55% of its projected fund balance at the end of August 2004. Contractual obligations, incurred for wage adjustments in the area of public safety, had the greatest impact on the 2005 budget. This has necessitated action in reducing costs and increasing revenues derived from services provided by the City. Through the recent implementation of Activity-Based Costing, certain fees have been analyzed and adjusted to adequately recover costs for providing certain services.

In February 2004, the citizenry of the City of El Paso voted to approve a change in the structure of the City government, from a strong mayor form of government to a council-manager form of government. The City Manager is the chief administrative officer of the City, responsible to the Council for the administration of all City affairs. The budget passed for 2005 approved by the Council and Mayor was the last approved under the former government structure. The 2005 budget reflected the many challenges facing the City of El Paso in the future such as growing demands for services, evidenced by an approximate 2% population increase, new funding commitments driven by the 2000 Quality of Life bond projects and increasing operating costs.

The City will attempt to adopt budgets which do not utilize excess fund balance. The 2005 budget eliminated over 100 positions across various departments. The City will strive to maintain adequate reserves while continuously searching for revenue opportunities and cost containment strategies.

REQUEST FOR INFORMATION

The City of El Paso's Comprehensive Annual Financial Report is designed to provide citizens, customers, investors and creditors with a general overview of the City's finances. It is available at the following website: http://www.elpasotexas.gov/financial_services/financial_afr.aspp. If you have questions about this report or need any additional information, contact:

	Fund balances - end of year						

CITY OF EL PASO, TEXAS RECONCILIATION OF THE STATEMENTS OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES GOVERNMENTAL FUNDS

For the year ended August 31, 2005

Change in net assets reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However,		
in the statement of activities the cost of those assets is allocated over		
their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the		
current period.		
current period.		
Capital acquisitions	70,727,856	
Depreciation	(31,149,130)	
		39,578,72
The net effect of various miscellaneous transactions involving capital assets		
(I.e., sales, disposals) is to decrease net assets.		
Cost of disposed assets	(5,691,799)	
Accumulated depreciation on disposed assets	1,215,278	
		(4,476,52
Revenues in the statement of activities that do not provide current financial		
resources are not reported as revenue in the funds.		
Deferred revenue	(485,393)	
Deferred revenue from fines and forfeits	4,066,517	
Deferred revenue from low income housing loans	32,006,880	
Property taxes	(539,569)	
		35,048,43
The issuance of long-term debt (e.g., bonds) provides current financial		
resources to governmental funds, while the repayment of the principal of		
long-term debt consumes the current financial resources of governmental		
funds. Neither transaction, however, has any effect on net assets.		
Issuance of long-term debt and commercial paper	(209,005,000)	
Repayments	19,416,716	
Face amount of debt refunded	155,875,000	
Amount deferred on refunding	5,717,470	
Unamortized bond issuance costs	1,887,141	
Premium on issuance of bonded debt	(10,228,013)	
		(36,336,68
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as		
expenditures in governmental funds.		
Increase in compensated absences	(3,049,694)	
Increase in net pension obligation	(61,201,692)	
Decrease in accrued interest expense	33,719	
Amortization of premium on bonds issued	1,369,616	(62,848,05
Internal carvice funds are used by management to observe the costs of		
Internal service funds are used by management to charge the costs of health insurance, worker's compensation, unemployment benefits,		
postage, copy center and fleet maintenance to individual funds.		
The net expense of the internal service funds is reported by function within		
governmental activities.		(1,376,78
nge in net assets of governmental activities		\$ (44,779,47

The City of El Paso, Texas (City) was incorporated in 1873. The government of the City is operated by authority of its charter exercising all powers conferred upon constitutional home rule cities in the State of Texas and exercises these powers as a municipal corporation, subject to the Constitution and the laws of the State of Texas. The city charter was amended in February 2004 to adopt a Council/City Manager form of government.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies of the City.

A. Reporting Entity

The accompanying financial statements include the City and its component unit, collectively referred to as "the financial reporting entity." In accordance with GASB Statement Number 14, as amended by GASB Statement Number 39, the component units discussed below have been included in the City's reporting entity because of the significance of their operational or financial relationship with the City.

City Employees' Pension Fund (CEPF)

Substantially all full-time employees of the City are eligible to participate in the CEPF, except for uniformed fire fighters and police officers who are covered under separate plans. The plan is a single-employer defined benefit retirement plan established under legal authority of the City Charter and administered by a Board of Trustees (CEPF Board). The CEPF Board is comprised of the Mayor, two citizens designated by the Mayor who are not officers or employees of the City, four elected City employees, a retiree and two City district representatives. Employees contribute 6.75% of their covered compensation and the City contributes 10.25% of covered compensation to the CEPF. The CEPF is included in the accompanying financial statements under Pension Trust Funds.

Firemen and Policemen's Pension Fund (FPPF)

Uniformed fire fighters and police officers participate in the FPPF, which is divided into two divisions: the firemen division and policemen division. The plan is a single-employer defined benefit retirement plan established under legal authority of State Statutes and the City Charter and is administered by a Board of Trustees (FPPF Board). The FPPF Board is comprised of the Mayor, two citizens designated by the Mayor, the Chief of Police (or his designee), the Fire Chief (or his designee), three policemen and three firemen elected by the membership of their respective divisions. Firemen contribute 15.28% and policemen contribute 11.89% of their covered compensation while the City contributes 18% of covered compensation to the FPPF. The FPPF is included in the accompanying financial statements under Pension Trust Funds.

El Paso Water Utilities (EPWU)

As specified by City Ordinance No. 752, adopted May 22, 1952, complete management and control of EPWU is vested in a five-member board of trustees known as the Public Service Board (PSB). The PSB consists of the Mayor and four residents of El Paso County, Texas. With the exception of the Mayor, all other trustees are appointed by the City Council. EPWU is reported discretely as a component unit in the accompanying financial statements and the financial information included in these statements is as of EPWU's latest fiscal year end, February 28, 2005.

A. Reporting Entity (Continued)

Financial statements for CEPF, FPPF or EPWU may be requested from the respective entity's administrative offices:

CEPF - City Employees' Pension Fund City of El Paso Employees' Pension Fund

Two Civic Center Plaza El Paso, Texas 79901

FPPF - Firemen and Policemen's Pension Fund El Paso Firemen & Policemen's Pension Fund

El Paso, Texas 79925

EPWU - El Paso Water Utilities El Paso Water Utilities

P. O. Box 511

El Paso, Texas 79961

Related Organizations

Related organizations and jointly governed organizations provide services within the City that are administered by separate boards or commissions, but the City is not financially accountable, and such organizations are therefore, not component units of the City, even though the City Council may appoint a voting majority of an organization's board. Consequently, financial information for the following entities is not included in these financial statements:

El Paso Housing Authority

The El Paso Housing Authority (Authority) is an independent organization that has a scope of public service within the geographic boundaries of the City of El Paso. Under Texas State Statutes, the responsibility for the administration and operations of the Authority is vested solely with the Authority's Board. The Authority is dependent on Federal funds from the Department of Housing and Urban Development and, as a result, is not financially dependent on the City of El Paso. In addition, the City is not responsible for any deficits incurred and has no fiscal management control.

El Paso County 911 District

The El Paso County 911 District (District) is a special communications district authorized by the 911 Emergency Act of 1983. The responsibility for the administration and operation of the District is vested solely with the District's Board of Managers. The City appoints two of the six board members. The District is not a component unit because the City has no significant influence over the management, budget or policies of the District. The District is dependent on service fees levied by the District on telephone customers within the participating jurisdictions.

Not-for-profit Corporations

The directors of each corporation are appointed by the City Council and all activity must be approved from time to time by ordinance or resolution duly adopted by the City Council.

A. Reporting Entity (Continued)

Not-for-profit Corporations (Continued)

El Paso Health Facilities Development Corporation (EPHFDC)

Incorporated September 2, 1981, under Chapter 221 of the Texas Local Government Code, for the purpose of acquiring, constructing, providing, improving, financing and refinancing health facilities in order to assist the maintenance of public health and public welfare. Its board consists of six directors who serve six-year terms of office.

El Paso Property Finance Authority, Inc. (EPPFA)

Incorporated March 10, 1987, pursuant to the Texas Non-Profit Corporation Act, for the purpose of establishing a Permanent Public Improvements Program. Its board consists of six directors who serve two-year terms or until a successor is appointed.

El Paso Housing Finance Corporation (EPHFC)

Incorporated September 10, 1979, under Chapter 394 of the Texas Local Government Code, for the purpose of providing a means of financing the costs of residential ownership and development that will provide decent, safe, affordable and sanitary housing for persons of low and moderate income. Its board consists of six directors who serve six-year terms of office.

City of El Paso Industrial Development Corporation (EPIDC)

Incorporated October 18, 1979, under Article 5190.6 of the Texas Revised Civil Statutes, for the purpose of promoting and developing commercial, industrial, manufacturing and medical research enterprises to promote and encourage employment, public health and public welfare. Its board consists of nine directors who serve six-year terms of office.

B. Basic Financial Statements

The government-wide financial statements (Statement of Net Assets and Statement of Activities) report on the City and its component unit as a whole, excluding fiduciary activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All activities, both governmental and business-type, are reported in the government-wide financial statements using the economic resources measurement focus and the accrual basis of accounting, which includes long-term assets and receivables as well as long-term debt and obligations. The government-wide financial statements focus more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statement. Exceptions are made when the elimination would distort the measurement of the cost of individual functional activities. Net interfund activity and balances between governmental activities and business-type activities are shown in the government-wide financial statements.

Services performed by one function for another are credited as operating revenue to the performing department and an operating charge to the receiving department to reflect the accurate costs of programs. The rates used are intended to reflect full costs.

Certain indirect costs have been included as part of program expenses reported for the various functional activities.

B. Basic Financial Statements (Continued)

The government-wide Statement of Net Assets reports all financial and capital resources of the government (excluding fiduciary funds). It is displayed in a format of assets less liabilities equals net assets, with the assets and liabilities shown in order of their relative liquidity. Net assets are required to be displayed in three components: 1) invested in capital assets, net of related debt, 2) restricted and 3) unrestricted. Invested in capital assets, net of related debt consists of capital assets net of accumulated depreciation reduced by the outstanding balance of any bonds, notes or other borrowings (excluding unspent proceeds) that are attributable to the acquisition, construction or improvements of capital assets. Restricted net assets are those with external constraints placed on their use by either: 1) creditors (such as through debt covenants), grantors, contributors or law or regulations of other governments or 2) by law through constitutional provisions or enabling legislation. All net assets not otherwise classified as invested in capital assets, net of related debt or restricted, are shown as unrestricted. Generally, the City would first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Reservations or designations of net assets imposed by the reporting government, whether by administrative policy or legislative actions of the reporting government, are not shown as restricted net assets on the government-wide financial statements.

