City's Parks and Recreation Launches Pilot Recycling Program at Recreational Facilities

El Paso, Texas—The City of El Paso Parks and Recreation Department is proud to announce the launch of a pilot recycling program at all recreational facilities.

The initiative aims to promote sustainability, reduce waste, and encourage residents to adopt environmentally friendly practices in their daily lives.

As part of the program, recycling bins will be placed in key areas throughout Parks and Recreation facilities, making it easier for visitors to recycle paper, plastics, aluminum, and other recyclable materials. Informational signage, developed in collaboration with the Environmental Services Department's Recycle Right Outreach Team, will help guide proper recycling practices.

"Our recreation centers are hubs for community engagement, and we are excited to introduce this program to further our commitment to sustainability," said Parks and Recreation Assistant Director Emigdio Gonzalez. "By making recycling more accessible, we hope to inspire residents to take an active role in protecting our environment."

Recycling bins will be strategically located across all Parks and Recreation facilities, including Recreation Centers, Community Centers, Senior Centers, Aquatics Facilities, and Sports Fields. They will also be available during events organized by the department.

The pilot recycling program supports the City's broader sustainability goals and is part of ongoing efforts to reduce landfill waste and lower the community's carbon footprint.

For more information about the recycling program, call 915-212-0092 or email ParksAndRecreation@elpasotexas.gov. To learn more about the Parks and Recreation Department, visit www.ElPasoTexas.gov/parks.
