## City of El Paso to Host Future Land Use Map Workshops to Help Shape El Paso's Growth

**EL PASO, Texas**—The City of El Paso is planning for the future and invites residents to share their vision for how land is used across the community, from open spaces and residential neighborhoods to commercial areas and more.

To gather public input, a series of public workshops will be held. This public engagement will help shape the City's Future Land Use Map, which will guide and help visualize future growth and development within the city limits.

The map is an essential component of Envision El Paso, the City's Comprehensive Plan which is being developed to provide a framework for future development, direct public investment, and guide private investment decisions. The previous award-winning comprehensive plan was adopted in March 2012.