The government-wide Statement of Activities demonstrates the degree to which the direct expenses of the various functions and segments of the City are offset by program revenues. Direct expenses are those that are easily identifiable with a specific function or segment. Interest on long-term debt is not allocated to the various functions. Program revenues include: 1) charges to customers or users who purchase, use or directly benefit from goods, services or privileges provided by a particular function or segment such as licenses, permits, park user fees, etc. and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, investment income and other revenues not identifiable with particular functions or segments are included as general revenues. The general revenues support the net costs of the functions and segments not covered by program revenues.

Also, part of the basic financial statements are fund financial statements for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of the fund financial statements is on major funds, as defined by GASB Statement Number 34. Although the new model sets forth minimum criteria for determination of major funds (a percentage of assets, liabilities, revenues or expenditures/expenses of the fund category and of the governmental and enterprise funds combined), it also gives governments the option of displaying other funds as major funds. The City has opted to add the International Bridges Fund as a major fund. Other non-major funds are combined in a single column on the fund financial statements.

The governmental fund financial statements are prepared on a current financial resources measurement focus and modified accrual basis of accounting. This is the traditional basis of accounting for governmental funds. This presentation is deemed most appropriate to: 1) demonstrate legal and covenant compliance; 2) demonstrate the sources and uses of liquid resources; and 3) demonstrate how the City's actual revenues and expenditures conform to the annual budget. Since the governmental fund financial statements are presented on a different basis than the governmental activities column of the government-wide financial statements, a reconciliation is provided immediately following each fund statement. These reconciliations explain the adjustments necessary to transform the fund financial statements into the governmental activities column of the government-wide financial statements.

The proprietary (enterprise and internal service) funds and fiduciary fund financial statements are prepared on the same basis (economic resources measurement focus and accrual basis of accounting) as the government-wide financial statements. Therefore, most lines for the total enterprise funds on the proprietary fund financial statements will directly reconcile to the business-type activities column on the government-wide financial statements. Because the enterprise funds are combined into a single business-type activities column on the government-wide financial statements, certain interfund activities between these funds may be eliminated in the consolidation for the government-wide financial statements, but be included in the fund columns in the proprietary fund financial statements.

C. Fund Accounting

The City uses funds to report its financial position and the results of its operations. Fund accounting segregates funds according to their intended purpose and is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts, which includes assets, liabilities, fund balances, revenues and expenditures.

The City uses the following fund categories:

Governmental Funds

Governmental funds are those through which most of the governmental functions of the City are financed. The measurement focus is based upon determination of changes in financial position rather than upon net income determination.

The City reports the following major governmental funds:

General Fund

The General Fund is the City's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. The General Fund is always a major fund in the basic financial statements.

Community Development Block Grant Fund

This fund accounts for the proceeds of Federal grants approved by the Department of Housing and Urban Development (HUD) for community development projects.

Debt Service Fund

This fund accounts for the resources accumulated for and the payment of long-term debt principal, interest and related costs of governmental funds.

Capital Projects Fund

This fund accounts for the proceeds of debt issuances, private donations and internal funding for the completion of capital construction projects and equipment purchases outside the scope of general operations.

The City reports the following non-major governmental fund:

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Proprietary Funds

Proprietary funds are used to account for the City's ongoing organizations and activities, which are similar to those found in the private sector and where cost recovery and the determination of net income is useful or necessary for sound fiscal management. The measurement focus is based upon determination of net income, changes in net assets, financial position and cash flows.

Enterprise Funds

Enterprise funds are used to account for operations that provide services to the general public for a fee. Under GASB Statement Number 34, enterprise funds are also required for any activity whose principal revenue sources meet any of the following criteria: 1) any activity that has issued debt backed solely by the fees and charges of the activity, 2) if the cost of providing services for an activity, including capital costs such as depreciation or debt service, must legally be recovered through fees and charges or 3) it is the policy of the City to establish activity fees or charges to recover the cost of providing services, including capital costs.

C. Fund Accounting

The City reports on the following major enterprise funds:

El Paso International Airport (Airport)

This fund accounts for the activities of the Airport including aviation operations and leasing activities on Airport properties.

International Bridges

This fund accounts for the operations and maintenance activities of the three international bridges it controls.

Solid Waste Management

This fund accounts for the activities of the City-operated refuse collection, transfer and storage operations.

Mass Transit

This fund accounts for the activities of the City-operated bus and para transit operations (Sun Metro).

Internal Service Funds

These funds account for photocopying, postage and fleet management services provided to other departments of the City and to other governments and organizations on a cost reimbursement basis and for the risk management activities of the self-insured health, workers' compensation and unemployment compensation programs.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations or other governmental units. The reporting focus is upon net assets and changes in net assets and employs accounting principles similar to proprietary funds. Fiduciary funds are not included in the government-wide financial statements since they do not represent assets of the City to support City programs.

Pension Trust Fund

Pension trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other post-employment benefit plans or other employee benefit plans. The City has two pension trust funds to account for the activities of the CEPF and FPPF.

Private Purpose Trust Fund

This fund is used to account for resources of various trusts, the most significant of which is the car rental tax collections used for supporting the funding of the Sun Bowl Association. All resources of this fund, including any earnings on invested resources, may be used to support activities. There is no requirement that any portion of these resources be preserved as capital.

Agency Funds

Agency funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations and other governmental units. Agency funds accounted for include property taxes collected for other taxing entities and certain payroll-related liabilities.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements present information about the City as a whole. Government-wide financial statements exclude fiduciary funds. The Statement of Net Assets and the Statement of Activities are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year they are levied. Other taxes and fees are recognized as revenue in the year they are earned. Revenue from most grants and similar items are recognized in the fiscal year the qualifying expenditure is made, if applicable, and all other eligibility requirements are satisfied.

Governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. This means that only current assets and current liabilities are generally included on their balance sheet. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers grant revenues to be available if they are collected within one year after year-end and all other revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, compensated absences, debt service expenditures, claims and judgments and arbitrage liabilities are recorded only when the liability has matured.

Revenues susceptible to accrual include property taxes, sales taxes, franchise taxes, fines and forfeits and interest earned on investments. Charges for services, licenses and permits and miscellaneous revenues are recorded when received in cash since they are generally not measurable until actually received which is the same as the date the services are rendered or the license or permits are issued.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

The reported fund balance for each fund is considered a measure of "current financial resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they present a summary of sources and uses of "current financial resources" during the period.

Special reporting treatments are applied to governmental fund inventories and prepaid expenditures to indicate that they do not represent "current financial resources", since they do not represent net expendable current assets. Such amounts are offset by fund balance reserve accounts.

Proprietary and fiduciary funds are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when incurred. These funds are accounted for on a flow of economic resources measurement focus whereby all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating items.

GASB Statement Number 20 requires that governments' proprietary activities apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins. Governments

D. Measurement Focus and Basis of Accounting (Continued)

are given the option whether or not to apply all FASB Statements and Interpretations issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements. The City has elected not to implement FASB Statements and Interpretations issued after November 30, 1989. However, EPWU has elected to implement such pronouncements.

Agency funds are custodial in nature and do not measure results of operations or have a measurement focus.

E. Cash, Cash Equivalents and Investments

Cash balances of City funds, except for all Component Units, Pension Trust Funds, a portion of the Airport relating to passenger facility charge revenue and certain agency funds, are pooled and invested. Earnings from pooled investments are allocated to funds based upon their share of pooled cash. Each fund's equity in the pooled cash and investments is presented as "Cash and Cash Equivalents" and the negative balances have been reclassified to due to/from other funds. The City reports cash in demand deposit accounts and investment pools as "Cash and Cash Equivalents."

Capital projects funded through bonds with future debt service requirements transfer all investment interest earned during the year to the Debt Service Fund if the debt covenants require the transfer. When projects are completed, any remaining cash is transferred to the debt service fund as prescribed by the debt covenants.

For both the general government and the component units, all investments with an original maturity greater than one year from date of purchase are stated at fair value based on quoted market prices as of year-end. Investments with an original maturity of less than one year are reported at amortized cost. Premiums and discounts on investments are amortized or accreted using the straight-line method, which approximates the interest method, over the terms of the related securities.

F. Inventories and Prepaid Items

Inventories of materials and supplies consist primarily of expendable items held for consumption. They are stated at the lower of cost, based on a first-in, first-out method or market for all governmental and proprietary funds and on the statement of net assets for governmental activity and business-type activity. Inventories of the Component Unit - El Paso Water Utilities are stated at the lower of average cost or market. The "consumption" method is used to account for inventories. Under the consumption method, inventory acquisitions are recorded in inventory accounts and charged as expenditures (governmental fund types) or expenses (proprietary fund types and Component Unit - El Paso Water Utilities) when used. On the government-wide statement of activities consumption of inventory is recorded as an expense.

Prepaid items, recorded in both government-wide (including Component Unit - El Paso Water Utilities) and fund financial statements are goods or services that are paid for in advance and are applicable to future accounting periods. Using the consumption method, prepaid items are recorded as expenditures (governmental fund types) or expenses (proprietary fund types) as the goods or services are used. On the government-wide statement of activities consumption of prepaid items is recorded as an expense.

G. Capital Assets

GASB Statement Number 34 requires that all capital assets, whether owned by governmental activities or business-type activities, be recorded and depreciated in the government-wide financial statements. In the governmental fund statements capital assets are not reported as they do not fit in the current financial resources measurement focus.

Capital assets, including public domain infrastructure (e.g., roads, bridges, sidewalks and other assets that are immovable and of value only to the City) are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life greater than one year. Capital assets are recorded at cost (if purchased or constructed) or estimated historical cost. Donated capital assets are recorded at estimated fair value at the date of donation.

G. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as the projects are constructed. Interest incurred during the construction phase of projects is reflected in the capitalized value of the asset constructed for the enterprise funds. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major improvements are capitalized and depreciated over the estimated remaining useful lives of the related capital assets.

Capital assets of the primary government (including Airport, International Bridges, Department of Solid Waste Management and Mass Transit funds) are depreciated or amortized using the straight-line method and the following estimated useful lives:

Land improvements	15 to 20 years
Building and improvements	5 to 50 years
Vehicles and major equipment	3 to 12 years
Data processing	3 to 5 years
Infrastructure	12 to 100 years
Other fixed assets	5 to 15 years

When fixed assets are retired from service or otherwise disposed of, a gain or loss, if any, on disposal of assets is recognized. Capital assets transferred between funds are transferred at their net book value (cost less accumulated depreciation) or net realizable value, if lower, as of the date of the transfer.

Component Unit – EPWU

EPWU utility plant in service is recorded on the basis of cost. Assets acquired through contributions are capitalized and recorded in the plant accounts at estimated fair value at date of donation. EPWU does not capitalize interest costs on assets constructed. Maintenance, repairs and minor renewals are charged to operating expense, while major plant replacements are capitalized. It is the policy of EPWU to capitalize infrastructure fixed assets.

