

A-L	WHEN TO REPORT	L-Y	WHEN TO REPORT
Acquired immune deficiency syndrome (AIDS)	Within 1 week	Legionellosis	Within 1 week
Amebic meningitis and encephalitis	Within 1 week	Leishmaniasis	Within 1 week
Anaplasmosis	Within 1 week	Leprosy (<i>Mycobacterium leprae</i>)	Within 1 week
Anthrax	Call immediately	Listeriosis	Within 1 week
Ascariasis	Within 1 week	Lyme disease	Within 1 week
Babesiosis	Within 1 week	Malaria	Within 1 week
Botulism (adult and infant)	Call immediately	Measles (rubeola)	Call immediately
Brucellosis	Within 1 work day	Meningococcal infection, invasive (<i>Neisseria meningitidis</i>)	Call immediately
Campylobacteriosis	Within 1 week	MPOX	Call immediately
Candida auris	Within 1 work day	Mumps	Within 1 work day
Chagas disease	Within 1 week	Paragonimiasis	Within 1 week
Chancroid	Within 1 week	Pertussis	Within 1 work day
Chickenpox (varicella)	Within 1 week	Plague (<i>Yersinia pestis</i>)	Call immediately
Chikungunya virus	Call immediately	Polio	Within 1 work day
Chlamydia trachomatis infection	Within 1 week	Prion disease such as Creutzfeldt-Jakob disease (CJD)	Within 1 week
Coccidioidomycosis (Valley fever)	Within 1 week	Q fever	Within 1 work day
Coronavirus, novel (including SARS and MERS)	Call immediately	Rabies, human	Call immediately
Cryptosporidiosis	Within 1 week	Rickettsiosis (Rocky Mountain Spotted Fever, other)	Within 1 week
Cyclosporiasis	Within 1 week	Rubella (including congenital)	Within 1 work day
Cysticercosis	Within 1 week	Saint Louis Encephalitis virus	Within 1 week
Dengue virus	Call immediately	Salmonellosis, including typhoid fever	Within 1 week
Diphtheria	Call immediately	Shigellosis	Within 1 week
E. Coli Shiga Toxin-producing (STEC)	Within 1 week	Smallpox	Call immediately
Echinococcosis	Within 1 week	Staphylococcus aureus, VISA and VRSA	Call immediately
Ehrlichiosis	Within 1 week	Streptococcal disease (<i>S. pneumo.</i>), invasive	Within 1 week
Enterobacteriaceae - Carbapenem Resistant (CRE)	Within 1 work day	Syphilis (congenital and in pregnant women)	Within 1 work day
Fascioliasis	Within 1 week	Syphilis (any stage)	Within 1 week
Giardiasis	Within 1 week	Taenia solium and undifferentiated Taenia infection	Within 1 week
Gonorrhea	Within 1 week	Tetanus	Within 1 week
Haemophilus influenzae, (type B, invasive, other invasive)	Within 1 week	Tick-borne relapsing fever (TBRF)	Within 1 week
Hantavirus infection	Within 1 week	Trichinosis	Within 1 week
Hemolytic uremic syndrome (HUS)	Within 1 week	Trichuriasis	Within 1 week
Hepatitis A	Within 1 work day	Tuberculosis (<i>Mycobacterium tuberculosis</i> complex)	Call immediately
Hepatitis B, C, and E (acute)	Within 1 week	Tuberculosis (latent)	Within 1 week
Hepatitis B, perinatal (HBsAg+ < 24 months old) (child)	Within 1 work day	Tularemia	Call immediately
Hookworm (ancylostomiasis)	Within 1 week	Typhus	Within 1 work day
Human immunodeficiency virus (HIV), acute infection	Within 1 work day	Vibrio infection including cholera	Within 1 work day
Human immunodeficiency virus (HIV), non-acute infection	Within 1 week	Viral hemorrhagic fever (including Ebola)	Call immediately
Influenza-associated pediatric mortality	Within 1 work day	West Nile Virus (neuroinvasive and fever)	Within 1 week
Influenza, novel	Call immediately	Yellow fever	Call immediately
Lead, child blood & adult blood ≥ 3.5 ug/dl	Call/Fax immediately	Yersiniosis	Within 1 week
		Zika virus	Call immediately

ANY OUTBREAK, EXOTIC EMERGING DISEASE, OR UNUSUAL GROUP EXPRESSION OF DISEASE THAT MAY BE OF PUBLIC HEALTH CONCERN MUST BE REPORTED IMMEDIATELY. THIS INCLUDES ANY CASE OF A SELECT AGENT.

TEXAS LAW - Several Texas Laws (Health & Safety Code, Chapters 81, 84, and 87) require specific information regarding notifiable conditions to be provided to local and state health departments (CEPDPH & TDSHS). Health care providers, hospitals, laboratories, schools, and others are to report patients who are suspected of having a notifiable condition (Chapter 97, Title 25, Texas Administrative Code). Failure to report is a Class B misdemeanor that carries a sentence of up to 180 days and a fine up to \$2000 under the Texas Health and Safety Code, §81.049.

HIPAA - The HIPAA Privacy Rule [45 C.F.R. Section 164.512(b)] allows reporting without authorization for public health purposes and where required by law.
