

RESIDENTIAL ACCESSORY STRUCTURE

Two (2) complete plan sets will be required with the following information:

- 1) Building Permit Application, available at www.elpasotexas.gov
- 2) Property address
- 3) Total square footage for accessory structure.
- 4) Dimensioned site plan drawn to scale. The site plan drawing requires the following information:
 - a) All property lines
 - b) All setback lines
 - c) All utility easements
 - d) All proposed and/or existing structures on the site
 - e) All proposed & existing fences
- 5) Architectural scale drawing of the structure which shows the following:
 - a) Floor plan
 - b) Roof framing plans indicating all beams, rafters, trusses & columns.
 - c) Floor framing plans indicating all floor joists, beams & piers or,
 - d) Foundation plans indicating the type of foundation and footing details
 - e) Typical exterior & interior wall sections

Residential accessory structures shall meet the following criteria;

- 1) Residential accessory buildings shall not exceed one story or fifteen feet in height and must be located in a rear yard or in a side yard if minimum required side setbacks are maintained.
- 2) Any residential accessory building closer than five feet to a main building shall be considered as part of the main building, shall be located within the buildable area required for a main building, and shall be subject to all applicable restrictions for the main building.
- 3) Detached residential accessory buildings shall be located not less than sixty feet from the front lot line, a minimum of five feet from the main building, and shall comply with the side and side street yard requirements. No rear yard setback shall be required.
- 4) The gross floor area of all combined detached residential accessory buildings on a lot shall not exceed the more restrictive of the following, except that one building with up to four hundred square feet shall be permitted:
 - a) Fifty percent of the gross floor area of the main building; or
 - b) Forty percent of the area of the rear yard.
- 5) A residential private garage or other accessory building may be connected to the main building by a breezeway or connected by a fence or wall up to six feet in height, provided that the breezeway shall not exceed an overall width of five feet and shall be a minimum of seventy-five percent open to the outside on both sides.
- 6) Residential accessory buildings shall be built concurrently with or after the construction of the main building and shall be used only as permitted by this code.
- 7) Where a residential garage entrance is from an alley, the structure must be located at least five feet from the property line.