EPWU provides for depreciation of the utility plant on the straight-line method applied to individual assets. The following estimated average useful lives are used in providing for depreciation of EPWU utility plant:

Building and shops	25 to 33 years
Vehicles and heavy equipment	5 years
Equipment and tools	3 to 33 years
Water plant	10 to 50 years
Sewer plant	5 to 50 years

H. Insurance

Activity for certain self-insurance programs is recorded in the City's Internal Service Self-Insurance Fund. Assets and obligations related to employee health benefits, workers' compensation and unemployment compensation are included in the Self-Insurance Fund.

The City is self-insured for general liability (excluding the Mass Transit Department's fleet of vehicles, liability insurance for the Airport and certain other catastrophic liability insurance). Expenditures for these liabilities are accounted for in the General Fund, which will pay any liabilities incurred.

H. Insurance (Continued)

Additionally, the City maintains insurance policies acquired from independent insurance carriers covering all structural property.

The City provides employee health and workers' compensation benefits under its self-insurance programs. Employee health and workers' compensation benefit liabilities are accrued in the Internal Service Funds based upon actuarially determined estimates of the aggregate liability for unpaid benefits. The City records all health and workers' compensation claims liabilities, including an estimate for claims incurred but not reported. In addition, the City has a stop loss policy for health claims.

The City is subject to the State of Texas Employment Commission Act. Under this act, the City's method for providing unemployment compensation is to reimburse the State of Texas (State) for claims paid by the State.

I. Deferred Revenue and Uncollectible Loans

Deferred revenue represents amounts that have been collected or billed in advance of revenue recognition criteria. It consists primarily of \$45,118,757 in deferred fines and forfeits in the General Fund and \$32,006,880 in deferred low-income housing loans in the Community Development Block Grants Fund. Notes receivable of \$37,601,544, an allowance for estimated uncollectible notes receivable in the amount of \$5,594,664 and deferred revenue of \$32,006,880 is reported for these low-income housing loans in the Governmental Funds Balance Sheet.

J. Interfund Transactions

1. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds."

2. Transactions Between Funds

Transactions between funds, which would have been treated as revenues, expenditures or expenses if they involved organizations external to the governmental unit, are accounted for as revenues, expenditures or expenses in the funds involved. Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from that fund which are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of the expenditure or expense in the fund reimbursed. All other transfers are included in the results of operations of both Governmental and Proprietary Funds.

K. Federal and State Grants

Grants and entitlements received for purposes normally financed through the general government are accounted for within the Special Revenue Funds. Revenues are recognized when the expenditures of Federal and State grant funds are made and all eligibility requirements have been met. Amounts owed to the City at August 31, 2005 for grants and entitlements are reflected as "Due From Other Government Agencies" and the City expects to collect these balances during the subsequent fiscal year.

Grants received by Proprietary Funds are reported in the applicable Proprietary Fund.

L. Compensated Absences

City employees, excluding uniformed Police Department and Fire Department employees, earn vacation leave, which may either be taken or accumulated (up to a maximum of 240 hours) until paid upon termination or retirement. For uniformed Police Department and Fire Department employees only, all unused leave and holiday hours are accumulated and paid upon termination, retirement or death.

L. Compensated Absences (Continued)

Leave benefits are accrued as a liability as the benefits are earned by employees, but only to the extent that it is probable that the City will compensate the employees through paid time off or cash payments conditioned on the employee's termination or retirement. For governmental funds, a liability for these amounts is reported only if they have matured as a result of termination or retirement. For the government-wide financial statements and enterprise fund financial statements, all of the outstanding compensated absences are recorded as a liability.

M. Long-Term Obligations, Bond Premiums, Discounts and Issuance Costs

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. In these statements, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Restrictions and Designations of Fund Balances/Net Assets

Restricted net assets (proprietary and fiduciary funds) are legally segregated for a specific use. Designated portions of fund balance (governmental funds) indicate tentative future spending plans, which may be changed and are subject to subsequent authorization before expenditures can be made. The nature and purpose of these restrictions and designations are explained below:

Restrictions

Restricted net assets of the Airport Fund were \$23,302,424 and relate to funds restricted by the FAA for future airport maintenance and for debt service requirements.

Restricted net assets of the International Bridges Fund were \$419,345 and relate to bond requirements that certain amounts be set aside for future debt service, repairs and maintenance of the Zaragoza Bridge.

Restricted for Employee Retirement

Pension trust fund balances are restricted for future payments to beneficiaries of the City Employees' Pension Fund and Firemen and Policemen's Pension Fund.

Restricted for Debt Service

The majority of fund balance has been restricted in the Debt Service Fund for future payment of debt service.

Restricted for Cash Reserve

In compliance with the City charter, the General Fund has restricted \$16,000,000 of its fund balance to be used at the discretion of the City Council, in lieu of short-term borrowing. If utilized, this cash reserve must be replenished annually.

N. Restrictions and Designations of Fund Balances/Net Assets (Continued)

Designations

Designated for Subsequent Year's Expenditures

The unreserved portion of fund balance designated for subsequent year's expenditures is the amount that has been authorized by City Council to be used in the following year's budget.

Designated for Contingencies

The City Council has designated \$500,000 for the payment of contingent claims in addition to amounts already accrued in the Enterprise and Internal Service Funds.

O. Statement of Cash Flows

For purposes of the statement of cash flows, the City considers cash and cash equivalents to be currency on hand, cash held by trustee, demand deposits with banks and all amounts included in pooled cash and investment pools. The City considers all highly liquid investments with an original maturity of approximately ninety days or less to be cash equivalents.

P. Claims and Judgments

Claims and judgments are accrued as expenditures in governmental funds for the amount expected to be liquidated with expendable available financial resources to the extent they mature each period. The entire liability for claims and judgments is reported in the government-wide financial statements and in the enterprise fund financial statements when it is probable that a liability has been incurred.

Q. Solid Waste Landfill Closure and Post-closure Cost

Solid waste landfill closure and post-closure costs are accounted for in accordance with guidelines recommended by GASB Statement Number 18, *Accounting for Municipal Solid Waste Landfill Closure and Post-closure Care Costs*. The liability, based upon landfill capacity used to date, is recorded in the Department of Solid Waste Management Enterprise Fund. An explanation of the liability and its calculation is in Note 8.

R. Fiscal-year Inconsistencies

The City's component unit, EPWU, operates on a fiscal year ending on the last day of February. Therefore, the following amounts reported by the primary government are inconsistent with amounts reported by EPWU:

Primary Government - Due From Component Unit	
Governmental funds:	
General Fund	\$ 940,153
Community Development Block Grants	2,960
Capital Projects	53,000
Proprietary funds:	
Department of Solid Waste Management	2,289,553
Due From Component Unit at August 31, 2005	\$ 3,285,666
Component unit - EPWU - Due To Primary Government - at February 28,	
2005	\$ 2,611,126

NOTE 2. DEPOSITS AND INVESTMENTS

Combined cash and cash equivalents and investments are presented below to provide an indication of the proportionate amount of cash and investments held.

	Statemen	t of Net Assets	Statement of N			
	Primary Government	Component Unit-El Paso Water Utilities (1)	Pension Trust Funds	Private Purpose Trusts	Agency Funds	Total
Cash and Cash Equivalents	\$ 116,188,923	76,653,932	22,349,602	10,429,042	1,142,125	226,763,624
Investments	\$ 125,024,434	129,399,232	1,015,954,090			1,270,377,756
Less: Investments in Mutual funds and investments with original maturities of less than ninety days included						
in cash equivalents	(120,029,934)	(66,461,646)				(186,491,580)
Total	\$ 4,994,500	62,937,586	1,015,954,090			1,083,886,176

⁽¹⁾ February 28, 2005

Pooled Cash and Investments

The City maintains a cash and investment pool that is available for use by funds, excluding component units, a portion of the Airport Fund relating to the airport passenger facility charge revenue, Pension Trust Funds (CEPF and FPPF) and a portion of Capital Projects Fund, Non-Major Governmental Funds, International Bridges Fund and Agency Funds, which are held separately. Each fund's portion of this pool is displayed on the statements as "Cash and cash equivalents." The cash and investment pool was comprised of the following at August 31, 2005:

\$ (2,700,811)
114,520,102
\$ 111,819,291

Earnings from the cash and investment pool are allocated based upon each fund's daily equity in the cash and investment pool and in accordance with the City's investment policy.

Pooled Cash and Investments (Continued)

A summary of cash and cash equivalents at August 31, 2005 follows:

	 Pooled	Non-Pooled	Total	
Primary Government:				
General Fund	\$ 25,764,833	43,844	25,808,677	
Community Development Block Grants Fund	166,175		166,175	
Debt Service Fund	2,335,519		2,335,519	
Capital Projects Fund	3,986,426	3,342,688	7,329,114	
Non-Major Governmental Funds	14,179,251	131,826	14,311,077	
Enterprise Funds				
El Paso International Airport	33,504,922	5,513,475	39,018,397	
International Bridges	338,867	5,764,091	6,102,958	
Department of Solid Waste Management	21,042,423	750	21,043,173	
Mass Transit	71,833	2,000	73,833	
Cash and Cash Equivalents - Statement				
of Net Assets			116,188,923	
Fiduciary Funds:				
Pension Trust Funds		22,349,602	22,349,602

⁽¹⁾ Insured by FDIC \$100,000. The remainder secured by a pledge of \$23,692,887 of U.S. Government securities held by an agent in the City's name.

⁽²⁾ Insured by FDIC 100,000. Remaining balance secured by a 30,000,000 surety bond.

Investments

Investments of the Primary Government at August 31, 2005 are as follows:

		Primary	
Type	Government		
Obligations of the U.S. Government:	_		Custodial Risk
\$5,000,000 par value Federal Home Loan Note - 3.03% coupon, maturing 11/09/06	\$	4,994,500	Held by City agent in City's name
External investment pools:			Credit Quality Rating
TEXPOOL	\$	19,228,157	AAAm
LOGIC		73,800,817	Aaa/MR1
MBIA		6,144,409	AAA
TexSTAR		15,346,719	AAAm
Wells Fargo Government Investment Fund		5,509,832	AAAm
	\$	120,029,934	

The City follows GASB Statement Number 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. This statement requires that governmental entities report investments at fair value and that all investment income, including changes in the fair value of investments, be reported as revenue in the operating statement. The City reports the change in fair value as "Net Increase (Decrease) in Fair Value of Investments."

The City participates in TEXPOOL, LOGIC, MBIA, TexSTAR and Wells Fargo Government Investment Fund, which are external investment pools. The State Comptroller of Public Accounts maintains oversight responsibility for TEXPOOL. This responsibility includes the ability to influence operations, designation of management and accountability for fiscal matters. LOGIC, MBIA and TexSTAR are public funds investment pools organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code and are privately managed. Although TEXPOOL, LOGIC, MBIA, TexSTAR and Wells Fargo Government are not registered with the SEC as investment companies, they operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. GASB Statement 31 allows 2a7-like pools to use amortized cost (which excludes unrealized gains and losses) rather than fair value to report net assets to compute share price. The fair value of the City's position in TEXPOOL, LOGIC, MBIA, TexSTAR and Wells Fargo Government is the same as the value of TEXPOOL, LOGIC, MBIA, TexSTAR and Wells Fargo Government shares.

