EL PASO, Texas — Last night, the Special Traffic Investigations unit responded to 1115 South Station (Union Pacific Railroad Yard) regarding a train versus a pedestrian collision. Investigators learned Border Patrol Agents were looking for illegal immigrants on the train. Agents located three individuals on the train and later came across an individual underneath the train who died after being struck by the train. Investigators continue the investigation. This death is not calculated into the city's fatality total for the year as it was not a traffic fatality.