Walls Force

Dollar Weighted Average Maturity			42		

The City has adopted an investment policy to minimize the inherent risks associated with deposits and investments. The primary objective of the City's investment policy is to invest funds to provide for the maximum safety of principal. After consideration of the City's safety and liquidity requirements, this policy seeks the highest possible investment return. The policy defines:

- The requirements for authorized financial institutions, depositories and broker/dealers.
- Investments authorized and prohibited.
- The maximum maturity for any single investment as three years.
- The maximum dollar-weighted average maturity for investment pools as two years.

Investments Authorized

Chapter 2256, Texas Government Code (The Public Funds Investment Act) and the City of El Paso Investment Policy authorize the City to invest in:

- A. Obligations of the United States or its agencies and instrumentalities.
- B. Direct obligations of the State of Texas or its agencies and instrumentalities.
- C. Other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies and instrumentalities.
- D. Obligations of states, agencies, counties or cities rated A or better by a national investment rating firm.
- E. Certificates of deposit that are insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation or its successor or secured by obligations described in (A) through (D) above and having a market value of at least the principal amount of the certificates.
- F. Fully collateralized direct and reverse repurchase agreements. State statutes require that securities underlying repurchase agreements must have a market value of at least 100% of the repurchase agreement's cost. Money received by the City under the terms of a reverse security repurchase agreement may be used to acquire additional authorized securities, but the term of the authorized security acquired must mature not later than the expiration date stated in the reverse security repurchase agreement.

Credit Risk, Concentration of Credit Risk and Interest Rate Risk – Primary Government, Private Purpose Trusts and Agency Funds (Continued)

Investments Authorized (Continued)

- G. SEC-regulated, no load money market mutual funds with a dollar weighted average portfolio maturity of 90 days or less, whose assets consist exclusively of securities described in (a) through (h) above and whose investment objectives include seeking to maintain a stable net asset value of \$1 per share.
- H. Local government investment pools such as the Texas Local Government Investment Pool (TEXPOOL) organized in accordance with Chapter 791, Texas Government Code (The Interlocal Cooperation Act), Local Government Investment Cooperative (LOGIC) and Texas STAR (TexSTAR), whose assets consist of the obligations described in (A) through (D) above. A public funds investment pool must be continuously rated no lower than AAA, AAA-m or at an equivalent rating by at least one nationally recognized rating service.
- I. Share certificates issued by State or Federal credit unions domiciled in Texas that are guaranteed or issued by the National Credit Union Share Insurance Fund or its successor or secured by obligations described in (A) through (D) above having a market value of at least the principal amount of the certificates.
- J. State statutes permit the City to enter into certain repurchase agreements. That is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. All sales of investments under reverse repurchase agreements must be for fixed terms. In investing the proceeds of reverse repurchase agreements, the term to maturity of the investments is the same as the term of the reverse repurchase agreement. During fiscal year 2005, the City did not enter into any reverse repurchase agreements.

Custodial Risk - Primary Government, Private Purpose Trusts and Agency Funds

The City's investment policy requires that financial institutions, broker/dealers, intermediaries and advisers must meet certain conditions and provide certain information prior to entering into investment activities with the City.

Collateralization is required for deposits in demand deposit accounts, certificates of deposit and repurchase agreements. The collateralization level is 105% of principal and accrued interest. Collateral is held in the City's name by an independent third party with whom the City has a current custodial agreement and collateral instruments are limited to those instruments identified in A. – J. above.

Credit Risk, Concentration of Credit Risk and Interest Rate Risk - EPWU and FPPF

Disclosures promulgated by GASB 40 were not required at the fiscal year end of these entities and are not included in these statements.

Cash, Investments and Security Lending - CEPF

The CEPF's investments are managed by various investment managers who have discretionary authority over the assets managed by them, within the investment guidelines established by the Board, under contracts with the CEPF. The investments are held by the CEPF's custodian in the CEPF's name. The investments are uninsured and generally consist of short-term securities, U.S. and foreign government securities, and domestic and foreign corporate debt and equity securities. Certain investment managers have invested in certain bank collective investment funds which invest primarily in U.S. corporate stocks and government bonds. The bank collective funds may also invest in foreign exchange contracts, stock index futures, and temporary collective investment funds and may enter into collateralized securities lending transactions.

Through adherence to the CEPF's Investment Rules and Regulations, management attempts to limit or mitigate certain risks. Certain of these requirements are listed below.

Bonds – The CEPF's current policies only allow for investment grade bonds. In the corporate bond portfolio, the CEPF has a minimum rating of BBB or Baa2 as minimum ratings for 80% of the bond portfolio. There is a provision for an immediate sell should the quality of the bonds dip below BBB or Baa2 for 80% of the portfolio. The remainder of the bond portfolio may be invested in BBB- or Baa3 bonds. Should these bonds fall below this grade, it triggers an immediate sale.

Mortgage-backed securities – The CEPF has adopted special investment rules with regard to mortgage-backed securities. These rules limit the duration of the purchased mortgage-related securities. Each security must satisfy a FLUX score of 15 or lower. This test must be satisfied at the time of purchase and quarterly thereafter. The average FLUX score for the portfolio's aggregate Collateralized Mortgage Obligation position shall not exceed the FLUX score of the current coupon mortgage pass-through or exceed seven years in duration. Mortgage-backed derivatives are prohibited.

Fixed income portfolios – The annual standard deviation of returns for the CEPF's domestic fixed income portfolio shall not exceed 1.33% of the annual standard deviation of the Lehman Brothers Aggregate Bond Index.

Index bond portfolios – The index must maintain a risk level, as measured by the standard deviation of quarterly returns that equals the risk of the Lehman Brothers Government Index Fund or the Lehman Aggregate Bond index if longer duration bonds are included in the portfolio.

Laddered bond portfolios – These investments are laddered in six-month increments. These instruments will be held until maturity.

Equity managers – Under current policies, equity managers cannot invest in Bank and/or insurance companies rated less than A- by S&P, cannot invest in the stock in non-public corporations, cannot invest in short sales of any type, cannot invest in letter or restricted stock, cannot invest in the use of margin, cannot invest in the entity in which the manager is employed, cannot invest more than 25% in any one industry, cannot hold more than 10% of the portfolio in any one company, and cannot hold more than 20% of the managed portfolio in American Depository Receipts.

Credit Risk, Concentration of Credit Risk, and Interest Rate Risk

At August 31, 2005 and 2004, the CEPF held corporate bonds in the aggregate fair value of \$30,270,767 and \$54,643,882, respectively. At August 31, 2005, \$21,154,236 in corporate bonds had Moody's Investment Services ratings of A or better. The remaining \$9,116,531 had ratings of BAA or better. All corporate bonds held at August 31, 2005 were rated as investment grade by Moody's Investment Services.

Cash, Investments and Security Lending – CEPF (Continued)

As of August 31, 2005, the CEPF had the following investments and maturities.

		Investment maturities (in years)						
<u>Investment type</u>	Fair value	Less than 1	1 - 5	6 - 10	More than 10			
U.S. Treasuries	\$ 38,107,251	13,179,618	17,662,378	727,870	6,537,385			
U.S. agencies	33,953,759	10,847,126	11,091,366		12,015,267			
Corporate bonds	30,270,767	562,117	12,222,902	13,574,046	3,911,702			
Mutual bond fund	41,747,755	41,747,755						
:	\$144,079,532	66,336,616	40,976,646	14,301,916	22,464,354			

The following table presents the fair value of investments that represents 5% or more of the CEPF's net assets available for benefits at August 31, 2005 and 2004. These investments are in bank collective investment funds, which consist of diversified portfolios of investments as described above.

Shares/ par_value		Fair value
51,852	\$	70,736,735
207,238		41,747,919
1,973,852		43,799,762
35,038	\$	41,214,084
187,588		36,977,046
	51,852 207,238 1,973,852 35,038	51,852 \$ 207,238 1,973,852 35,038 \$

Foreign Currency Risk

The CEPF's exposure to foreign currency risk at August 31, 2005 was as follows:

<u>Investment</u> <u>Currency</u>			Fair value
Cash and equivalents	(1)	\$	345,442
Corporate stocks	Australian dollar		1,100,628
Corporate stocks	British pound		5,764,953
Corporate stocks	European euro		8,275,881
Corporate stocks	Japanese yen		5,147,646
Corporate stocks	Swiss franc		1,557,726
Corporate stocks	Swedish krona		562,293
Corporate stocks	(2)	_	701,519
Total		\$_	23,456,088

Cash, Investments and Security Lending - CEPF (Continued)

- (1) Investments in cash and cash equivalents ranging from \$9,000 to \$93,000 were held in Australian dollars, British pounds, Danish krones, European euros, New Zealand dollars, Norwegian krones, Singapore dollars, and Swiss francs.
- (2) Investments in corporate stocks ranging from \$122,000 to \$362,000 were held in Danish krones, Hong Kong dollars, and Singapore dollars.

Security Lending Transactions

State statutes and board of trustees policies permit the CEPF to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The CEPF's custodian lends securities of the type on loan at year-end for collateral in the form of U.S. Treasury securities at 102 percent.

At year-end, the CEPF has no credit risk exposure to borrowers because the amounts the CEPF owes the borrowers exceed the amounts the borrowers owe the CEPF. The contract with the CEPF's custodian requires it to indemnify the CEPF if the borrowers fail to return the securities and if the collateral is inadequate to replace the securities lent or fail to pay the CEPF for income distributions by the securities' issuers while the securities are on loan.

All securities loans can be terminated on demand by either the CEPF or the borrower, although the average term of the loans is one week. The relationship between the maturities of the investment pool and the system's loans is affected by the maturities of the securities loans made by other entities that can use the agent's pool, which the CEPF cannot determine. The CEPF cannot pledge or sell collateral securities received unless the borrower defaults.

Fair value of securities loaned by type of investment at August 31 was as follows:

	2005	2004
U.S. government securities	\$ 49,009,485	-
Corporate bonds	872,557	2,760,227
Corporate stocks	13,733,748	21,001,052
Agency securities	11,157,857	10,965,433
Total	\$ 74,773,647	34,726,712

NOTE 3. PROPERTY TAXES

Levy, Assessment and Collection

The City's property tax is levied each October 1 on the assessed value listed as of January 1 for all real and personal property located in the City. A receivable for property taxes is recognized and recorded at the levy date. The adjusted assessed value for the roll as of January 1, 2004, upon which the 2005 levy was based, was \$19,771,024,642.

Taxes are due by January 31 following the October 1 levy date. During the fiscal year, 97.41% of the current tax levy (October 2004) was collected. The statutory lien date is January 1.

The methods of property assessment and tax collection are determined by Texas statute. The statutes provide for a property tax code, countywide appraisal districts and certain exemptions from taxation, such as intangible personal property, household goods and family-owned automobiles.

The appraisal of property within the City is the responsibility of the El Paso Central Appraisal District. The El Paso Central Appraisal District is required under the Property Tax Code to assess all property within the appraisal district on the basis of 100% of its appraised value and is prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every three years; however, the City may require more frequent reviews of appraised values at its own expense. The City may challenge appraised values established by the appraisal district through various appeals and, if necessary, legal action.

The City is authorized to set tax rates on property within the City limits. However, if the adopted tax rate for operations exceeds the effective operating rate as calculated pursuant to the property tax code for the previous year by more than 8%, qualified voters of the City may petition for an election to determine whether to limit the tax rate increase to no more than 8%.

Through a contractual arrangement, the City of El Paso bills and collects property taxes for several other governmental entities as well as the City. The City is permitted by Article II, Section 5 of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services, including the payment of principal and interest on general obligation long-term debt. Under the City Charter, a limit on taxes levied for general governmental services, exclusive of payments of principal and interest on general obligation long-term debt, has been established at \$1.85 per \$100 assessed valuation.

The tax rate to finance general governmental purposes, other than the payment of principal and interest on general obligation long-term debt, for the year ended August 31, 2005, was \$.524662 per \$100 assessed valuation. The City has a tax margin for general governmental purposes of \$1.325338 per \$100 assessed valuation and could levy \$235,526,143 in additional taxes from the assessed valuation of \$19,771,024,642 before the legislative limit is reached.

Property taxes that are measurable and available (receivable within the current period and collected within the current period or within 60 days thereafter to be used to pay liabilities of the current period) are recognized as revenue in the year of levy. Property taxes that are measurable, but not available, are recorded, net of estimated uncollectible amounts, as deferred revenues in the year of levy. Such deferred revenues are recognized as revenue in the fiscal year in which they become available.

The balance of delinquent property taxes receivable and property tax assessments included in deferred revenues are as follows:

		General Fund				
	Aus	gust 31, 2005	August 31, 2004			
Property Taxes Receivable	\$	8,158,849	8,254,224

Community and economic development	29,233
Total Depreciation Expense - Governmental Activities	31,149,130
Internal Service Funds	 62,871
Depreciation Expense	\$ 31,212,001

¹ The capital assets of Internal Service Funds are included in governmental activities. In fiscal year 2005, Internal Service Funds capital assets decreased by \$8,209 (additions of \$18,099 and reductions of \$26,308) resulting in an ending balance of \$1,737,096. Depreciation expense of \$62,871 resulted in an ending accumulated depreciation balance of \$1,449,480 to arrive at a net book value of \$287,616.

Total capital assets, being depreciated		989,611,946	60,945,480	1,792,073	1,048,765,353
Less accumulated depreciation		396,358,881	32,149,076	1,792,073	426,715,884
Component unit capital assets, net	\$	749,421,117	133,096,020	55,374,459	827,142,678

Land not in service is essentially unimproved land that EPWU has purchased for its surface and ground water rights and for watershed management and source water protection.

Construction in progress in the component unit represents additional water treatment and wastewater plants and a management information system. EPWU restated its fiscal year 2004 financial statements to properly present interest expense related to construction projects that was eligible for capitalization. The effect of this adjustment was to increase total capital assets and net assets by \$1,035,370 and is reported as a prior period adjustment in the Statement of Activities.

The component unit was committed to open contracts relating to construction projects totaling \$184,754,632 as of February 28, 2005.

NOTE 6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

A. Interfund Receivables and Payables

Interfund receivable and payable balances at August 31, 2005 were as follows:

	G			
		Other	Internal	
	Capital	Governmental	Service	
Due To:	Projects	Funds	Funds	Total
Governmental Activities:				
General Fund	\$ -		1,876,839	1,876,839
Other Governmental Funds		1,902,385		1,902,385
Internal Service Funds	15,731			15,731
Total Governmental Activities	15,731	1,902,385	1,876,839	3,794,955
Business-type Activities:				
International Bridges	150,000			150,000
Department of Solid Waste Management	1,260,940			1,260,940
Total Business-type Activities	1,410,940	<u> </u>	<u> </u>	1,410,940
Total	\$ 1,426,671	1,902,385	1,876,839	5,205,895

The balance of \$1,426,671 due from Capital Projects Fund is the result of management's decision to record certain proceeds from debt issued to acquire capital assets for proprietary funds in the Capital Projects Fund. Liquidation of these balances occurs when management decides to acquire capital assets in the respective proprietary fund.

The balances of \$1,876,839 due from Internal Service Funds and \$1,902,385 due from Other Governmental Funds are the funds overdraft in the pooled cash and investment pool. The City intends to repay this balance in the next fiscal year.

NOTE 6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (Continued)

B. Transfers

Transfers are made as required by the annual budget resolution or subsequent City Council action. Interfund transfers made during the year were as follows:

NOTE 7. OPERATING LEASES

A. Primary Government

The City, as lessee, leases buildings, office space and equipment under various lease agreements. Generally, these lease agreements provide for cancellation in the event the City Council does not appropriate funding in subsequent fiscal years. Therefore, the City is not obligated beyond each fiscal year. Management expects the leases to continue. These leases are treated as operating leases for accounting purposes. Operating lease expenditures for the year ended August 31, 2005 amounted to \$3,146,685.

Additionally, the City, as lessor, leases certain buildings and equipment under various monthly lease agreements, which are cancelable.

A substantial portion of the airport terminal building and other areas are leased to third parties through operating leases. The majority of these include certified passenger airline leases, commercial and noncommercial aviation ground leases, industrial site leases, auto rental concession leases and food and beverage concession leases. These leases are for varying periods and require the payment of minimum annual rentals. Leases with concessionaires also require payment of percentage rents based on sales in excess of stipulated amounts. Rental income in connection with these operating leases and various other monthly rental agreements for the year ended August 31, 2005, was \$15,212,493 including percentage contingent rents of \$2,896,571.

The following is a schedule of airport revenue from future minimum rentals on non-cancelable operating leases as of August 31, 2005:

YEAR ENDING	
2006	\$ 11,218,526
2007	7,610,010
2008	6,056,411
2009	5,840,947
2010	5,650,420
2011 - 2015	27,883,188
2016 - 2020	27,336,053
2021 - 2025	19,861,392
2026 - 2030	11,882,104
2031 - 2035	7,389,731
2036 - 2040	1,971,263
2041 - 2045	 467,419
TOTAL	\$ 133,167,464

Historical costs of these leased assets and related accumulated depreciation were \$106,873,246 and \$36,652,005 respectively, as of August 31, 2005.

NOTE 7. OPERATING LEASES (Continued)

B. Component Unit - EPWU

1. Leasing Arrangements with EPWU as Lessor

EPWU, as lessor, leases real properties under various long-term lease agreements under the operating method of accounting for leases. Minimum future rentals to be received on non-cancelable leases as of February 28, 2005 for each of the next five years and in the aggregate are:

Year Ended the last day of February	 Amount
2006	\$ 1,171,381
2007	1,108,284
2008	1,001,042
2009	890,379
2010	842,030
2011 and thereafter	 8,970,704
Total Minimum Future Rentals	\$ 13,983,820

2. Leasing Arrangements with EPWU as Lessee

EPWU leases computer equipment and copiers under various long-term lease agreements under the operating method of accounting for leases. Rental expense for the year ended February 28, 2005 was \$349,738. Minimum future payments as of February 28, 2005 for each of the next five years and in the aggregate are:

Year Ended the last day of February	_	Amount
2006	\$	297,573
2007		149,818
2008		59,029
2009		13,728
	\$	520,148

NOTE 8. LONG-TERM OBLIGATIONS

A. Primary Government

1. General Obligation Debt - Capital Projects Funding

The Capital Projects Fund is used to account for the acquisition and construction of general government capital assets. Capital projects are funded primarily by the issuance of general obligation debt, other tax supported debt and intergovernmental revenues.

General obligation debt, which includes general obligation bonds, certificates of obligation and contractual obligations, is collateralized by the full faith and credit of the City and is reported as an obligation in the Statements of Net Assets, Governmental and Business-type Activities. The City intends to retire its general obligation debt, plus interest, from future ad valorem tax levies and is required by ordinance to create from such tax revenues a sinking fund sufficient to pay the current interest due thereon and each installment of principal as it becomes due. The tax rate to finance the payment of principal and interest on general obligation long-term debt for the year ended August 31, 2005 was \$.172015 per \$100 assessed valuation.

The City Charter states that all indebtedness of the City that is supported by property tax shall not exceed ten percent of the total assessed valuation of the City's tax rolls. Ten percent of the fiscal year 2005 total assessed valuation base equals approximately \$1,983,249,286. The City's legal debt margin was \$1,549,304,299. General obligation debt sold to fund fixed assets of proprietary funds is reported as an obligation of these proprietary funds, although they are not obligated by the applicable bond indentures to repay any portion of principal and interest on outstanding general obligation debt. However, the City intends for the proprietary funds to meet the debt service requirements.

There are a number of limitations and restrictions contained in the various general obligation bond indentures. The City believes it is in compliance with all significant limitations and restrictions.

2. Revenue Bonds

The City issues revenue bonds for which income derived from the assets acquired or constructed with the debt proceeds are pledged to repay the principal and interest on bonds. The bond ordinances for the Zaragoza Bridge revenue bonds contain limitations and restrictions, including but not limited to the establishment of a sinking fund equal to 1.25 times the average annual debt service on the bonds. A reserve of net assets in the amount of \$419,345 in the International Bridges Fund has been established to comply with that requirement. The bond ordinance for the Plaza Theatre combination tax and revenue certificates of obligation bonds pledges revenues of the International Bridges Fund. The City believes it is in compliance with all significant limitations and restrictions of its revenue bond ordinances

3. Notes Payable

The City has received loans in the International Bridges Fund for which income derived from the assets acquired or constructed with the loan proceeds are pledged to repay the principal and interest on loans. These loans are repayable from bridge tolls collected by the City and are not repayable from general revenues of the City.

A. Primary Government (Continued)

4. Long-Term Debt

The following summarizes significant facts about general obligation bonds, certificates of obligation, contractual obligations, revenue bonds and notes payable:

	Intere		
	at Issue date	August 31, 2005	Amount
Governmental activities	2.50 - 8.00%	2.50 - 7.00%	\$412,842,095
Business-type activities	3.00 -6.00%	3.30 - 5.00%	60,992,995
			\$473,835,090

5. Bonded and Other Indebtedness Issued during Fiscal Year Ended August 31, 2005

- a. In fiscal year 2005, the City issued \$39,500,000 of commercial paper for projects approved by the 2000 election that authorized the issuance of general obligation bonds. Ultimately, the City will issue general obligation bonds to liquidate the commercial paper debt, \$79,500,000 as of August 31, 2005. The commercial paper bears interest at rates from 1.00% to 2.95%.
- b. On April 1, 2005, the City issued \$152,190,000 in general obligation bonds to advance refund \$155,875,000 in outstanding obligations (\$111,955,000 of various certificate of obligation bonds and \$43,920,000 of various general obligation bonds). The net proceeds of \$160,486,753 and \$1,508,975 of Debt Service Fund monies were deposited in an irrevocable trust with an escrow agent. The trust agreement required the escrow agent to invest in essentially risk free U.S. Government securities sufficient to provide for future debt service requirements. As a result, the bonds are considered to be defeased and the liability is no longer reported.

The refunding bonds, issued at a premium of \$9,643,995 with issuance costs of \$1,697,240, were issued in order to lower the overall annual debt service requirement of the City and pay the costs associated with the bonds. The City in effect reduced its aggregate debt service payments by \$6,664,710 and obtained an economic gain of \$6,153,130. The accounting loss of \$5,928,560 has been deferred in the government-wide financial statements and will be amortized over the remaining life of the refunded bonds using a method approximating the effective interest method.

The premium and issuance costs have been deferred in the government-wide financial statements and will be amortized over the remaining life of the refunded bonds using a method approximating the effective interest method. These bonds bear interest at rates ranging from 3.50% to 5.25%. Principal repayment began August 15, 2005 and the final principal payment is due on August 15, 2019.

c. On August 23, 2005, the City issued \$17,315,000 of combination tax and revenue certificates of obligation bonds to finance the renovation of the Plaza Theater and to pay costs associated with the issuance of the certificates. These bonds bear interest at rates ranging from 2.95% to 5.00% with principal repayment beginning August 15, 2007. The final principal payment is due on August 15, 2026. The bonds are payable from Net Revenues of the City's International Bridges and ad valorem tax levies. The bonds were issued at a premium of \$584,019 with issuance costs of \$260,810. These amounts have been deferred in the government-wide financial statements and will be amortized over the life of the new bonds using a method approximating the effective interest method.

8. Advanced Refundings and Defeased Debt

In prior years, the City legally defeased certain outstanding general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments of the old bonds. Accordingly, the trust accounts and the legally defeased bonds are not included in the City's financial statements.

At August 31, 2005, the remaining outstanding balance of legally defeased bonds is \$158,450,000.

2020 - 2024		70,065,000		15,375,178		85,440,178	-	
2025 - 2029		28,760,000		2,644,610		31,404,610		
Totals	\$	359,719,000	12,355,828	190,176,913	4,264,268	549,895,913	16,620,096	

4. Land Notes Payable

During the fiscal year ended February 28, 2005, EPWU purchased one parcels of land totaling 3,004.33 acres in order to obtain the water rights attached to the land. A note was issued for \$2,478,574 with an interest rate of 5.00%. The note is for a period of 3 years and payable in annual installments of \$826,191 with payments due in May.

5. Debt Covenants

The bond ordinances require EPWU to maintain revenues in each fiscal year, after deduction for maintenance and operation expenses, in the amount of at least 1.5 times the debt service requirements in such year. EPWU believes it is in compliance with this covenant.

6. Commercial Paper

In August 1997, the PSB-City of El Paso approved a Commercial Paper Program in the amount of \$50,000,000. The purpose of the Commercial Paper Program is to provide funds for the interim financing of a portion of the costs of capital improvements to the system.

The borrowings under the Commercial Paper Program are equally and ratably secured by and are payable from (i) the proceeds from the sale of bonds or additional borrowing under the Commercial Paper Program and (ii) borrowing under and pursuant to the revolving credit agreement.

EPWU and JP Morgan Chase Bank (Bank) have entered into a revolving credit agreement (Credit Agreement) pursuant to which the Bank is obligated under the Credit Agreement to loan to the City amounts not to exceed \$50,000,000 as amended, for the purpose of paying amounts due on the Commercial Paper Program. Any borrowing under the Credit Agreement is equally and ratably secured by and payable from the above-described sources pledged for payment of the Commercial Paper Program and from a pledge of the net revenues of the system, such pledge being subordinate to the pledge of net revenues securing all senior lien obligations. Management intends to continue the re-marketing of the tax-exempt commercial paper notes as it intends to maintain a portion of its debt in variable rates.

6. Commercial Paper (Continued)

Since the commercial paper represents activity that is the result of EPWU's long-term financing plan, the amounts outstanding are presented as long term. The commercial paper can be sold in \$100,000 increments and matures from one to 270 days. As of February 28, 2005, the following amounts were outstanding:

Feb	ruary 28, 2005	Maturity Date	Interest Rate
\$	10,875,000	March 2, 2005	1.87%
	2,125,000	March 3, 2005	1.83%
	2,000,000	March 1, 2005	1.89%
\$	15,000,000		

C. Solid Waste Landfill Closure And Post-Closure Care Cost

The City owns and operates two landfills located in the East (Clint) and Northeast (McCombs) areas of the City of El Paso. Closure and post-closure care of the landfills are subject to the requirements of Subtitle D of the Resource Conservation and Recovery Act (P.L. 94/580) and Sections 330.250-256 of Title 30 of the *Texas Administrative Code* administered by the Texas Commission on Environmental Quality (TCEQ), formerly the Texas Natural Resource Conservation Commission (TNRCC). These regulations require the City to place a final cover on each landfill when it ceases to accept waste and to perform certain maintenance and monitoring functions for thirty years after the closure of each landfill.

During fiscal year 2004, the City hired independent consultants to prepare a revised estimate of the total closure and post-closure costs for the landfills. The estimated total closure and post-closure costs, adjusted by an inflation factor specified by the TCEQ, is \$57 million at August 31, 2005. This estimate is approximately \$9 million lower than the previous estimate primarily due to changes in final cover design. The recognized portion of the total liability, \$18.3 million, is computed based on the percentage of landfill capacity used, approximately 33.3%, as of August 31, 2005. The remaining estimated total current cost of closure and post closure care remaining to be recognized is \$38.7 million.

<u>Clint Landfill</u> – This landfill is currently accepting solid waste and capacity used is 37.8% at August 31, 2005. The estimated closure and post-closure cost liability of \$12.8 million is included in the recorded liability. A permit application to TCEQ for additional landfill capacity is pending.

<u>McCombs Landfill</u> – This landfill is currently accepting solid waste and capacity used is 26.6% at August 31, 2005. The estimated closure and post-closure cost liability of \$5.5 million is included in the recorded liability. Estimated remaining useful life is 35 years.

TCEQ review of the revised closure/post-closure cost estimate is pending. Management believes TCEQ will accept the new estimate. At August 31, 2005, the estimated total liability is \$57 million, reflecting an inflation factor applied to the previous liability as prescribed by TCEQ.

Actual costs may be higher due to inflation, changes in technology or changes in regulations. The Department of Solid Waste Management, an enterprise fund and part of the City will meet closure and post-closure care financial requirements.

Sections 330.280-286 of Title 30 of the *Texas Administrative Code* requires landfill owners to demonstrate financial assurance that they will have sufficient financial resources to satisfy closure and post-closure care expenses at such time as these become payable. The regulations provide various means by which a municipality may demonstrate financial assurance. For the year ended August 31, 2004, the City met all of the financial tests required by the TCEQ and will demonstrate financial assurance to the TCEQ by way of the City's most recent bond rating and/or financial ratios computed using the audited financial statements of this Comprehensive Annual Financial Report.

D. Solid Waste Management Transfer Station

The City owns and operates a transfer process facility for solid waste near Delta Street in El Paso (called Delta Transfer Station). Beginning in March 2000, Section 330.282 of Title 30, the *Texas Administrative Code*, administered by the TCEQ, required "a detailed written cost estimate, in current dollars, showing the cost of hiring a third party to close the process facility by cleaning up the litter and debris from the site and the equipment, hauling the litter and debris to an approved landfill and to render the facility closed by dismantling vital operational parts and locking up the facility." At August 31, 2005, the estimated total cost of closure of the Delta Transfer Station is \$92,972. The TCEQ, pending review and acceptance of this estimate, utilizes the previous estimate of \$275,705.

E. Arbitrage Rebate Payable

The City's financial advisor has determined that the City may have earned interest revenue on unused bond proceeds in excess of amounts allowed by applicable Federal regulations that may have to be rebated to the Federal government. This estimated amount, \$30,227 at August 31, 2005, is recorded as a liability in the Basic Financial Statements.

NOTE 9. RESTRICTED NET ASSETS

Airport

The Airport has various assets that are restricted for specific use in accordance with an agreement with the United States Government entered into in 1950 whereby 1,907 acres of land were donated to the Airport. Any revenues derived from the sale, lease or other use of this land must be utilized for the development, improvement, operation and maintenance of the Airport subject to the approval of the Federal Aviation Administration. Earnings from invested funds may be used for the purposes previously described. Under this agreement, advances to other Airport funds for development and improvement of Airport facilities are permitted, subject to approval from the Federal Aviation Administration.

International Bridges

The International Bridges Fund is required by bond debt requirements to restrict certain amounts for future debt service, repairs and maintenance of the Zaragoza Bridge.

Component Unit - EPWU

Based upon certain bond covenants and other requirements, EPWU is required to establish and maintain prescribed amounts of resources (consisting of cash and temporary investments) that can be used only to service outstanding debt and other activities specifically restricted (construction, improvements and customer deposits).

Business-type Activities

The balances of the restricted net assets accounts in the enterprise funds are as follows:

Restricted for debt service:					
El Paso International Airport	\$	7,915,026			
International Bridges		419,345			
Restricted by Federal Aviation Administration:					
El Paso International Airport		12,169,214			
Restricted for passenger facilities:					
El Paso International Airport		3,218,184			
Total restricted net assets	\$	23,721,769			

NOTE 10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends including frequency and amounts of payouts and other economic and social factors, including the effects of specific, incremental claim adjustment expense, salvage and subrogation.

A. Internal Service Funds

Provisions under various types of risk are presented below:

Internal Service Funds account for certain self-insured activities. These include Workers' Compensation, Group Health and Unemployment Compensation. The premiums are recognized as revenues in the Internal Service Funds and as expenditures or expenses in the Governmental and Proprietary fund types, as appropriate. Accruals for unpaid claims and claims incurred but not reported are reflected in the accompanying Basic Financial Statements as Claims and Judgments. This provision is based upon City experience, including recoveries, since the inception of the insurance programs and represents the loss and an allocated loss expense. The total estimated claims payable at August 31, 2005 is \$18,332,788 of which \$13,344,331 represents workers' compensation claims reserve losses. Employees of EPWU (the proprietary component unit) also participate in the group health plan that is managed by the City. The total claims liability reported in the Internal Service Funds at August 31, 2005, is based on the requirements of GASB Statement Number 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. No settlements in excess of insurance coverage were made in any of the prior three fiscal years.

Changes in the Funds' claims liability amount in fiscal 2004 and 2005 were:

	Workers' Compensation	Group Health	Unemployment Compensation	Total	
Claims liability at August 31, 2003	\$ 14,209,155	4,205,000		18,414,155	
Incurred claims	8,148,489	26,415,650	262,770	34,826,909	
Payment on claims	(8,979,190)	(26,399,531)	(262,770)	(35,641,491)	
Claims liability at August 31, 2004	13,378,454	4,221,119	-	17,599,573	
Incurred claims	8,755,629	31,529,874	266,890	40,552,393	
Payment on claims	(8,789,752)	(30,762,536)	(266,890)	(39,819,178)	
Claims liability at August 31, 2005	\$ 13,344,331	4,988,457		18,332,788	

B. General Liability Insurance

The City is self-insured for general, police officers and automobile liability, with the exception of the Mass Transit Department's fleet of vehicles, liability for the Airport, police auto liability and certain other catastrophic liability for which the City is insured. Expenditures for self-insured liabilities are accounted for in the General Fund, which will pay any liabilities incurred.

The City has joined together with other governments in the Texas Municipal League Intergovernmental Risk Pool (Pool). The City pays an annual premium to the Pool for its police auto and motor pool vehicles insurance coverage. The interlocal agreement with the Pool provides that the Pool will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$500,000 to \$1,000,000 for each insurance event. The City anticipates no contingent losses.

The Pool has published its own financial report that can be obtained from the Texas Municipal League Intergovernmental Risk Pool, Austin, Texas.

The City continues to carry commercial fidelity bonds for elected officials and for management.

NOTE 10. RISK MANAGEMENT (Continued)

C. Property and Casualty Insurance

Property, casualty, boiler and machinery insurance is provided by a commercial carrier.

D. Workers' Compensation Insurance

The City self-insures against workers' compensation claims.

E. Group Health and Life Insurance

The City maintains a group health insurance plan for active and retired employees and their eligible dependents through two self-insured plans of benefits. Texas Municipal League administers one plan and Access HealthSource, Inc administers a second plan. Reinsurance coverage limits the annual liability. Contributions to the fund are provided by both the City and participating employees. A commercial carrier provides the group life insurance plan. Costs are recorded in the fund from which the employees' compensation is paid.

F. Unemployment Compensation Insurance

The City self-insures for unemployment compensation claims through an agreement with the Texas Workforce Commission (TWC). Under the agreement, TWC administers all claims and is reimbursed by the City for claims incurred plus administrative charges.

NOTE 11. COMMITMENTS AND CONTINGENCIES

A. Litigation and Claims

Various claims and lawsuits are pending against the City in addition to those accrued at August 31, 2005. Accruals have not been made for these lawsuits because of the remote possibility the plaintiff's will prevail. The City estimates the exposure between \$425,000 and \$730,000 and believes that resolution of these matters will not have a material adverse effect on the financial condition of the City.

B. Environmental

In May 1991, diesel fuel was discovered to be leaking from underground storage tanks at the City's bus maintenance facility. City management believes the leak began during 1990, with over 875,000 gallons of diesel fuel leaking into and contaminating the soil and water table surrounding and underneath the maintenance facility. The TCEQ was notified of the leak and clean up procedures began. The TCEQ is monitoring the clean up process, which involves five phases, including the assessment phase and four product recovery and soil remediation phases.

The estimated total clean up cost for the entire project is \$7,280,109. The City has expended approximately \$4,360,855 to date, net of reimbursement from the TCEQ Petroleum Storage Tank Remediation Fund of approximately \$1,997,500. The City paid \$104,361 during the current fiscal year. The City anticipates the clean up process will be completed in fiscal year 2006. As of August 31, 2005, the City has a liability recorded in the Mass Transit Fund of \$921,754 for the remaining liability.

Due to the uncertainties surrounding this type of clean up project, it is possible that actual clean up costs may be higher than estimated.

C. Grants

The City has received Federal and State financial assistance in the form of grants and entitlements that are subject to review and audit by the grantor agencies. Such audits could result in requests for reimbursement by the grantor agency for expenditures disallowed under terms and conditions specified in the grant agreements. In the opinion of City management, such disallowances, if any, will not be significant.

D. Mass Transit - Financial Management Oversight Review

As part of the Federal Transit Administration's review and audit process as a Federal grantor, a Financial Management Oversight Review of Mass Transit was requested and is in process for fiscal 2005. The preliminary report states that Mass Transit did not appear to have any local funding available to match the approximate \$19.6 million in Federal funding received and therefore has questioned the entire amount. In the opinion of City management, local match is adequate and was utilized appropriately in order to qualify for the approximate \$19.6 million in Federal grants.

NOTE 11. COMMITMENTS AND CONTINGENCIES (Continued)

E. Other Bond Issues

The City has, in prior years, participated in several issues of Industrial Revenue Bonds and International Airport Special Facilities Revenue and Refunding Bonds, issued for the purposes of constructing privately owned manufacturing, commercial and other related facilities within the City. These bonds are neither direct nor contingent liabilities of the City, as the revenue from the lease agreements and property purchased with the bond proceeds are pledged for the total payment of the principal and interest on the bonds and the bondholders can look only to these sources for repayment.

At August 31, 2005, no Industrial Revenue Bonds issued by the City were outstanding.

On November 19, 1991, the City issued \$13,975,000 in City of El Paso International Airport Special Facilities Revenue Refunding Bonds (Marriott Corporation Project). These bonds refunded a 1981 issue and extended principal payments to March 1, 2016 with interest at 7.75% per annum. At August 31, 2005, all of these bonds remained outstanding (the first principal payment is not scheduled until March 1, 2012).

F. Unfunded Pension Liabilities

In February 2004, the voters of the City authorized the City to contract with the FPPF to make a one-time contribution to the FPPF solely for the purpose of addressing the unfunded liabilities of the FPPF, subject to receipt of certain agreements between the City and the FPPF. As of January 1, 2004, the latest actuarial valuation reflected unfunded liabilities of \$135,767,625 for the FPPF-Firemen Division and \$122,464,946 for the FPPF-Policemen Division.

In September 2003, the voters of Texas ratified an amendment to the Texas Constitution, Article 16, Sec. 66 which provides: "The political subdivision or subdivisions and the retirement system that finance benefits under the retirement system are jointly responsible for ensuring that benefits under this section are not reduced or otherwise impaired." In the event of a conflict between a City Charter provision and a provision of the Constitution, the Constitution provision would likely prevail, in which case the City could be obligated to make additional contributions to the FPPF. The nature and amount of under funding of the FPPF and the amount the City may be required to contribute is unknown at this time.

NOTE 12. COST SHARING ARRANGEMENTS

City-County Health District

The City participates with the County of El Paso, Texas in an agreement for the operation of the City-County Health District (Health District). As lead agency, the City is responsible for the planning, budgeting and operation of the Health District. The City provides personnel, financing and accepts Federal and State grants on behalf of the Health District. The County reimbursed the City \$2,148,899 in fiscal year 2005.

The City holds title to the Health District's assets and the Health District's operations are reported in the General Fund of the City.

NOTE 13. POST-EMPLOYMENT HEALTH CARE BENEFITS

In addition to providing pension benefits, the City provides certain health care benefits for retired employees. Substantially all of the City's employees may become eligible for those benefits if they reach normal retirement age while working for the City. Retirees pay premiums ranging from \$156.47 per month to \$761.99 per month depending on the coverage elected. The City's adopted budget policy is that retirees must pay 50% of the cost of coverage. The cost of retiree health care benefits is recognized as an expense in the Internal Service Self-Insurance Fund as liabilities are incurred. Of 2,871 retirees eligible, there were 950 retirees covered under this plan at August 31, 2005. Dependent coverage was provided for 382 of the retirees. Total benefits paid to retirees during fiscal year 2005 were \$6,824,632.

NOTE 14. PENSION PLANS

The employees of City of El Paso and EPWU participate in one of two single-employer defined benefit pension plans: the City Employees' Pension Fund (CEPF) and the Firemen and Policemen's Pension Funds (FPPF), which consists of separate divisions for firemen (FPPF-Firemen Division) and policemen (FPPF-Policemen Division). Separate boards of trustees administer these pension plans as described in Note 1. The CEPF was established in accordance with authority granted by Chapter 2.64 of the El Paso City Code and is reported as a blended component unit of the City. The FPPF was established in accordance with authority granted by Article 6243b of *Vernon's Annotated Texas Statutes* and is not a component unit of the City. Each pension plan issues stand-alone financial statements that may be obtained from the respective funds' administrative offices.

Firemen and Policemen's Pension Funds 8201 Lockheed Drive

Membership of each plan consisted of the following:

	August 31, 2005	December 31, 2004	
		FPPF-	FPPF-
		Firemen	Policemen
	CEPF	Division	Division
Retirees and beneficiaries receiving benefits	1,669	528	674
Terminated plan members entitled to but			
not yet receiving benefits	57	1	1
Active plan members	3,823	768	1,087
Total	5,549	1,297	1,762

B. City Employees' Pension Fund

1. Plan Description

The CEPF covers substantially all full-time employees of the City except for uniformed fire fighters and police officers who are covered under the FPPF. Non-employer contributions are limited to participating employees of the City. The designated purpose of the CEPF is to provide retirement, death and disability benefits to participants or their beneficiaries.

Membership is mandatory for classified employees (except permanent part-time employees). For non-classified employees, membership is mandatory after July 1997. Classified employees include all persons who are permanent, full-time employees and are not otherwise excluded from the CEPF.

Participants who leave the plan before completion of five years of service receive a refund of their contributions. Participants leaving the plan with more than five years of service receive their contributions plus interest at 5.5%, compounded annually, provided they are not eligible for normal retirement. Participants become vested after ten years of service. Normal retirement is the earlier of (i) fifty-five years of age with ten years of service or (ii) thirty years of service regardless of age. Participants who have both completed ten years of service and attained age forty may retire but defer receiving pension payments until they reach normal retirement age.

Alternatively, such vested participants may elect an early retirement that will provide an actuarially reduced pension benefit payment upon termination.

B. City Employees' Pension Fund (Continued)

1. Plan Description (Continued)

Persons retiring and eligible to receive benefits receive monthly pension payments in the amount of 2.5% of average monthly gross earnings received by the employee during the three years immediately prior to retirement or 2.5% of the average monthly base salary and longevity pay received by the employee during the year immediately prior to retirement or 2.5% of the monthly base salary and longevity pay for the month immediately prior to retirement, whichever is greater, multiplied by the number of completed years of service, plus .2083 of 1% of such average for each additional completed or fractional part of a month of service. A reduced pension benefit is available to surviving spouses and dependents.

2. Basis of Accounting

The CEPF financial statements are prepared using the accrual basis of accounting. Employer and plan members' contributions are recognized in the period in which employees provide services to the entity. Benefits and refunds are recognized when paid in accordance with the terms of each plan.

3. Method Used to Value Investments

Investments are reported at fair value. The fair value of investments is determined by the latest bid price or by the closing exchange price at balance sheet dates (market value). The fair value of investments in bank collective investment funds is determined by the third party investment managers based on the market values of the underlying securities in the funds. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

4. Concentration of Investments

The following table presents the fair value of investments that represent 5% or more of the CEPF's net assets available for benefits at August 31, 2005. These investments are in bank collective investment funds that consist of diversified portfolios of investments.

	Shares	Fair Value
EB Stock Index Fund Mellon Capital Management Corporation	51,852	\$ 70,736,735
EB MCM Intermediate Government Bond Index Fund Mellon Capital Management Corporation	207,238	41,747,919
FMTC International Growth Fund		
Fidelity Investments	1,973,852	43,799,762

5. Contributions

Contribution rates for the CEPF are based upon local statutes and are not actuarially determined. However, each time a new actuarial valuation is performed, contribution requirements are compared to the actuarially determined amount necessary to fund service costs and amortize the unfunded actuarial accrued liability (using entry-age-normal cost method) over thirty years. The City contributes 10.25% and employees contribute 6.75% of covered payroll.

B. City Employees' Pension Fund (Continued)

6. Securities Lending

The CEPF entered into securities lending transactions during fiscal 2005 with brokers/dealers for which fees were paid to the CEPF. The CEPF Board may legally and contractually authorize the use of CEPF's securities for lending transactions. Parameters are set with CEPF's investment guidelines for securities lending transactions. These guidelines require that all securities lending occur with specified broker/dealers and securities be collateralized using U.S. Treasuries at 102% of the fair value of the securities. U.S. Treasuries used as collateral are marked to market on a daily basis to ensure that 102% collateralization of the fair value of investments is always maintained. The CEPF may not pledge or sell the collateral securities except on default of the borrower. Because of this, CEPF administration believes there is minimal credit risk associated with securities lending transactions. There is no loss indemnification provided to CEPF by the investment managers or broker/dealers. There is no cost associated with securities lending. As of August 31, 2005, securities loaned to others, at fair value, consisted of:

United States government securities	\$ 49,009,485
Corporate bonds	872,558
Corporate stocks	13,733,748
Agency securities	 11,157,857
Total	\$ 74,773,648

7. Funding Progress, Employer Contributions, Net Pension Obligation and Actuarial Information

The latest actuarial valuation date was September 1, 2004.

C. Firemen and Policemen's Pension Fund

1. Plan Description

The designated purpose of the FPPF is to provide retirement, death and disability benefits to participants or their beneficiaries.

The FPPF is a defined benefit pension plan covering uniformed firefighters and police officers employed by the City of El Paso. Non-employer contributions are limited to participating employees. The City of El Paso is the only participating employer. The City's contributions to the FPPF are limited to 18% of compensation as provided by the City Charter.

The FPPF - Firemen Division is a defined benefit, contributory retirement plan covering uniformed employees of the Fire Department. Participants are required to contribute 15.28% of their compensation to the FPPF.

The FPPF - Policemen Division is a defined benefit, contributory retirement plan covering uniformed employees of the Police Department. Participants are required to contribute 11.89% of their compensation to the FPPF.

Under both divisions, membership is mandatory and effective upon commencement of the probationary period. Participant contributions are not refunded if a participant terminates with less than five years of service and all benefits under the FPPF are terminated. Participant contributions (without interest) are refunded upon request if a participant terminates with five or more years of service but less than twenty years of service. All benefits under the FPPF are terminated if contributions are refunded.

A provision was added to allow active members who are fifty years old and have twenty and one-half years of service to elect the Back Deferred Retirement Option Program (Back DROP) for a minimum of six months and for not more than 36 months.

Upon completion of ten or more years of service, a participant may terminate his service for reasons other than disability or death and receive a pension commencing at age fifty or immediately upon date of termination of service if at least fifty years of age at the time of termination. The pension benefit is equal to 2.75% times final compensation, times the number of years of service, not to exceed 28 years. Normal retirement occurs when employees reach age forty-five and have twenty years of service. Retirement benefits are computed based upon 2.75% of the participant's final compensation times the number of years of service, not to exceed 77% of a participant's final compensation multiplied by the applicable actuarial reduction factor (early retirement). A reduced pension benefit is permitted with twenty years of service and before age forty-five. The pension benefit is equal to 2.75% times final compensation times the number of years of service, not to exceed twenty-eight, multiplied by the appropriate actuarial reduction factor.

Final compensation is based upon the participant's highest wages in any calendar month within the 12 months preceding retirement excluding overtime pay. Except for disability pensions, a participant's final rank must have been held for at least six months in order to use the monthly pay at the higher rank. A surviving spouse receives 100% of the retiree's pension subject to certain provisions. A participant may receive disability benefits resulting from a total and permanent disability from an injury in the line of duty or any injury not due to the member's own fault. The disability benefit is equal to 2.75% of final compensation times the number of years of service, not to exceed twenty-eight years, with a minimum benefit of 50% of final compensation. Cost-of-living adjustments are granted to individuals retiring after March 23, 1980, subject to applicable waiting periods, except for deferred retirees.

2. Basis of Accounting

The FPPF is maintained under the provisions of Article 6243b of *Vernon's Annotated Texas Statutes*. All current FPPF provisions are set forth in a resolution entitled "City of El Paso, Texas Firemen and Policemen's Pension Fund" effective October 16, 1996 and amended July 17, 2002, as well as state statute. Benefit provisions, contribution obligations and funding policy of the FPPF are established and amended in accordance with authority granted by Article 6243b of *Vernon's Annotated Texas Statutes*. The costs of administering the FPPF are paid out of the Fund's assets.

The FPPF financial statements are prepared using the accrual basis of accounting. Employer and participant contributions are recognized in the period in which employees provide services to the entity. Benefits and refunds are recognized when paid in accordance with the terms of each plan

C. Firemen and Policemen's Pension Fund (Continued)

3. Method Used to Value Investments

Investments are reported at fair value. The fair value of investments is determined by the latest bid price or by the closing exchange price at balance sheet dates (market value). Purchases and sales of securities are recorded on tradedate basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

4. Contributions Required and Contributions Made

Funding policies provide for periodic employer and participant contributions as established by the City Charter, the Board of Trustees and a vote of active participants in accordance with Article 6243b of *Vernon's Annotated Texas Statutes*. Actuarial valuations are prepared biennially for the FPPF. The FPPF's actuary has indicated that, under the current contribution rate, the FPPF will never accumulate sufficient assets to cover the Unfunded Actuarial Accrued Liability (UAAL). Based upon the results of the actuarial evaluations, if present contribution requirements are insufficient to accumulate sufficient assets to amortize the unfunded actuarial accrued liability, the FPPF's Board of Trustees, after approval by secret ballot of the rank and file policemen or firemen, could increase participant contributions or decrease participant benefits to maintain the actuarial integrity of the system. The City's contribution is determined by a formula set forth in the City Charter.

5. Securities Lending

The FPPF entered into securities lending transactions with its custodian bank, Mellon Bank, N.A. (the Lending Agent), under which FPPF owned investments are loaned to one or more borrowers for a fee. The Lending Agent is responsible for collecting all required collateral in the form of U.S. dollar cash, securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or irrevocable letters of credit issued by banks independent of the borrowers.

Concurrent with the delivery of the FPPF's securities to a borrower, the Lending Agent obtains from the borrower collateral in an amount equal, as of such date, to the required percentage, of the market value of any security loaned, including accrued interest. The required percentage is 102% with respect to U.S. securities and 105% with respect to foreign securities except in the case of loans of foreign securities which are denominated and payable in U.S. dollars, in which event the required percentage is 102%.

At December 31, 2004, \$7,340,000 of FPPF owned investments were loaned to others.

Mortality rates for healthy members were changed from the 1983 Group Annuity Mortality Table (1983 GAM) to the 1994 GAM. Retirement rates after age 49 were decreased by 10%. Projected salary increase rates were increased by .5%.

NOTE 15. FUND DEFICITS

The following funds of the City had deficit net assets as follows:

	S	upply and	Self	Solid
		Support	Insurance	Waste
		Funds	Funds	Management
Net asset deficit	\$	(504,260)	(19,818,167)	(15,624,729)

NOTE 16. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

A summary, by department, of expenditures exceeding appropriations at the legal level of budgetary control is as follows:

General Fund	
Department:	
General government:	
Mayor and Council	\$ (71,322)
Municipal Clerk	(1,615)
Purchasing	(39)
Information Technology	(166,070)
City Attorney	(9)
Office of Management and Budget	(369)
Planning	(7)
Tax Office	(237)
Public safety:	
Police Department	(36,155)
Fire Department	(413,303)
Municipal Court	(116,177)
Public works:	
Administration	(122, 139)
Engineering	(12,636)
Building Services	(2,411)
Streets	(410)
City-County Health	(67,683)
Parks Department	(77,998)
Culture and recreation:	
Foreign Trade Zone	(11)
Community and human development	(832)
Nondepartmental:	
Operating contingency, salary reserve	
and transfers to other funds	(1,331,582)

Expenditures exceeding appropriations were funded through revenue sources in excess of the budget or unexpended appropriations within the same department or function. Fund balance was not utilized.

NOTE 17. SUBSEQUENT EVENTS

Commercial Paper Issuances

On January 4, 2006, the City issued \$10,000,000 of new commercial paper debt. This debt is scheduled to be renewed on March 3, 2006. The annual percentage interest rate upon issuance was 3.08%.

On February 3, 2006, the City issued \$10,000,000 of new commercial paper debt. This debt is scheduled to be renewed on April 4, 2006. The annual percentage interest rate upon issuance was 3.07%.

Settlement on Combination Tax and Revenue Certificates of Obligation

On September 20, 2005, the City received \$17,711,613 from the issuance of Combination Tax and Revenue Obligations on August 23, 2005.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

FEDERAL GRANTS - This fund accounts for grants received by the City from Federal sources including the Center for Disease Control, Office of the President, Environmental Protections Agency, National Endowments for the Humanities and the U.S. Departments of Agriculture, Interior, Justice, Health and Human Services, Education and Transportation.

STATE GRANTS - This fund accounts for grants received by the City from various State of Texas departments and agencies including Texas Department of Transportation, Texas Historical Commission, Texas State Library and Archives, Texas Arts Council, Texas Department of Health, Texas Commission on Environmental Quality and the Governor's Office of Criminal Justice.

OTHER GRANTS - This fund accounts for grants received by the City which do not belong in one of the above funds. Granting entities El Paso Community Foundation, Paso del Norte Health Foundation and local school districts.

NON-GRANTS - This fund accounts for funds received that are restricted by the donor (in the case of donations), City Council action or other legislation. Funds received include donations, Hotel/Motel occupancy tax, proceeds generated from police enforcement activities (including Federal confiscated funds) and proceeds generated by users of the Parks Department, Museums and Zoo.

INTERNAL SERVICE FUNDS

Internal Service funds are used to account for the financing of goods or services provided by one department of the City to other City departments and other public units, on a cost reimbursement basis.

Supply and Support - This fund accounts for the Fleet Maintenance Department which operates the City motor pool and maintains and repairs City owned vehicles and major equipment, excluding the vehicles utilized by Mass Transit. In addition, the City's copy center and postage functions are also accounted for in this fund.

Self-Insurance - This fund accounts for the financing of health bendfits, workers' compensation benefits and unemployment benefits for City employees.
